

NAZI U-BOATS REPORTED ON WESTERN SEAS

(Continued From Page One) of the Atlantic. (The 42nd meridian is about 1500 miles east of New York.)

"Only yesterday I received the news of the certain destruction of three U-boats," he told his audience. "Not since October, 1939, have I been cheered by such a triple event."

Anyone can see, Churchill added, "how bitter is the need of Hitler and his gang to cut the sea roads between Great Britain and the United States and, having divided these mighty powers, to destroy them."

Senate Okays Anti-Sabotage In California

(Continued From Page One) said sabotage without loss of life presently could be prosecuted only as malicious mischief. The bill would impose terms as high as 10 years and fines up to \$10,000 for conviction of sabotage or attempt to sabotage.

Those who voted against the anti-sabotage bill were Senators Oliver Carter, John Foley, Robert Kenny, John Shelley and John Swan.

Foley closed labor's floor arguments with the plea against defeat the bill in its existing form.

328 HURT IN TRAIN CRASH

(Continued From Page One) ing out shells at the rate of a million rounds a month.

The westbound 10-coach commuter train, bringing men from Youngstown, was leaving the main Cleveland-Youngstown tracks and backing into the arsenal station, a Erie railroad spokesman said.

To do this the passenger train had to back across the east-bound tracks. The freight locomotive, going east, struck the commuter train at about its middle.

Five coaches were derailed. The freight locomotive crashed onto its side and 10 freight cars left the tracks.

Ambulances were rushed to the wreck scene from nearby cities.

The wreck came only 34 hours after a derailment on the Pennsylvania railroad near Baden, Pa., in which five persons were killed and 114 injured. The Pennsylvania has declared there was "definite evidence of sabotage" in the Baden wreck.

HONGKONG, March 18 (AP)—Forty-one new cholera cases were reported today in this British Crown colony, bringing to 130 the total recorded since midnight Friday.

because it "would destroy the unity and cooperation that is needed today—more than at any time in history—between labor and industry."

APPROVAL OF BRITISH FUND SAID ASSURED

(Continued From Page One) heard from Representative Taber (R.N.Y.) that the effort must be successful, that "otherwise we are in trouble."

Action Urged

The house appropriations committee sent the legislation to the floor with an admonition that the United States must drive "wholeheartedly, enthusiastically and expeditiously" to become the "arsenal and storehouse" and "beleaguered democracies."

Otherwise, the committee said, the United States would be stamped "a faltering welcher."

"How are we going to pay the bill? I don't know," said Woodrum. "But we will have to raise the money from the taxpayers of America. I don't know whether this will be enough but I am convinced that unless we take this action we'll find the day coming when our own country will have to meet the dictators and have to meet them alone."

"Regardless"

Taber, senior republican member of the appropriations committee, asserted that regardless of the "fantastic and ridiculous proposals of 1778" it was the law of the land the program of aiding certain countries must continue. He asserted:

"Regardless of what anyone's attitude might have been as to the embarking upon a program of aid to Great Britain, to my mind there can be no question but what we have embarked upon that program and that we must furnish enough aid to Great Britain to permit Great Britain to win. Otherwise, we are in trouble."

In response to questions, Woodrum told the house there was \$100,000,000 in the bill for cotton and \$50,000,000 for tobacco. Later, he declined to amplify that statement for reporters.

Woodrum told the house one reason the committee recommended appropriation of the \$7,000,000,000 entirely in cash was that use of contract authorizations would "furnish a blueprint" of the program to the aggressors.

The committee was reported to have approved the bill unanimously, after defeating efforts to cut the total to \$5,000,000,000 and \$3,500,000,000 and a motion to raise the fund to \$10,000,000,000.

Members said another motion defeated would have limited use of the funds to two years from date of enactment of the bill, rather than to June 30, 1943.

"Fine Psychology"

Speaker Rayburn told his press conference that "it would be mighty fine psychology" if the house passed the measure practically unanimously tomorrow. He predicted that "there would be very many votes against it."

CHILL KNIFES EAST, SOUTH

(Continued From Page One) sons trapped on ice floes in Lake Superior while fishing subsided on reports that all had reached the mainland or islands off Michigan's upper peninsula.

Forty mile winds drifted highways in western and central New York where temperatures ranged from 7 to 14. Winds of equal velocity forced air traffic to use, for the first time, the new Gravelly Point airport for emergency landings at Washington, D. C.

Gales swept Maryland and other areas on the seaboard. Early today the mercury touched zero at Big Savage mountain in western Maryland. Wind and sleet storms damaged utility lines in some sections of Maine. Maine's temperatures ranged down to 22. Gale winds subsided in Massachusetts. Continued cold was forecast for New Hampshire and Vermont where the mercury ranged from 10 to 20.

PORTLAND, March 18 (AP)—Oregon's long-delayed spring storm continued today. The weather bureau predicted more showers tonight and tomorrow.

Strong southerly winds blew on the coast and storm warnings were displayed at the mouth of the Columbia river.

Baker, which escaped rain as did most of eastern Oregon, was the state's hottest and coldest spot, the thermometer ranging from 32 to 67 degrees. Heaviest rainfall was in Portland, where .70 of an inch fell in the last 24 hours, accompanied by a miniature cyclone. The sudden squall damaged four light airplanes at the Swan Island airport.

