

DRUM CORPS HAS EYES ON STATE TITLE

With eyes on the state championship again this year, the Klamath Falls American Legion drum corps is following a rigid routine of practice and drill in preparation for the state convention to be held in Albany August 11, 12, 13 and 14.

The annual drum corps dance is slated for Saturday night at 8 o'clock, July 31, in the armory with Hally Evans' orchestra tuning up in readiness for the gayest mid-summer dance of the year.

Funds from the dance will go toward expenses of both the drum corps and the junior drum corps whose initial appearance will take place on the streets Saturday night. This is the first time the junior corps, composed of sons of Legionnaires, has been seen and the group will also enter competition at the state meet in Albany along with their dads.

Carl Cook has arrived as drill master for the junior drum corps. E. V. Pickett as musical director and Joe Schenberger as drummer instructor. These three men serve in the same capacity in the senior drum corps.

During intermission of the dance the junior drum corps will go through their paces and the Legion corps had best look to their laurels as judges may mistake the youngsters for the champions out of southern Oregon.

An invitation to Klamath county residents is issued for the dance Saturday night. A number of special features is planned by Hally Evans, it was announced today.

PORTLAND, July 27 (AP)—Industrialization of the Pacific Northwest is the best way to help the farmers of the region, Dr. E. T. Hodges, government geologist, said at a chamber of commerce meeting here.

"This can be accomplished if Bonneville is properly managed so power will be cheap," he added.

The present industrial population, he asserted, is too small in proportion to the number of farmers, and profits from raw products are lost through high freight rates in shipping to the east in boats that "for the most part, come back empty."

Non-metallic minerals, wood, coal and electricity, the basic elements in industrialization, abound in the northwest, he said, and can be utilized from building up a home market.

He estimated that 85 per cent of the present imports are manufactured products.

INDUSTRIALIZATION OF NORTHWEST HELD ADVISABLE

PORTLAND, July 27 (AP)—Industrialization of the Pacific Northwest is the best way to help the farmers of the region, Dr. E. T. Hodges, government geologist, said at a chamber of commerce meeting here.

Hen Quail Hatches Brood Amid Roar of Planing Mill

MEDFORD, Ore., July 27 (AP)—How a hen quail, regarded as the most timid of feathered creatures, hatched a brood of 16 quails, in the roar and hubbub of the planing mill of the Medford Lumber Co. (Owen-Oregon Lumber Co.) was told today by James H. Owen, general manager of the plant.

The mother quail built her nest, that is still there, at the base of a huge electric motor, and incubated her young within six feet of a clamorous moulding machine, and within three feet of two workmen, engaged in handling the moulding as it came from the machine. The mother quail was unperturbed by the mill roar during a fortnight of hatching. The nest was built of strings, shavings and twigs.

According to Owen, the mother bird, when viewed in her strange nest by visitors a few minutes ago, was seen to return in a few minutes.

Four-H News

DAIRY MAIDS
The regular meeting of the Dairy Maids Canning club was held today at the home of Harriet Bruner, local club leader.

Jean Drew, a new member, was initiated. Elva Plachas, an old member, rejoined, making a total enrollment of eight with officers as follows: President, Barbara Pool; vice-president, Mary Bruner; secretary, Ova Smyth; song and yell leader, Viola Smyth; news reporter, Beth Smyth; local leader, Harriet Bruner.

We are studying canning step by step from our project book. Last week we discussed "Why Fruit Spoils" and judged fruit already canned. This week we studied "The Necessity of Cleanliness and Proper Equipment for Successful Canning."

Our club leader read us a letter from Mr. Jenkins and told us about the invitation extended by the Klamath Creamery to the 4-H clubs to visit their plant and observe how fruit is preserved by means of freezing.

Each member told what she had canned and preserved in the past week. It was found there was 48 quarts of fruit canned and 20 containers of jelly.

We learned one new club song and after several other songs and yells the meeting was adjourned until Wednesday of next week at 2:00 o'clock. Light refreshments were served and games enjoyed by all.

RUTH SNYDER, News Reporter.

There were 14,048 commercial craft sailing regularly from New York harbor in 1935.

GIRL SCOUT CAMP OPENS AUGUST 17

August 17 is the date selected for the opening of the Girl Scout summer camp at Lake o the Woods, and registrations must be complete by August 12, according to an announcement made by Mrs. Margaret Gilbert, scout director, following a meeting of the local scout council Monday evening.

Mrs. Gilbert stated that she will be at the Little House on Conger avenue on Wednesday from 1 to 3 o'clock to start the registrations. Since the construction of the main building on the camp site is going forward rapidly, it was felt certain that the camp would be in readiness by the middle of August. Ten new tents are expected to arrive this week, and will be used for the sleeping quarters, with five tents to each unit.

