Schilling specializes in fine coffee.

It would be such a simple matter for Schilling to produce both good coffee and cheap coffee. Everyone else does it. So did Schilling at one time. But Schilling learned that cheapness is contagious. There are many good coffees—all made in company with bad coffees. But Schilling good coffee has no companions. The finest things usually come from those who make good things only. Sometimes the difference is not great—but it's there just the same.
