The Four-L And the Recovery Bill

THE industrial control bill passed by congress and signed by the president has been the chief subject of discussion among lumber organizations all over the country.

The methods of the Four-L interests have been noteworthy. The organization has taken the initiative in promoting control within its ranks and has moved with a spirit of democracy in effecting its aims through majority support.

"If industry does not see its opportunity and embrace it, it will be done from without. The alternative, therefore, is not shall it be done, but by whom shall it be done."

This is what the Four-L proposes to answer. It is not a question of whether or not it will accept the suggestions of the new regime; it is a question of whether it will work from the mandates of its own group or of outside leaders.

The Four-L has been a pioneer in fostering the clauses of the recovery bill; it has prepared itself, and now it is ready to progress under new supervision.

The Big Game Goes to Portland

ATHLETIC officials of the University of Oregon and Oregon State college have viewed the possibility of moving the traditional football game between the Webfoots and the Beavers to Portland for a number of years, and when they did finally take the step this year, they knew thoroughly there would be some criticism.

The Salem Capital Journal, probably considering its own case and the threatening loss of its state basketball tournament, has branded the gridiron shift as a "sacrifice to greed."

The Oregon-Oregon State football game is not an event possessed exclusively by Eugene and Corvallis; it is something belonging to the athletic interests of Oregon. The greatest number of spectators could with the greatest ease witness this contest at Portland.

ference to alumni even from this section of the state. The two schools plan to take the game to Portland once in three years. This can be justified in almost every argument; the schools should be commended for their wisdom.

The Circus As a Financial Indicator

THE circus, one of the world's most gigantic portable business enterprises, turns itself into an indicator for the nation's pocketbook. And this year the circus has observed a better-fitted and more freely-emptied pocket than in several seasons.

Increasing Value of Church Vacation Schools

THE vacation school conducted by the Congregational Community church has spread a happy influence among scores of children in Klamath Falls. It presents a fitting opportunity for parents to congratulate Rev. T. Davis Preston, the pastor, who has built up efficiently and rapidly a wholesome religious institution.

Telling the Editor

Klamath Falls, Ore. To the Editor: Under the heading "Telling the Editor" in the issue of June 15, there appeared a letter from Mrs. Helen Hecota of Sprague River, Oregon, stating that the poundmaster came to her home, during her absence, and took away a valuable dog of malamute breed.

SIDE GLANCES— by George Clark

in the first place) not giving her a reason for taking this valuable dog in custody, not even a chance to get a license. Now, in the first place, I had orders from the Indian official to get this dog, dead or alive.

again, and if it is wise it will pass on a part of this profit to its employees in the form of higher wages. By doing that, it will be not only helping its employees, but HELPING ITSELF—because, as already stated, business can be really good and we can have prosperity only when those who work for wages have money enough with which to buy the things that industry produces.

When prices go up without a corresponding increase in wages, what happens is that those who work for wages are ROBBED.

That is to say, more money is taken out of their pockets for the necessities of life and no additional money is put back into their pockets to make up for this drain. As a result, the pockets of those who work are EMPTIED—and every merchant knows that he can't sell goods to customers whose pockets are empty.

IN EUROPE, and also in Japan— which is in Asia, instead of Europe—inflation has been used deliberately to help business by HURTING labor.

It has been enabled to do this by ROBBING labor. Let's see to it that we don't do that in this country. It is unjust to begin with, and foolish to end up with—because the only way in which we can have real prosperity is for people who work for wages to have money enough with which to buy and pay for the things that industry produces.
