

50,000 DIE IN CHINESE FLOOD AREA

HANKOW, HUPEH PROVINCE (Central China), Aug. 17. (P)—Widespread floods of the Yellow river in Northern China were said today to have caused 50,000 deaths in the last few days. Officials of the Kinkow-Hankow railway, in giving this estimate, said that many more undoubtedly had perished since dikes began breaking over a wide area early this month but that the complete total will never be known.

Bandits Appear
To add to the misfortunes of the destitute population, bandits have appeared in the submerged areas in Honan Province north of here and are plundering towns and villages, robbing the victims of everything valuable that can be carried away.

Honan provincial authorities have sent an armored train as far north as possible and troops have been deployed along the southern edges of the flooded district with orders to shoot anyone caught looting.

Waters Rising
In Honan the river, called "China's Sorrow," was reported as having ceased rising, but in Shantung Province, farther to the northeast, the waters continued to rise.

Dozens of towns and villages in Western Shantung were destroyed today as the flood waters moved slowly toward the river's mouth. Thousands were made homeless. Many clinging to treetops when the dikes broke were swept to their death.

All crops in an area 50 miles long and 20 wide in Western Shantung were destroyed and great hardship visited upon inhabitants, missionaries from Tsochowfu reported.

EX-TERMINATION REPORTED
PEIPING, China, Aug. 17. (P)—O. J. Todd of San Francisco, field engineer for the China International Relief commission, returned here today from areas flooded by the Yellow river and said Chinese reports of the number drowned were exaggerated.

SEVENTY DROWNED
KINGSTON, Jamaica, Aug. 17. (P)—Relief and repair work was in progress in this vicinity today after floods, lightning and high wind resulted in the deaths of 70 persons and property damage estimated at \$2,000,000.

It has been estimated that there are 125,000 automobiles in Wisconsin without 1933 licenses; the state recently passed a new law providing for a 50 per cent discount in the registration fee for the cars which were not registered prior to July 1st.

AGENT GETS WHEAT FORMS FOR PAYMENT

Complete sets of the various forms to be used by wheat growers in securing the adjustment payments provided for under the agricultural adjustment act in compensation for wheat acreage reduction, have been sent from the county agent's office to the wheat growers of Klamath county who have signified their interest in the plan and requested information on the program, according to an announcement from C. A. Henderson.

This set includes pamphlets which explain in detail the necessity for acreage control and the method to be used in providing adjustment benefits to the growers willing to cooperate with the government; a statement of production and disposal of the wheat crop during the base years 1930, 1931 and 1932, together with forms for substantiating the data given in the production and disposal report; a map of the farm on which is to be shown the different fields with the crops grown; an application for allotment contract, which, while not binding, indicates a willingness on the part of the grower to enter into the plan. A specimen copy of the final contract which the growers will be required to enter into before

they are eligible for adjustment payments, was also included for the information of the growers interested.

Meetings Arranged.
Those growers who now fully understand the plan and who desire to participate in the benefits and provisions of the program, have been urged to fill out as far as possible the forms received at an early date as the first part of the adjustment payments will probably be available late in September for growers who have completed the necessary local details.

A series of community meetings is being planned for next week to set up the community organizations required in the plan. At these meetings the plan will be fully discussed and all questions answered in order that growers not entirely familiar with the various provisions of the plan may understand it fully. Also, at these meetings, one representative on the county board of directors and two community committeemen will be elected. Only those growers who previously or at the meeting sign applications for allotment contracts will be eligible to vote for the community officials.

Although many wheat growers have requested to be put on the county agent's mailing list to receive all information on the program, there may be some interested growers who have not submitted their names, and if so, these should get in touch with the county agent's office at once in order that they may receive printed material, notice of meetings and other information.

TELEPHONE GIRL THWARTS ROBBERY

STARBUCK, Minn., Aug. 17. (P)—A telephone operator dared death today to thwart a robbery, which resulted in the killing of one bandit after he and a companion had robbed the First National bank of between \$1,000 and \$1,200. The loot was recovered.

A posse pursued the accomplice, Miss Florence Bulman, telephone operator, was passing the bank where two employees and two patrons were held at bay by one robber, while his companion stood guard at the door. The latter, flourishing a pistol, ordered Miss Bulman to "come in here."

Instead, she darted across the street, warning Rudy Hanson, restaurant proprietor. When the two invaders left the bank a few moments later, Hanson shot and killed one of the men.

Pontiac.. THE WORLD'S LARGEST BUILDER of STRAIGHT EIGHTS

The 4-door Sedan, \$691, f.o.b. Pontiac. Special equipment extra. General Motors Value.

Here's why America is buying them!

Men and women are buying more Pontiacs than any other car in Pontiac's price range! Why? Because they have found that this big, modern Straight Eight excels on all counts... as you will find when you see and drive it.

You get power in a Pontiac—more power than you'll find in any other automobile at or near its price—delivered far more smoothly by Pontiac's 77-horsepower Straight Eight engine.

You get more speed, too—78 actual miles per hour. Your Pontiac holds

the road better—rides more comfortably—because it's a big car, with 115-inch wheelbase and well-distributed weight (3265 pounds, curb weight, for the 4-door Sedan). And it's the only car in its price range with the Fisher Ventilation System—greatest comfort factor since the development of the closed body.

There just isn't anything to compare with Pontiac at its price. In Fisher Body beauty—in comfort—in Straight Eight performance. That's why America is buying Pontiacs. That's why you'll prefer Pontiac, too.