BROTHER'S BLOW KILLS TOMINGER

SILVERTON, July 27 (AP)—Steve Tominger, 28, died from a blow struck in self defense by his brother John, a coroner's jury here ruled.

Tominger died Saturday from a fractured skull received a week ago when his head struck the sidewalk in an altercation, testimony showed.

LOGGERS SIGN WITH OPERATORS

MARSHFIELD, July 27 (AP)—The Coos county loggers signed a working agreement with operators today calling for a 49-hour week and a wage scale ranging from 25 cents an hour to 31.15, from 25 cents an hour to 31.15.

The loggers, affiliated with the Lumber and Sawmill Workers' union, agreed not to call a strike unless arbitration failed.

Recreation Notes

News About Personalities and Events

The softball teams of the playground program took a new spurt of interest and a new lease on life this week. It all came about from a fine donation on the part of the City Softball League of a dozen new balls for the kids. Of course the balls were not absolutely new—having been used in an official game or so—but to the youngsters they were the crux of perfection.

It seems that two new balls are put into play three evenings a week by the "big" league. After the games of that evening those balls not sold to team managers as practice balls have been accumulating until Joe Ward had a whole bag full of them. He turned some of these over to the kids Monday when he learned they were in need of more balls if their play was to continue.

Of these new balls Monday morning of these new balls Monday morning if they had been wrapped in cellophane and shipped in wooden boxes the kids could not have been more proud of them. When you consider that these kids have had only two balls all summer you can appreciate what these meant to them.

The kids who have organized themselves into a club at Richmond park will get some of these balls also. They deserve help. So far they have been carrying on all by themselves. A supervisor is also being assigned to this new park for the rest of the summer. All this notwithstanding the fact the park is not completed. Perhaps he will bring along a bat also.

Mrs. Cone's art class will be on

hand Wednesday afternoon when one of its own members will deliver a lecture on Italian art. The student who has prepared this lecture is LaVerne Swanson. According to Mrs. Cone, LaVerne knows what he is talking about, and art students will be on hand to hear what he has to say. The talk is scheduled at 4 o'clock, and the public is invited.

It is features such as this—highlights in her program—that make Mrs. Cone's art classes so interesting. Her students are vitally interested in what is being done, and are "on their toes" every minute. Many of them are always prepared to step in when the occasion demands and handle some subject that is interesting to the group.

According to information from Salem Raymond I. Edwards, state supervisor of recreation is due in Klamath Falls this week. He will visit all centers and view the work being done. If you have a chance to visit the display of recreation center work exhibited at 521 Main street, you, no doubt, noticed the splendid exhibit of sewing shown there. Most of this sewing came from the classes taught by Mrs. Louise Steinerson at the Mills center. Mrs. Steinerson's classes have done some remarkably fine work during the summer and have done it without and unnecessary fuss or confusion. These people go about their work in a quiet, systematic manner, and the first thing you know—presto! the thing is done.

Parental interest in this type of work has made this sort of thing possible, according to Mrs. Steinerson. Parents have co-operated right down the line. They have encouraged the girls to sew, have furnished the material and supplies and have visited the classes to see the results. The girls of these classes have on display some work that would do credit to people much older and with much more experience. It seems that practice makes these little fingers very, very nimble.

COMMONWEALTH SUPPORTS ROSS

EUGENE, July 27 (AP)—J. D. Ross, administrator of the Bonneville project today.

"Ross had an admirable record as head of the Seattle city light and power," S. Stephenson Smith, president of the Commonwealth group, said at Eugene.

"He has a genuine social outlook and extensive experience in merchandising electric power and in stimulating development of public-owned distribution systems."

Smith scouted the contention that Ross would not give a "thoroughly impartial deal" on public power as a result of his Seattle interests, and asserted that "it is the general judgment of qualified experts that Ross is the best qualified man."

The Oregonian said today that Ross' opponents in Washington, D. C., were circulating a purported extract from his annual report to the mayor and city council of Seattle dated October 3, 1934, saying "We must guard our power rates against all opposition," and that "there is no possible need for a federal power."

er system west of the Cascades." The report was quoted further that "The \$90,000,000 spent on the Columbia river means \$90,000,000 spent against western Washington," and that all that region would get would be "the loss of its entire hinterland to Portland and the lower Columbia river cities."

PORTLAND, July 27 (AP)—The Yamhill county Pomona Grange has given its support to J. D. Ross of Seattle as administrator for Bonneville dam. Secretary Holt Stockton said today.

The resolution forwarded to Secretary of the Interior Ickes said "It is quite likely that the selection of someone friendly to power companies would be fatal to the cause of public ownership in Oregon."

