"Bamboozled" is right! When the administration of governmental affairs becomes a joke and interference a heroic stunt it'll be time to take Adolf Hitler's advice and throw away representative government. Edington's statement reveals how those people of Medford who "in Dutch" allowed themselves to be blindly led by one who had either lost his respect for law and order or didn't take his government seriously.

It just happens that ballot tampering is a crime. And the theft trinis over in Medford show that the citizens of Jackson connty can't see the ballot theft as a joke or a "heroic stunt." you resolve to play "follow the leader" in politics and government, be sure of your leader.

baking on the beach just ian't good for hair.

In the first place, too much sunshine is apt to dry out your scalp. If you feel that you just can't wear a hat when you're in the sun then make up your mind to oil your scalp.

Hot oil shampeos are excellent for a scalp which has a tendency toward dryness. Massace a generous amount of warm olive oil into your scalp the night hefore you are going to have a shampeo. Wrap an old clean towel around your head so you won't soil the pillows and let the oil stay on all night. Shampeo the next day in the usual manner.

If you do your bathing in salt water be sure and rinse it all out of your hair after each swim. You can rinse it under the fresh water shower while you're showering your body and the bathing suit.

Hair which has been dyed or "touched up" usually reacts unfavorably to hot sun. If you don't want streaks, wear a hat when your head is exposed.
