### Violent Reaction Drops Wheat Price

**CHICAGO, Oct. 20.** (P)—A quick advance which grain prices up late today to the extreme limit allowed for any 24 hour period. The market afterward suffered violent swings backward, wiping out much of the gains.

New buying of wheat for government sponsored agencies was largely responsible for the upturn, together with reports that President Roosevelt had been asked to fix a price of \$1.25 for July wheat on the exchanges.

There was also talk of steps toward diplomatic recognition of Russia by the United States and that a big export business had been done today in wheat from Canada.

Wheat closed hurried, 2-4 1/2 cents above yesterday's finish. Corn 3/4-1 1/2 cents up, oats 1 1/2-2 1/4 advanced, and provisions varying from 2 cents decline to a rise of ten cents.

This mixture terminates with a continuous blast sufficiently powerful to drive the vehicle forward at a remarkable speed.

# National, Local Markets

## MARKET FOR EGGS MAY BE AIDED BY GOVERNMENT

**PORTLAND, Oct. 20.** (P)—Everyone in the egg trade was wondering when the government was going to aid the market by making purchases for relief purposes. Action of the government in going to the aid of the farm products has suggested to the egg people that something must be done for them or there's going to be a huge supply of cooler stuff remaining unsold at the end of the season.

Fresh egg market was really firm. In general prices were being maintained for top quality eggs, but there was such a mixture of so-called extras that it was almost impossible to tell what the price is. Much of the disturbance was credited to outside interests who are flooding Portland with eggs from sections that normally market through Puget Sound.

There was no change suggested in the price by the Pacific Co-ops or by leading private firms.

Market on butter continued to show a waiting attitude with huge cold storage surpluses the chief factor. Much of this was held by interests that refused to sell months ago, when demand was good and the stock would have passed into consuming channels.

Despite recent talk of bettering in the market for spring chickens some of the leading local handlers were refusing tenders of local supplies. Hen market appeared about steady.

**Hog Market Easy**  
 Market showed further easiness and even weakness for country killed offerings. In fact late trading has been mainly at a loss of 4c from the previous high. Veal and lamb were steady. Beef too.

While current offerings of potatoes were a trifle beyond immediate needs of the trade and there was practically no speculative interest, the movement into storage was getting extremely liberal at the source.

While only one operator was said to be working, there was again buying of onions for oriental shipment with growers obtaining 75c and sacks for No. 1. Selling, however, was restricted. Further gain in the movement of wine and juice grapes was reported for the day both by wholesalers and track sellers. Prices were not changed because the public apparently was unwilling to pay an advance.

Trifle improvement in the celery price with increased carload demand was reported out of the Lahash section. Sales continued chiefly at \$1 rate, but some business was reported a nickel to a dime better.

Poor quality was hurting tomato prices.

Cauliflower was steady both locally and for shipment.

Onions were scarce with a general price rise.

Apple trade was gaining, but only locally.

Cranberry sales were small and consist chiefly of eastern.

No trading in hops along the coast at the moment.

Dry bean market was weak.

Movement of honey continued liberal with prices firm.

## Stock Market Quotations

**NEW YORK, Oct. 20.** (P)—Commodities and stocks rallied briskly this afternoon coincident with rumors of prospective recognition of Russia by the United States.

Wheat at one time was up the limit of 5 cents a bushel, while shares climbed \$1 to around \$3, though gains in both markets were only partially held.

On the stock exchange traders bought shares of companies which they thought might profit by broader business relations with the soviet, such as the farm implement, machinery and electrical equipment issues.