BOY DROWNS IN UMPQUA

ROSEBURG, July 27 (AP)—Pushing eight-year-old Wally Green, whom he had helped across the river, safely against a rock, Donald Bashford, 15, slipped back exhausted into the deep waters of the south Umpqua river and drowned.

Allen Cordon, 17, was dragged semi-conscious from the water after a vain attempt to save Bashford. He was recovering in a hospital here.

GRAND AWARD

Name these little Snowdrift men

HERE'S THE OPPORTUNITY YOU'VE BEEN LOOKING FOR! Here's big money for someone — just for writing down names that appeal to you for the famous little Snowdrift men. Easy? Think a minute, and you'll see how easy it is—names seem to "pop into your head." \$5,000.00 First Award. 424 other awards — including two special awards in your state!

GET READY NOW! HERE'S ALL YOU DO: All you need send with your entry is a part of the metal strip from the Snowdrift can. The part that says, "We lock in all its goodness." So ask your grocer for your can of Snowdrift today. Probably, like millions of housewives, you use Snowdrift for all your baking and frying—and intend buying Snowdrift anyway. Perhaps you have always wanted to try creamy, fresh Snowdrift. Now's a grand time! You get two rewards—Snowdrift's goodness—plus the money-saving coupon that is to be sent every entrant—and in addition—your opportunity to earn part of the \$12,500.00.

FREE 10c COUPON SENT FOR EVERY ENTRY (See rule #3)

Your names-suggestion will be acknowledged. Every entry, duly accompanied by the Snowdrift metal strip, will receive in appreciation a free coupon. Your grocer is authorized to accept this coupon as 10c on your next purchase of a three-pound or six-pound can of Snowdrift.

Using Snowdrift is a real inspiration for you. You may find features to suggest good names immediately, or it may be the first name that pops into your head.

Snowdrift is the pure, wholesome, all-vegetable shortening.

Snowdrift is already creamed for you.

Snowdrift is the supremely easy-to-digest shortening.

Snowdrift creams to greater volume, giving lighter dough and batter.

Now — write down your suggested names. And ask your grocer today for Snowdrift. Don't miss this opportunity.

WESSON OIL & SNOWDRIFT PEOPLE • NEW ORLEANS, LA.

425 AWARDS totalling \$12,500

The following awards will be made for the names as selected for the famous little Snowdrift men:

1st AWARD \$5,000.00

2nd Award \$1000.00 • 3rd Award \$500.00 • 4 Awards of \$100.00 each

20 Awards of \$50.00 each • 30 Awards of \$25.00 each

110 Awards of \$10.00 each • 215 Awards of \$5.00 each

STATE AWARDS

21 1st Awards \$50.00 each

21 2nd Awards \$25.00 each

The state awards of \$50 and \$25 respectively will be given for the best suggestion and the second best suggestion received from each of the following 21 states: Virginia, North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, Mississippi, Louisiana, Arkansas, Texas, Oklahoma, Colorado, Utah, New Mexico, Arizona, California, Nevada, Washington, Oregon, Idaho.

READ THESE RULES CAREFULLY

1—Think of your suggestion for naming the little Snowdrift men pictured here, "Bake and Fry", for instance, or the "Freshness Twins"; the "Creaminess Boys"; "Snow and Drift" or "The Goodness Team." Write your suggestion on any kind of paper or on the entry blank. Print plainly your name and address, and name and address of your grocer.

2—Buy a can of Snowdrift. Unwind the metal strip that seals any size Snowdrift can. Clip off that portion of the wording on the strip which says, "We lock in all its goodness." Enclose this piece of strip in envelope with your name suggestion and address, and mail to "Award Editor, P.O. Box 994, New Orleans, La." This constitutes an entry. Entries will not be considered unless metal strip accompanies each name suggestion. For example, "Bake and Fry" needs one strip; "The Creaminess Boys" one strip.

3—Every entry, duly accompanied by metal strip, will be acknowledged, and in appreciation we will mail you a coupon acceptable by your grocer as 10c against the purchase of your next 3 or 6 pound can of Snowdrift. Because of the large number of suggestions, we cannot enter into any further correspondence with any entrant. No entry will be returned.

4—Contest closes September 15th, 1937. All entries must be postmarked prior to midnight of that date. All entries become the property of the Wesson Oil and Snowdrift Sales Company. Judging will be directed by officials of the Calkins & Holden Advertising Agency, New York, and of the Fitzgerald Advertising Agency of New Orleans. Decision of the judges will be final. Anyone may submit suggestions, in conformity with the rules, except employees of the Wesson Oil & Snowdrift People, their advertising agencies, or their families.

Duplicate awards will be made in case of ties. A complete list of winners will be published as soon after decision as possible.

5—State awards will be made only to entrants from states listed in this advertisement, but the 385 other prizes are open to any one in the U.S. except as specified in Rule No. 4.
