BIBLE SELECTION AND PRAYER

March 21, 1929

THE ETERNAL GOD—Thou, O Lord, remainest forever; thy throne from generation to generation.—Lamentations 4:15

PRAYER—"Great God, how infinite art Thou! How poor and weak are we! Let the whole race of Creatures bow, and pay their praise to Thee."

THE VISIONS OF FORD

It is always interesting to hear what Henry Ford has to say about modern American civilization. Few men have influenced it as profoundly as he has; consequently, his impression of it and predictions about it are bound to be worth hearing.

In his newest book, "My Philosophy of Industry," Ford again proves himself one of the major optimists of the day.

It is odd, when you stop to think about it, that so few of our writers are optimists. We live in an age of unparalleled progress and wealth; yet most of the writing folk seem to feel that we are moving downhill. The prevailing tone of modern literature, indubitably, is one of pessimism.

But not for Ford. His book has a significance greater than we are apt to realize; for he, better than any other man alive, can see the tremendous possibilities of the age and can look forward with confidence.

Ford, for instance, believes, more than any other man in centuries, that we can mold the world to fit our own desires.

"Our fathers thought that life was hard, but we are beginning to see how preventable some of its hardships are," he writes. "We have come to believe that there is no necessity for economic distress in a world so richly furnished with resources. . . . Economic stoppage is not natural. The defect is not in the created order of things; it is in the human order."

In other words—we can abolish poverty forever and make hunger and want unknown things! In what former age could a man say that without being laughed at as a visionary?

He continues: "Our experiences are coming faster than ever before, both in our industrial world and in our domestic life. Many people see in these changes a world constantly growing worse. I do not believe this; I think we are headed in the right direction and that we should learn to interpret our new

TODAY

By ARTHUR BRISBANE

Pink, Shiny Toes. The Little Birds. Alas, Poor Bears. Moral Russia.

Copyright, 1929, King Features Syndicate, Inc.

IMPORTANT news from Palm Beach, where prosperity gets its coat of winter tan. Ladies, "the very nicest," walk on the beach in silk pajamas, wearing sandals, no stockings. The sandals reveal their little toes, and these toes are manicured, the nails nicely rounded, beautifully polished.

There is good in everything, and manicured toes will be good for the feet of generations to come. Women having spent ages squeezing their feet, almost eliminating the little toe, will now realize that a foot to be beautiful must be treated intelligently.

THE pleasures of our "upper classes" at Palm Beach will interest future historians. At one party a clown drove tiny pigs and another exhibited the smallest living mule named "Spark Plug." That was intellectually most diverting.

THEN there came a "tacky" party, all trying to look poor wearing rags and tags, cheap cotton and calico dresses. And how they did laugh as they saw each other. Marie Antoinette dressed herself in the clothes of a shepherdess and pretended to be a little milkmaid in the little trianon. That was dangerous in old France, because the French royal "tacky party" actually ruled France.

Palm Beach's tacky party only rules Palm Beach.

IN an old fable little birds in the wheat field were worried. They heard the farmer's son say, "we must eat that wheat tomorrow."

The mother birds said, "don't worry." But when the farmer himself said, "we must eat that wheat tomorrow," the mother bird moved her little brood.

WALL STREET speculators paid little attention to federal reserve gentlemen, solemn bankers and others saying, "you are gambling too much in Wall Street; you will suffer if you persist."

But now that farmer Mellon, boss financier of high finance, says Wall Street ought to be careful, perhaps Wall Street will listen.

BEARS bit the dust in Wall Street the other day, and bit it hard. Stocks went up from five to ten points. The worm turned and "call money" cost only 7 per cent, while time money, for "legitimate business," cost 8 per cent.

How long business can thrive on a shaky basis remains to be seen.

WE read that in Russia young people expel from their association a boy or girl guilty of indecent jazz dancing in public, also boys and girls guilty of

life rather than protest against it. We are entering a new era. Old landmarks have disappeared. Our new thinking and new doing are bringing us a new world, a new heaven and a new earth, for which prophets have been looking from time immemorial. Much of it is here already. But I wonder if we see it.

The age of power and machinery is upon us, whether we like it or not, and is going to stay with us. Because it has been here so short a time, it is easy to see only the ugly, depressing side of it and ignore its possibilities for the future. It is for that reason that Ford's book is important.

This man, who knows more about the age of power and machinery than any other, can look to the future with confidence. It we are wise we will listen to what he has to say, so that we can make sure that the new age will shape itself so as to bring us those great advances which it has made possible.

Thoughts We've Been Thinking

Sob Sisters Sob, But What of It; Klamath Will Soon be in Step With Present Development of Aviation in Nation.

By BRUCE DENNIS

THE sob sisters are giving a lot of attention now to the unsanitary conditions of jails. They claim they are honey and breed disease, and they breed crime; and they bewail the fact that the jails of the country are not put in first class condition to take care of the criminal element. There may be some argument for their position, and there may be some truth in their statement, but somehow the hard working people who never go to jail and attend to their own business are not worrying much about the conditions of the cells in the criminal quarters.

THE state legislature overlooked one kind of tax; it covered every other known tax but it failed to enact a nuisance tax. That is something that should be taken up at once and recommended at the next session.

HERE is a good one: Someone has described Americanism as being twin beds and twin garages for the native stock, but twin children for the new immigrant.

THE airport committee of the Klamath chamber of commerce recently met and discussed several sites. Each member realizes that the time is at hand for Klamath Falls to get into the air game.

