Baking Powder Hints Will Bring Better Results To Klamath Falls Housewives

Helpful Baking Hints to Those Using K C Baking Powder

Always sift flour and K C baking powder together at least three times. The more sifting, the lighter, finer texture the cakes, biscuits, etc., will be.

To mix a cake, first cream butter and sugar thoroughly, then add yolks, if used. Then alternately add moisture and flour that has been sifted with baking powder and stir until smooth and glossy, adding beaten egg whites after thoroughly mixing.

For cakes, have your oven slow to moderate at first, until the cake is fully risen; then increase heat so as to just brown lightly.

WEATHER CHANGES PRICE OF WHEAT

CHICAGO, June 6. (AP)—Predictions of cooler weather eased wheat prices at 1 1/2c last today. Earlier the market had averaged higher because of blistering temperatures southwest and west for the fourth successive day.

No rain was indicated over the heat-stricken region, and crop experts expressed belief that shriveled and light weight wheat would constitute a large part of the 1933 harvest. Speculative trading was curtailed by renewed uncertainty about agricultural administrative developments at Washington.

Wheat closed nervous, 1c to 1 1/2c under yesterday's finish; corn, 1c to 1 1/2c down; oats, 1c to 1 1/2c advanced, and provisions showing 5c to 10c decline.

Faultless BREAD

Baked in Southern Oregon's Finest Bakery

Better Baking Co.

Miss Hester Heath chooses the "balanced" flour

Pillsbury's Best

She will use it for all her baking during the News-Herald Cooking School because she knows that "balanced" flour will work perfectly for anything she wants to bake from bread to the most delicate pastry.

Sometimes you'll find a flour that works all right for bread, but not for pastry or biscuits. Sometimes you'll find one that's just the opposite—good enough for biscuits or pastry but no good for bread. These flours are not properly "balanced." Sometimes they are made of only one type of wheat. Pillsbury's Best is made of a blend of different types of fine wheat, "balanced" to work perfectly for anything you want to bake. Pillsbury's Best is best for bread, best for biscuits, best for pastry or cakes, best for anything you decide to bake. Come to the Cooking School, and see how perfectly it works!
