Bad Breath spoils the sweetest smile

THAT disgusting "brown" morning
taste in your mouth, a whitish or
yellow coated tongue—these are sure
signs your breath is bad.
The tongue and mouth is nothing
more or less than the upper end of your
stomach and intestines. When the
condition below is upset and badly
digested food is souring in these
organs, your breath tells the story
and all the mouth washes and
antiseptics can't mask its
offending odor for more than a few
minutes. You need Tanlac to correct
this condition.
Taken before meals Tanlac prevents
formation of gas and acids so there is
no souring, bloating or distress.
Tanlac helps regulate the bowels,
too, and so with your system free
of poisonous toxins and acids, your
breath is immediately sweetened. Get
a bottle today at your druggist. Accept
no substitute. Satisfaction or
money back.

Every Stomach Sufferer Has It—Tanlac Corrects It
