

CITY BRIEFS

I Saw—

A motorist ran over a dog. He was no hit-and-run driver, so he got out to see what had happened to his victim. The dog lay perfectly motionless and limp, so the motorist picked it up and laid it on one side of the road. Soon another dog came along, sniffed the body of the dead dog, put his nose up in the air, gave a wolf howl and departed. While I was still watching, the accident victim lifted its head, looked around, shook itself and ran away as if pursued by the devil himself.

Tonsils Removed—K. C. Walker, 1601 Mitchell street, underwent a tonsil operation Thursday at Klamath Valley hospital.

President Roosevelt is paid once a month; his check is for \$8,250.

AVOID FALSE TEETH DROPPING OR SLIPPING—You needn't fear false teeth dropping or slipping if you'll sprinkle a little Fastoeth on your plates each morning. Gives all day comfort and teeth hold tight. Doodorless. No gummy, pasty, taste or feeling. Get Fastoeth from Star Drug Co. or your druggist. Three sizes.

SPUD PICKING RATES SET AT MERRILL MEET

At a meeting of potato growers at Merrill September 19, the following schedule of potato picking prices for the season of 1933 was adopted: Field graded 120-lb. sacks 3c; field graded 120-lb. sacks 6c; without board in either case; or \$2.00 a day and board.

In addition, \$50 an hour h-out board was fixed as the regular price for labor on graders during the potato digging season. The following committee formulated this scale and reported to the potato growers association for adoption: Earl McVey, Merrill; E. N. Esbie, Merrill; Calvin Hastings, Merrill; Perry Halsey, Merrill; G. J. Hilliard, Klamath Falls; J. A. Fairclough, Klamath Falls; P. Dehlinger, Henley; O. A. Schultz, Tulelake; Leland Pope, Adams Point; Frank Cary, Merrill.

W. L. Close, federal grade supervisor, discussed the changes in the potato grades, stating that changes were so minor that past grades would be affected very little. The U. S. No. 1 grade minimum was increased from 1 1/2 to 1 3/4 inches, and in addition, size A and size B were adopted, making it possible for growers to make special packs.

Size A and size B, however, are optional and not compulsory. George Cannon, agricultural agent for the Great Northern, discussed the potato outlook and the result of pea demonstrations, as carried on this year by the office in cooperation with the county agent's office. C. A. Henderson, county agent, discussed the national potato outlook and the possibility of securing market news service by leased wire for the next several months. The secretary was instructed to secure this service if possible.

Volumes Of Gay Decades In Last Century Donated To Klamath City Library

On the shelves of the city library in the future will be found two very quaint and interesting books.

They are editions of the gay '30's when swirls and bustles, sweeping skirts and wadded moustaches were quite as daring as sleeveless waists and the scandalous pompadour.

The volumes include a collection of the Youth's Companions, an institution of by-gone days, or the old bible, or perhaps there is such a book as "Social Dynamite" that found its way into the collection and caused much merriment among the garden.

The course of the beer campaign, the damage of a cigarette and the vice of sleeping late in the morning are well illustrated in "Social Dynamite" published during Civil War days.

However, books are needed for the city library as well as the smaller libraries throughout the county controlled by the county library under Miss Margaret Nye.

Miss Enola Hawkins, city librarian, especially wants books of fiction as well as books of reference, old school books and such magazines as National Geographic and those of a mechanical interest.

There are many in the city who are giving freely from an exceptional measure of store of books. There are others who have a wealth of books who feel that they have would be of no interest.

Mrs. Hollie C. Groesbeck, president of the Klamath Falls Women's Library club, especially urges the residents of the city to not let the week go by without sending at least one or two books to the city library in return for the wealth of enjoyment the library has given.

The 1900-book quota is not being reached as rapidly as it is hoped for, however, the good will be far-reaching and residents of the city will be made "library-conscious" as well as book-conscious.

The slogan of the drive might well be, as one member put it, "A good book, loaned or given, is a good book passed on."

The book and magazine committee announced that 170 books were turned in at the city library basement Wednesday, which exceeded the daily quota. To date there have been approximately 480 books turned in.

According to E. M. Hauser, assistant county agent, who is in charge of local wheat reduction program.

