The water of Upper Klamath lake is 15 inches below the normal depth of that lake at this time of year, but is increasing since the Copco ceased withdrawing water from it last week after the heavy rain and snow caused the Rogue river to rise again, and also because of the thaw of snow in the Cascade range. This word was brought back to the city by Supervisor Hugh B. Rankin of Crater National Forest, who while at Rocky Point on timber business yesterday gained information from Arthur Leavitt, lessee of the Rocky Point resort.—Medford Tribune.

A new toll station is to be installed at the Ames service station near the summit of the Green Springs by the Pacific Telephone and Telegraph company. This station is being installed for the convenience of the traveling public, since many calls for service come from this point. Later, a small exchange may be installed at the lumber town of Lincoln, also near the summit. Although no definite action has yet been taken, the rapidly with which this town is growing, it would seem, would soon warrant such expansion.—Ashland Tidings.

CARD OF THANKS

We will always hold in grateful remembrance the many acts of kindness shown to us during our recent bereavement, the illness and passing of Charlotte R. Tooker. We are especially thankful for the expression of sympathy, both verbal and floral, tendered us which acted as a balm of gracious relief, and lightened our burdens in an immeasurable degree. The presence of the many friends at the service was a source of much comfort to us.

Below Tooker, husband.
Mrs. W. W. Ramsey, daughter.
Clinton E. Tooker, son.
