INTRUDER GETS GASH ON HEAD

Joe Winkler forfeited \$25 bail Monday morning when he failed to appear in police court to answer to charges of drunk and disorderly conduct.

He had a gash on the side of his head to remind him, however, according to a physician who had taken stitches in the wound.

Police reports stated that Winkler appeared at the Monarch service station on South Sixth street about 3 a. m. Sunday, and told the station attendant that he was cold and wanted to go into the station to get warm.

The attendant replied that there was no stove, but Winkler ran into the building, followed by the attendant. They scuffled, and Winkler attacked over furniture and other articles, when the attendant ran to the vault and grabbed a .38 calibre revolver, hitting the intruder on the side of the head.

The police car was then called and Winkler taken into custody. Officers reported that he had broken a window in an automobile parked at the Anchor hotel prior to the disturbance at the service station.

Winkler forfeited \$15 bail on a drunk and disorderly count last weekend.

Stock Market Quotations

NEW YORK, Sept. 26 (AP)—Prices of leading stocks plunged into new low territory for the past 18 months or longer in today's market.

Losses of one to nine points at the worst, however, were substantially reduced or cancelled in many instances in the final hour as some "bargain hunting" buying and short covering made its appearance.

Brokers could point to no outstanding news development as responsible for resumption of the slide. Among factors that might have caused heavy selling at the start of the session, it was said, were weakness of foreign securities markets and sizeable setbacks in several commodities.

Steels met a little support at the tail-end of the day, notwithstanding a downturn of more than four points in this week's mill operations. Coppers, under pressure throughout, failed to revive to any great extent. Carriers and utilities were resistant.

Motors stiffened after a morning relapse, on forecasts from automotive centers that sales and production in 1937 will equal if not exceed those of the present year.

Transfers were around 1,650,000 shares. Today's closing prices: Air Reduction 65 1/2, Allied Chemical & Dye 124, American Can 94 1/2, American & Foreign Power 52, A. T. & T. 161 1/2, American Tob.
