BUTTER MARKET STILL UNCHANGED

PORTLAND, June 5. (AP)—Absence of price change in the market for cheese during the week was suggested in the six day review of the domestic trade. There appeared one significant feature, however. The price appears to have reached its immediate height with suggestion of a slight degree of easiness at intervals in the eastern trade. However, there was no general price change anywhere. There was no change in the general local butter and butterfat situation for the week's opening. Cakes and prints alike were inclined to show a steady tone at last week's values. Prices were mixed in the egg trade, with practically only one interest, the Co-ops, quoting the higher figures. "We are increasing sales," says Manager Reed, "and maintaining prices."

YOUR FREEDOM'S AT STAKE THE CALIFORNIA OREGON POWER COMPANY WOMEN who are slaves to their stoves have little time to call their own. Why put up with such old fashioned drudgery when an Electric Range will set you free? The Electric Timer will handle all of your baking and roasting automatically, doing away with the testing, watching, waiting that have squandered so much of your time in the past. Besides, there's the Automatic Heat Control that eliminates guesswork and prevents costly and annoying cooking failures. The clean, flameless heat of the Electric Range also makes unnecessary all of the cleaning of blackened pots and pans and soiled walls that was unavoidable with an old fuel stove. More important than all of these time-economy features, however, is the simple fact that you'll like the flavor of foods cooked the new electric way much better. Do not miss the 5 days of the Klamath Herald-News Happy Kitchen, starting Wednesday afternoon, June 7, at the Pelican Theatre.
