GRADE CHANGE ANNOUNCED BY EGG DEALERS

PORTLAND, Oct. 12 (AP)—The new grade on eggs named here by the Pacific co-ops by the addition of the "special extra" instead of the "over-size," practically makes the entire coast trade uniform in this regard.

The new setup of grades was unexpected and the price changes, some of them being lowered, were not in line with the ideas of the trade. This lower price in spots practically eliminated the former advance while in general the trade considers the market firm and active for fresh goods.

Butter Trade Dull
Storage stock was still selling at all sorts of prices with holders keenly seeking buyers at whatever price can be obtained. The huge cooler stocks were moving out too slowly.

Trading in the butter market an entire absence of speculative interest. Prices were unchanged for cubes during the late session but open market sales were occasionally 1/2c less.

That poor turkeys were hard to move is the statement of Wallace J. Dettick of Portland Produce Co., a leading distributor. Some of the birds recently received were placed in the No. 2 grade. This stock should be kept at home and fattened sufficient to secure the better price.

Meats Steady
General steadiness was suggested in the market for live chickens with the exception of poor light hens. The latter were practically impossible to move at the moment except at rousing figures.

Trading in the country killed meat market was steady even for beef although no price improvement was suggested for the latter. Veal and hogs were moving out well at recent advances.

Very slow trade was shown for cranberries with the eastern stock selling best because of the slightly lower price as well as the excellent color of offerings. Local growers were still inclined to hold back marketing for a big advance.

With quality above the average for fall season, sales of cantaloupes continued good. Dillards were still offering and some very fair stocks was also coming from the Grand Island-McMinnville sections.

Notes of wholesale trading:
Potato market was weaker with lower track prices.
Onions were steady and without price changes.
Tomatoes were moving well but at low prices.
Cauliflower values were held down with an earlier carload price.
Crabs continued scarce and fresh salmon stocks were less plentiful. Prices steady.
Grapes were firmer for California wine and table stock with a better movement of local Concord types.

KLAMATH OBSERVES COLUMBUS DAY

An ocean voyage made centuries ago across an unknown sea was the inspiration for holiday observance in many parts of the nation Thursday.

It was the journey on which Christopher Columbus, obscure seafarer from Genoa, Italy, who sailed his way into immortal fame as one of the discoverers of a new continent.

Thursday, the 441st anniversary of the discovery of America, was marked by celebrations and festivities in numerous societies, including the Knights of Columbus, which order has its annual memorial celebration scheduled for Thursday evening at Lyceum hall.

Schools observed the holiday with fitting exercises and ceremonies, but held classes as usual. All business houses in Klamath Falls observed their regular hours.

Columbus day was observed as a bank holiday however, and offices in the court house and city hall remained closed.

Financial markets in some of the larger trading centers of the nation were closed, including the New York stock exchange.

74-year-old Claims Record For Skaters

TACOMA, Wash., Oct. 12, (AP)—W. W. Miller, 74, at 1:25 this morning claimed he tied the reputed world's continuous roller skating record of 100 hours and 25 minutes. He continued skating in a Tacoma rink on toward a new 200 hour record he has set for himself. He has not removed his skates since the start last Saturday night at 9 and has been continuously on his feet with only the briefest intervals off the floor.

Under auspices of the National Skating Association, Miller was started off on the grueling endurance record attempt by Mayor M. G. Tennant and has since been under the constant surveillance of one or another of a committee named by the mayor.

"I learned to skate in 1874 and I've been at it ever since," Miller said, puffing contentedly on a cigarette as he skated in small circles about a reporter. "Yes, I smoke a pipe and cigarettes," he said in response to a question, "and I drink tea or coffee or some b-r or a little glass of whiskey when I feel like it. No, I don't dose while I skate, but I do dose a bit, first with one eye open and then the other open."

Miller weighs 143 pounds. For many years he says he was a skating instructor at Portland.

American operated passenger air lines completed 95 per cent of all trips begun in the first half of 1933. There were 49,825 trips started and 47,655 of these were completed.