To show that the air business is moving it might be well to call attention to the year book of the Aeronautical Chamber of Commerce, which has just been published, and makes public some interesting things and figures about aviation progress in this country. Air transport companies during 1928 covered 194,400,000 miles of scheduled routes with a fleet of 294 planes and carried 32,934 passengers. These figures represent an increase of 420 per cent and 190 per cent in mileage over those of the previous year. Two passenger routes, covering 6451 miles were added during 1925 and 18 mail lines were established, covering 6099 miles. Nine express lines, carrying 2151 miles were started. Air mail, the big help to this transportation, was tripled during the year, increasing from 1,229,842 miles in 1927 to 2,632,159 miles.

D WIGHT B. HEARD, of Arizona died recently, went to Arizona a young man to find health. Arizona gave it to him, and he gave Arizona tremendous energy and unlimited devotion for nearly thirty years.

The state has lost a powerful citizen, and the Arizona republican an energetic, able publisher.

MR. STIMSON, secretary of state, says putting a tax on Philippine importation would be "following the policy of George the third with the tea tax."

While the Philippines are United States territory, it is not probable that any tariff wall will be raised. But it is useful to remind Filipino friends that the independence they seem to crave would certainly mean a tariff.

AND there is this question: A What would happen if a little later ten or twenty million Asiatics in the Philippines should be working at Asiatic wages, in Filipino factories and plantations, in competition with American labor, on a free trade basis?

PROFESSOR CARD, of Philadelphia, says women will soon wear dresses made of asbestos, fireproof, shiny as silk, more durable than any cloth, easily cleaned with a wet cloth, costing less than other materials.

ALL interesting, but women probably won't wear asbestos. Imitation pearls are as handsome as real pearls. Synthetic rubies and sapphires are made exactly like the real but women insist on having the real.

ACCORDING to grand jury investigations in New York, where thirteen are indicted, a rum syndicate has a fleet of ships, with expert buyers aboard.

Perhaps the "five and ten penalty," five years in jail, \$10,000 fine, may discourage this. Probably not.

DEATHS

LEVI TARRELLTON BROWN. Friends are respectfully invited to attend the funeral services of the late Levi Tarrellton Brown to be held Thursday afternoon at 2:30 o'clock at the Earl Whitlock Funeral Home, Pine Avenue at Sixth, services of the First Church of Christ Scientists to be read. Interment will be made in the family plot in Linkville cemetery.

ROSS WILLIAMS HARDCASTLE. Funeral services for the late Ross Williams Hardcastle were held Wednesday afternoon at the Earl Whitlock Funeral Home with Rev. Rittenhouse officiating. The remains were forwarded to Woodburn, Oregon where commitment services will be held and interment made in the family plot.

LILLIAN EMILY WILSON. Friends are respectfully invited to attend the funeral services for the late Lillian Emily Wilson to be held Friday afternoon at 2:30 o'clock at the Earl Whitlock funeral home, Pine avenue at sixth, with Rev. J. Henry Thomas, pastor of St. Paul's Episcopal church, officiating. Interment will be made in Linkville cemetery.

GETTING UP NIGHTS IN NATURE'S BANNER SIGNAL. Rev. W. H. Mitchell, Jeffersonville, Ohio, says, "I feel I am doing real missionary work when I tell of writing how my wife was relieved of a serious case of bladder irritation with Littlefield's Buchu-Kelley Formula." She had to get up 6 to 8 times each night. It acts on bladder as epsom salts do on bowels. Drives out foreign deposits and lessens excessive acidity. This relieves the irritation that causes getting up nights. The tablets cost 25 each at Star Drug Store, 5th and Main Sts.—adv.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhea checked. A vegetable product, a baby remedy meant for young folks, Castoria is about the only thing you can give your baby without giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any time of the day or night that baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

Undoubtedly American air business is just beginning and Klamath Falls must hasten her efforts as much as possible in order to have an airport large enough to accommodate big air machines. The airport committee realizes this full well and is directing every effort toward that end.

WE believe that the time has come when Eastern Oregon is going to expand more rapidly than she ever has in her history. Notes the meeting in Denver, when the irrigation people, including Mr. Newell of Klamath Falls, discussed all of the different projects that are now pending and decided that the Vale irrigation project should be finished as soon as possible. This is a tremendous boost to the Eastern Oregon country, for the Vale territory, rich in sunshine and rich in soil, has laid idle due to the fact that its irrigation project was not completed and was not in such shape that it could be properly settled. The Vale project is only one

of the big things that is now before the Eastern Oregon people. Therefore Klamath Falls has occupied the center of the stage in all the big things, but now we are willing to concede that Vale and Ontario have something better than that is of gigantic importance.

ANOTHER little duty attached on Sheriff Lloyd law by the last legislature was the collection of dog tax throughout the county. The dog legislature, realizing how many sheep are killed by stray dogs and that there are many dogs running around throughout the county, decided to tax them. The legislature then decided that there should be one tax in each county should be the tax. We can see the result of this office are all over the county in such a shape that they hardly have time to go to work. Oh, it is time for the sheriff, especially in the county where things are getting so shabby.

Talent Arrests Alleged Booze Vendor in Hotel

PORTLAND, Ore., March 20, (UP)—Among the numerous persons who made a beaten path to James E. Falt's doorway at a local hotel today was Terry A. Talent, federal prohibition agent, who awarded him the very doubtful honor of being the first person arrested in Oregon for sale of liquor since passage of the Jones act, which provides a sentence of five years in a government prison and a fine of \$10,000 upon conviction. Falt dispensed "scotch" whiskey at \$11 a quart and had a lucrative trade among those who want a nip, at 50 cents a drink, Talent said. Assistant United States Attorney Charles W. Eskine said Falt would be prosecuted under the Jones act. Bail was set at \$1500.

Ralph Hutchinson has arrived here from Bray, Calif. and will remain indefinitely.
