

FIVE KLAMATH ROAD PROJECTS GIVEN SUPPORT

Highway construction amounting to an estimated total of \$5,825,000, is proposed by the roads and highways committee of the Klamath county chamber of commerce as part of the state's road-building program if a public works administration loan is obtained for this purpose.

The chamber, in a letter to the highway commission, cites the fact that a request has been made to the highway board to build certain highways in the state, and asking that "uncompleted highways in and adjacent to Klamath county be included in this program."

The five Klamath projects are listed by the chamber as follows:

Project No. 1, Klamath Falls-Wood highway—Estimated cost, \$500,000. Nature of the project: Construct a highway to federal primary standards from Klamath Falls to the Oregon state line.

Project No. 2, Klamath Falls-Lakeview highway—Estimated cost, \$1,000,000. Nature of project: Re-align and resurface portions of Klamath Falls-Lakeview highway to bring to standard specifications the entire road in both Klamath and Lake counties.

Project No. 3, The Dalles-California highway north of Klamath Falls—Estimated cost, \$750,000. Nature of the project: Re-align The Dalles-California highway from Terminal City north to Klamath Agency, and bring highway to federal primary standards.

Project No. 4, Willamette highway—Estimated cost, \$1,500,000. Nature of project: Complete grading of ten miles across Cascade summit.

Project No. 5, The Dalles-California highway south—Estimated cost, \$750,000. Nature of project: Bring the highway from Malin to the Oregon state line, 2.7 miles, to standard specifications meeting the California road at the state line. Replace the two narrow bridges between Merrill and the Lakeview junction. Re-align the approach to the bridge over Lost river.

Total cost of projects, \$3,825,000.

PASTOR ANNOUNCES SUNDAY SERVICES

The Sunday evening question forum inaugurated last month by Rev. J. B. Coan, pastor of the First Methodist church, as a one-month feature, has proven so popular that more questions have been received than can be answered at the service in that church on Sunday. From them eight have been selected which cover a wide range of subjects, and with an interest for young and old. They are as follows:

- 1—Are the social evils of the present on the increase or decrease?
- 2—Is there a permanent remedy and preventative for our present economic ills?
- 3—When should a young man marry?
- 4—Can one actually rid himself of worry?
- 5—Would not the union of all Protestant churches be a good thing? Is it possible soon?
- 6—Is there any recent improvement in the moral tone of the world? Are they as vicious as some claim?
- 7—What is meant by the phrase "The resurrection of the body"?
- 8—Does that mean a spiritual body?
- 9—What should be the Christian attitude toward a commercialized Sunday?

ENGINEER DENIES WATER RIGHT CASE

SALEM, Oct. 20, (AP)—The application of Ben G. Faust to change the point of diversion and place of use of a water right in Malheur county was denied, State Engineer C. E. Stricklin announced today.

Stricklin held that the chance would result in an enlargement of the water right and cause injury to other rights by depriving them of water they had enjoyed. The water, now used for irrigation, was originally a mining right with date of priority of 1867. It is diverted from East Camp creek and other tributaries of Burnt river.

The Eastern Oregon Land company, at the time of the Burnt river adjudication, acquired the right and used the water for irrigation of its lands on Lower Willow creek, near Brogan. Faust, successor to the land, proposed to use the water on lands further up the stream.

Virtually all commercial vehicle manufacturers have profited in some way through the sale of their product since beer was legalized; one manufacturer alone sold more than 1500 trucks to brewers and beer distributors in three weeks.

If Your Tea Does Not Taste Right

Do not blame it on the tea. Perhaps the water was not "mild-boiling hot." Perhaps you steeped it only two or three minutes. Instead of the required five to ten minutes. Get a copy of "Better Tea and How to Get It," also novel tea recipes. Write The India Tea Bureau, Dept. N, 82 Beaver St., New York City.

School District Meeting Postponed

The school board of School District Number One met in regular session Wednesday evening at Fremont school, but due to the lack of a quorum of board members present no business was transacted.

FIRE INSURANCE RATE CHANGE ASKED

A recommendation that higher fire insurance rates be imposed on poorer classes of unprotected property was made to the Oregon Insurance Rating bureau at Portland Wednesday by the Oregon Fire Insurance Agents' union, the Portland Insurance exchange, and the Oregon conference committee. Paul Landry of Klamath Falls, president of the state agents' union, attended from here.

The authority for establishing equitable rates rests with the rating bureau, Landry said. Representatives of organizations appearing before the bureau held that on unprotected property, lower rates should be imposed on better classes, and higher rates on proper classes where the greatest hazard exists.

Landry said there was a discussion of methods by which unprotected districts could obtain credits through agreements with nearby municipal fire departments for partial protection.

For instance, he said, if the Altamont district were to make a contract to help support the local fire department, in return for a promise to run equipment to an Altamont fire, property in that district could be given a better rate.

Experience has shown that shacks, unoccupied buildings, run down farms, and similar property, are likely to cause the greatest losses. That is the reason, for a recommendation for higher rates on this class of property, Landry said.

Budget Increase Asked for Lakeview

LAKEVIEW, Ore., Oct. 20.—The budget committee of the city of Lakeview has recommended the budget be increased 6 percent over the sum raised last year. The increased revenue will go into the emergency fund in order to take care of any unexpected expenditures which may become necessary during the coming year, due to the rapid growth of the city. The amount of the budget for 1934 is \$26,200.

These dainty, slightly salted squares are an appetizer. Move on and more families are switching to Sunshine Krispy Crackers.

Krispy Crackers are lighter, there are more per pound. That makes a big difference in budgeting.

Serve Sunshine Krispy Crackers with soups, salads, cheese and all sorts of spreads, etc.

Made from plump, sun-ripened wheat. They have a delicate flavor.

More Tender! More Flavorful!

SALESMAN'S TEST: "I've tried them and they are the best I've ever had."
