Economy or Safety.

THE past month has brought a number of serious accidents railroads; and a good many citizens are apt to wonder if any of these accidents are due to the stringent economies the roads have had to make in the last

Has economy, in other words, been carried past the safety mark in certain cases? Have expenditures on equipment, on person-.s .65 nel, on maintenance of way, and the like, been cut just a little bit too much?

It goes without saying, of course, that the railroads economized because they had to, and not because they wanted to. They have had a tremendously hard row to hoe this last year or so. It is very hard to see how the cuts they made could possibly have been avoided.

Nevertheless, the questions raised here need answering-it only to reassure the traveling public. And if government funds should be needed to enable hardpressed roads to ease up a bk on their economy program, they should be forthcoming. next few weeks."

A common movement has been started in South Carolina which is supposed to have the approval of Sen. Smith, one of the many fathers of the farm bill. The inflationist aspects of the movement will be apparent shortly, if they are not already.

The Human Urge

HE most humanly revealing Thing about the forthcoming Antaretic expedition of Admiral Byrd, it seems to us, came out when the admiral was telling reappears as the basic principle of for this fall's trip. After he had explained the scientific aims of his expedition, a reporter asked him, "Is the furthering of science

Sen. Pat Harrison, a conserva-tive, came all the way from Mississippi to advocate a mod-erate inflation openly on the White House doorstep. And Admiral Byrd grinned and replied, "Well, you know, I'll keep on going as long as there PROSPECTS

als association for the acceptance of the lumber code, has supported whole-heartedly the paprised whole-heartedly whole-heartedly the paprised whole-heartedly the paprised of exist among the fields. Nothing about it, or about the similar lands while he whole-heartedly whole-heartedly heartedly paprised to is always that restless necessity there are places to go to."

WASHINGTON SIDE GLANCES-by George Clark

News Behind the News

The Inside Story From The Capital

By PAUL MALLON

Copyright, 1933, by Paul Mallon

WASHINGTON, Sept. 15-Mr

To give you an idea what the pressure amounts to:

A radical farm leader addressed an lowa farm meeting, demanding resignation of Secretary Wallace because Wallace had 'turned his back on inflation.' No eggs were thrown at the leader.

First they broke me of sucking my thumb and now they're

ing power. We have two-thirds dollars." It turned out one of the way left.

And during the last few weeks, false alarms. And during the last few weeks, the failure to progress further has at least been noticeable.

CLIQUES

Mr. Rossevelt has been advised confidentially to clean out the clique in the state department. He has been told it could be done by the transfer of four

key men.

That is an optimisate view.
Probably every president since
Washington has wanted to do
something about it, or about the
similar inner understanding
which is supposed to exist among
avai admirals and army ofticials. Nothing has ever been
dons.

Mr. Heover was the last one
to try it. The admirals singed
his hair opposing his economy
program. He was never able to
get anything on them. key men.
That is an optimistic view.
Probably every president since
Washington has wanted to do

able. Unquestionably that will be the general line along which the president will ultimately take us. Meanwhile he hates to be pushed. POLITICS This administration has done not appear on the record.

pushed.

ALTERNATIVES
The big question underneath is whether the devalued-consmodity dollar would do the farmer much good. It would fix him up on debts. But the presidential advisors seem to agree it would not cure the price disparity between the things he must buy and sell. Some believe it would be far better to do a little arbitrary price guaranteeing on farm products until they can catch up.

Also that artificial government stimulation of the building and capital goods industries would do more than money temp-rering.

NOTES

Wise Cracks

Probably the forest army by this time has learned to tell the document at the probable of the price displayment. He was given the play between the things he must buy and sell. Some believe it would be far better to democrat eventually.

This week he was notified a democrat had been found. He is leaving the service.

Earlier Days

From the Files of the Klamath Republican, September, 1909.
Work of marking the boundary of Crater Lake national park has been completed, and Pearson Chapman, a member of the geological survey corps who has been engaged in doing the work, has left for Pertiand.

A great deal of interest has been manifest in Mr. Chapman's work for it has long been the deaire of everyone in the county to see the boundary properly marked. Chapman, following out directions from the department, placed iron posts every half mile along the boundary of the park, with cement blocks at the corners and at each the reases. of the park, with cement blocks at the corners and at each en-trance. Of all the visitors to Crater lake this year, none were greater in their praise and ad-miration than Mr. Chapman,

times that amount should be furnished each year, and one of the least known wonders of the world should be made accessible to the lovers of nature's beau-ties."

Beauty Hints

Usually you are sure it is wintever you have!

grown nails, cut your toe nails straight across, the way nurses cut babies' nails, don't try to shape them or point them.

Corns must be lifted out, if you don't want the process repeated very acon. This takes a practiced hand, to be done right. But if you don't want the process repeated very acon. This takes a practiced hand, to be done right. But if you do it yourself, a pair of pedicure scissors, sisrilized, should be used after you have sonked your feet thoroughly. Often certain manufactured carbant phasters prove efficacious.

If your corns are between your toes, it is foolish to try to operate on them yourself. One trip to the chiropodist usually curse them, But, be sure to dry your feet vary carefully between the toes every time you wash them, and put a bit of cotton between the affected toss during the day.

If you really intend to glorify yourself this rail, a clear complexion should be your first aim. No amount of committee will attempt to show that state is est housands of dol.

If you really intend to glorify yourself this fall, a clear complexion should be your first aim. No amount of cosmetics will hide the fact that your skin ian't clear and you cannot attain true beauty if it is middy or sailow. Your health is reflected in your complexion. Very often, getting your body in good condition will clear up your skin. If the digestive tracts do not function propelly, the chances are that your complexion will be grayish or yellowish.

It may be that you need to see a reliable physician or it may be that you aren't drinking enough water of getting enough sleep and exercise.

Try- to get eight hours' sleep every night for a month and see all your complexion desarity take.

release the much-discussed Oregon State college audit:

S. D. Buell, employed as an accountant at the state department, was sent to Corvalits to audit the accounts of the bidding department.

Finding certain discrepancies and irregularities in figures, Buell proceeded to make a comprehensive investigation of the department. His report contained numerous afficiavits and a quantity of written testimony concerning methods used by E. J. concerning methods used by E. J. Jackson in conducting the build

Jackson in conducting the build-ing department.

Hose was considerably em-barrassed by his subordinate ex-ceeding his authority. No in-vestigation had been authorized or asked for by the board of higher education. All the board wanted was figures.

Oregonfans need teel no alarm

Oregonians need feel no alarm over an epidemic of sleeping sickness.

Reports of the appearance of an outbreak of epidemic encephalities—or sleeping sickness—in St. Louis has caused considerable apprehension in other parts of the country.

Health officials say the disease is not unusually prevalent on the Pacific coast at present, and no alarm need be felt lest the disease to be a second an epidemic in this state.

As long as individual sporadic cases that occur are placed under strict supervision, it is believed to be a supervision, it is believed.
