AMUSEMENTS

PELICAN—Now playing, Frederic March and Cary Grant in "The Eagle and the Hawk."
Coming Friday, Kay Francis and George Brent in "The Keyhole."

PINE TREE—Now playing, Joan Blondell in "Broadway Bad."
Coming Friday, Rex Bell in "Fighting Texans."

VOX—Now playing, John Barrymore in "Reunion in Vienna."

Kay Francis

"The Keyhole," a picture of romance and gay adventure, unique in plot and glamorous in setting, in which the two popular Warner Bros. stars, Kay Francis and George Brent appear together for the first time, opens at the Pelican Theatre tomorrow.

There is a swell chosen cast of selected players. Glenda Farrell and Allen Jenkins form an excellent comedy team, their pseudo romance acting as a foil to set off and accentuate the dramatic roles of the two co-featuring players, Miss Francis and Brent. The other three players who have important parts are Monroe Owsley, Helen Ware and Henry Kolker.

PINE TREE
A fast moving melodrama featuring a laugh a minute, and an action climax chuck full of thrills. This just about sums up "Fighting Texans." Monogram's new western, starring Rex Bell, which opens at the Pine Tree Theatre tomorrow. Added to all this, the story has a real punch and the plot would hold its own even without Bell's spectacular exhibition of fine horsemanship at the finish.

Rex Bell takes advantage of the fine opportunities offered him in this picture to do some real acting. Luana Walters

QUERIES POUR INTO OFFICES OF NRA CHIEF

WASHINGTON, Aug. 2. (AP)—Here, briefly, are answers to some diversified questions on industrial recovery, made by Hugh S. Johnson in response to queries by newspaper men in recent conferences:

Will government contracts with private industry be adjusted to meet rising prices?
Johnson will recommend to President Roosevelt that legislative sanction be given such adjustments.

Are public utilities included in the scope of President Roosevelt's blanket wage and hour agreement?
They are, exclusive of railroads which are under the interstate commerce commission.

"Are you profoundly gratified with the response of the public utilities toward the program?"
"No," Johnson replied.

If a retailer is a member of one of the trade associations signing the retail code agreement, is he bound by its provisions?
Not unless he subscribes to it directly and complies with its terms, and if he doesn't sign it or the president's agreement he won't get the blue eagle.

Will Puerto Rico and other territories have separate codes, or are their industries included in the general codes?
Johnson thinks he has enough to attend to domestically now and will look into the territories later.

Will iron mines and coal mines owned by steel companies come under the terms of the steel code?
That is a question still to be determined.

Is the lumber code, on which hearings were completed some time ago, ready for promulgation?
Deputy Administrator Gates has not yet completed his report.

Is there anything the administration can do in regard to the coal strikes in Pennsylvania now that the coal code is formally adopted?
What is the administration's attitude toward the proposal that steel include in its code a provision for a planning committee to

include representatives of the government?
No codes have been approved and none will be by Johnson that doesn't provide for such "control" committees.

What action will be taken if employers who are under codes violate their labor or other provisions?
If any of these reports are substantiated Johnson would turn them over to the control committee and if the practice were not corrected take "very prompt action" to the maximum extent of the law if necessary.

Has the administration had any complaints from communities with frozen banking facilities or inability to comply with the agreements?
"I have had complaints of every kind you can think of," Johnson replied.

RELIEF COMMITTEE REQUESTS PRODUCE

Owing to the inability of the Klamath county relief committee to get potatoes for distribution to the commissary, the committee has requested anyone having gardens and surplus vegetables to turn them over to the commissary.
The committee met in regular semi-weekly session Wednesday morning and cared for only routine business matters concerning distribution of food and relief lists.

SUSPECT TAKEN IN CHILD MURDER

LOS ANGELES, Aug. 1. (AP)—Chief of Detectives Joseph Taylor said today that a suspect was arrested on Wilshire boulevard last night in connection with the Delbert Aposhian murder case at San Diego and rushed to San Diego.
Taylor said the man had made a confession to killing the seven-year-old boy, whose mutilated body was found in San Diego bay July 24.

MANAGUA RULED BY MARTIAL LAW

MANAGUA, Nicaragua, Aug. 2.—Modified martial law was declared today after a series of explosions in the Campo De Marte arsenal caused considerable destruction and injured four members of the national guard. None was killed.

About 500 men were ordered to Managua from Leon and guards were stationed at the arsenal. Meanwhile the government ordered an investigation.
Early reports were 30 guardsmen had been killed or wounded but a subsequent official statement said there had been no fatalities and the injured totalled only four.

Many of the 50,000 inhabitants were participating in a traditional fiesta at Santo Domingo Plaza when the first detonation occurred at 7 p. m. P. S. T. Lesser blasts continued until after midnight.

Crowds of merrymakers, nearly panic-stricken, rushed through the streets. It was believed the disaster was accidental in origin, but the populace, not knowing what was happening, was thrown into a state of intense excitement at first.

Houses were shaken. Spent cartridge shells were scattered throughout the city, as in a bombardment. So strong was the blast that a large pistol was hurled through the roof of a house a quarter of a mile away.
