be hopelessly in love, but it was familiar pain, a dear pain, if there can be such a thing.

She was glad not to have to talk about herself with Prentiss and glad to have a third person present. She wondered what would happen when the other girl left them. Would Prentiss follow up whatever had come into his mind at the party and try to make love to her?

No, it seemed that he had been merely caught in the feeling of the moment—which was one of adulation and flattery toward her. He had liked being the one who brought her—a celebrity—to the party.

This he told her on the way home. Beryl felt a touch of scorn toward the young man. Still his was a natural attitude and he had been honest as well as extremely

to greet them. Beryl was welcomed, literally with open arms. It was known she would sing for them. She had no more private conversation with Prentiss that night. When they left they had another girl with them, a girl who lived on the North shore. Something had happened to her escort. Beryl didn't exactly know what. She only knew that their hostess had asked Prentiss if he would mind dropping this other girl at her home. The girl was quizzed on the drive and Beryl sensed that she was emotionally upset. Beryl was glad of her presence.

Had Prentiss forgotten Irene? Beryl wondered because when they had danced together at the party he had seemed just as he was before seeing her sister. She had rather dreaded the drive home with him. It might be that second thoughts on her conduct earlier in the evening would give him a new set of ideas about him. He might attempt experimentation.

All that had been in her mind when she dressed that evening was gone, gone for good. In its place was a high, fine feeling of escape. Better to be again living only for Tommy. There, in the world that she had created for just the two of them, dream world though it were, she was safe. Going back to it she felt that she had new faith in herself. She didn't like having her mind cluttered up with changing emotions. It was painful to

do not take advantage of her own letters.

When they reached her home and Prentiss said he was thirsty she felt that it was not a ruse to stay with her longer, so she let him come in.

There asleep on the sofa was Irene. (To Be Continued)

Meals cook themselves Electrically It's like having a maid to do your cooking

There's no need to stay in the kitchen in order to cook. This new electric automatic way cooks meals more delicious than ever before while you are away from the kitchen. You merely put the meat in the oven, set the automatic timer and go away. Don't go near the kitchen again. Just forget all about the cooking until mealtime. While you are gone, the oven will cook itself automatically at the right time. It will keep at the exact heat you want. And will turn itself off at the proper time. No heating, tending, changing or watching is required. The meal cooks scientifically to make delicious palatable food you have ever known.