Hauser stated, however, that during the second year of the wheat production control program, the acreage planted to such produce must be matched by the same amount of land and designated as the contracted acreage since provisions of the program will not allow for any crop produced for direct profit.

No extension of the September 25 deadline for signing wheat allotment contracts has been received here, according to Hauser, who stated that approximately 45 of the larger wheat growers in the county have already signed the contracts with the government.

It is necessary for wheat growers to fill out these contracts giving required information before the contract may be closed, and the grower share in the benefits offered by the government for reduction of wheat production.

Youth Injured At High School
Duncan Roark, 16, student of Chiloquin high school, was seriously injured Wednesday afternoon while practicing a broad jump.

The lad fell on his knee and was brought to Hillside hospital for x-rays and treatment. The extent of the knee injury has not yet been determined. Young Roark is the son of Mr. and Mrs. W. H. Roark of Modoc Point.

NEW PROJECT MAY BE ADDED IN CLUB WORK

A building project, sponsored by the Oregon Building Congress, may be introduced into state Four-H club activities for the coming year. O. G. Hughson of Portland, field representative for the congress, is in Klamath Falls this week conferring with Frank Sexton, county leader, in connection with the plan.

Mr. Hughson has brought with him two miniature homes, one of brick and one of wood, for display at the Four-H fair this week-end. The buildings are now in the windows of the Electric Store at 407 Main street.

These models were constructed by the Cress company of Portland, a building material concern. Another has been shipped by freight to F. R. Hauser, representative of the Cress company and a building material dealer, and will be exhibited at the fairgrounds.

Mr. Hughson said this was the first time the building project plan had been advanced. After the exhibition and discussion here the matter will be laid before the directors of the state Four-H club affairs at Corvallis next Tuesday.

The representative, who will speak here Sunday, said the project would be undertaken with supervision of the local units of the Building Congress. Howard Perrin, president of the Klamath congress, Mr. Hughson said, was particularly interested in establishing this work in the county Four-H organizations.

Tells How She Took 4 Ins. Off Hips 7 Ins. Off Waist
In 40 days by taking Kruschen Sals, Mrs. Helen Blough of New York City reduced 26 lbs.—took 4 inches off hips, 7 inches off bust and 7 1/2 inches off waist. She writes: "I haven't gone hungry a moment—I feel fine and look 10 yrs. younger."

To get rid of double chins, bulging hips, ugly rolls of fat on waist and upper arms, SUEDE, LY and without discomfort—at the same time build up glorious health and acquire a clear skin, bright eyes, energy and vivaciousness—to look younger and feel it—take a half teaspoonful of Kruschen Sals in a glass of hot water every morning before breakfast.

One jar lasts 4 weeks and costs but a trifle at Whitman Drug Co. and Star Drug Store, or any drug store the world over. Make sure you get Kruschen because it's SAFE. Money back if not joyfully satisfied.

CLIFF SPRINGS CAMP F-48
Silver Lake, Ore.—The Civilian Conservation Corps Co. 866 deserves much praise for the amount of work accomplished in the last three months ending August 31. The work completed consists of:

Telephone line construction, 24 miles; roads, new construction, 39 miles; roads, betterment, 99 miles; maintenance, 408 miles; bridges and culverts, 32; drift fence, 5 miles.

Material: Fence posts, 1500; telephone poles, 500; stubs, 300. Buildings: 6; Garages, 3; office, 1; warehouse, 1; woodshed, 1. Mapping and timber cruising, 1500 acres.

This work was accomplished under the leadership of Harry Lynch, forest superintendent, and his group of foremen.

Ten men were called out on a fire on Antelope flat last Sunday. They had the fire under control within a short time. Fifteen men were detailed to a fire in Sellar's marsh Monday afternoon. This fire was also put under control soon after arrival there. Two men remained on duty all night to see that it didn't spread, because it was pest ground. Plenty of water was available from an abandoned well.

E. Bagley and road crew returned to the main camp from Skookum Spring, Tuesday. They are finishing the construction of the Willow Springs road, a distance of 12 miles.

The camp gained another officer on September 16 by the addition of First Lieutenant Ivan Kurria.