LOS ANGELES, March 18 (AP)—Southern California, not yet dry after the wettest February in 50 years, can expect more rain tonight, the weather bureau says, but it will be of the drizzling variety.

Courthouse Records TUESDAY

Complaints Filed

Lilliamae Marland versus Preston Marland. Suit for divorce. Couple married Parsons, Kas., October 22, 1914. Plaintiff charges cruel and inhuman treatment. F. O. Small, attorney for plaintiff.

Justice Court

Robert William Thill, trespass. Plead not guilty.

Harold Walter Sylva, fugitive from state of California, issuing fictitious checks. Waived hearing and extradition.

Alfred O. Strange, alias Robert Hamilton, fugitive from state of California, issuing fictitious checks. Waived hearing and extradition.

State of Oregon versus J. D. Hamilton, assault armed with a dangerous weapon. Dismissed on affidavit by complaining witness.

RIGHT PLACE, RIGHT TIME

CAMP MURRAY, Wash., (AP)—A fox terrier crept into the 41st division receiving hospital, whining plaintively.

She was about to be ejected when a medical officer intervened. He made a quick examination and ordered a burlap-lined basket. Mother and six puppies are doing well, thank you.

A tuna fish weighing several hundred pounds can jump over a small boat with ease.

Flies have two wings, but they once had four.

JUGOSLAVS ON DEFENSE LINE AWAIT NAZIS

(Continued From Page One) demands for the passage of troops.

The Yugoslav forces were said to be concentrated along a line running through Nish and Skopje to the Greek frontier, roughly 50 miles west of the Bulgarian frontier.

They were said to be reinforced by a line of fortifications on which work has been going on intensively for three months. The line is understood to be made up largely of pillboxes.

Axis sources, on the other hand, reported that Yugoslav representatives made a recent trip to Adolf Hitler's retreat at Berchtesgaden and were forced to grant the Germans permission to transport arms to Bulgaria through Yugoslavia. These sources said many older Serbian officers questioned the advisability of resistance, considering it virtually suicidal.

The travelers, whose identity cannot be revealed, told of being forced to give up accommodations at an Athens hotel to make room for British officers and of drinking with British troops at a bar in Salonika.

Most of the British troops, according to these travelers, were arriving at the Aegean port of Volos, from where they were being sent northward to Larissa to take up positions on a second line of defense running from Katerina to the gulf of Salonika, behind a Greek line still farther north.

Many of the British troops were said to be Australians and Canadians who had completed their training in England.

Reports from Greek Thrace continued to tell of the evacuation of civilians from this region bordering Bulgaria. The Greeks were said to be steadily strengthening their fortifications in this area.

Over 25,000 Britons Dead In Nazi Raids

(Continued from Page One) direction of the attacked port.

Dwellings Wrecked

Several persons were killed in the London area when bombs wrecked a dozen dwellings in two districts. Heavy defensive barrages sounded like rolling thunder as many anti-aircraft shells exploded almost simultaneously.

Bombs also were reported dropped in a south coast town.

Official figures disclosed that in addition to the more than 25,000 persons killed since large-scale raids began last September, at least 35,000 were seriously wounded.

RIVALRY

SALEM, March 18 (AP)—Six youths were arrested here late Saturday night in an attempt to wrest possession of the state high school basketball championship trophy from a restaurant where it was on display.

Police were called after the youths broke several windows. The trophy, held by Salem for two years, was won by Astoria Saturday. Several fights between Salem and Astoria boys also followed the championship game.

California has 56 state parks, with a total acreage of 278,000 and representing an investment of \$12,000,000.

BELGRADE, Yugoslavia, March 18 (AP)—The British are continuing to unload supplies—anti-aircraft guns, searchlights and sound detectors—at several Greek ports, advices received here in a diplomatic message from Athens said tonight.

These are for an army of 300,000 men Britain is said in diplomatic sources to be mobilizing in Greece.

Britain, according to this information, is concentrating now on defense of Greek mainland ports and on preparing communication lines and air fields against nazi bomber attacks when the "backyard of Europe" battle finally breaks out.

Klamath Delegates Back With Report On Legislature

(Continued From Page One) house, said that the financial prospects for the biennium are substantially good. While there is an apparent deficit of \$500,000, he said, it appears quite certain that increased revenues from inheritance and gift taxes in the biennium will balance the program by the end of the period.

In the future, he warned, the state will find it more difficult to balance its budget without getting a d d e d revenue from some source.

Speaking about the difficult problem of the state insane hospital, he said the legislature made progress on this matter by providing for a new \$325,000 for the hospital, and \$130,000 more for working conditions at the institution.

Agricultural legislation at this session, Semon said, was not of great consequence.

Satisfaction

Boivin expressed satisfaction over the legislation on vocational education, both he and Semon being sponsors of the vocational education bill which passed.

Boivin said he believes Klamath Falls has a good chance to obtain one of the regional schools in vocational education to be set up as a result of the legislation.

"Looking back over the session," said Boivin, a veteran of the Salem assemblies, "it is clear that it avoided legislation that would be harmful to the state. A lot of bills were killed. In many ways, constructive action was taken."

The legislative delegates said that action on the unemployment compensation questions, biggest issue of the session, in general benefitted labor, protected the unemployment compensation funds and at the same time avoided any serious injury to industry in this area.

Boivin was appointed on the emergency board which handles the emergency fund in the interim between legislative sessions.

GIRLS MUST BE GIRLS

COLUMBIA, S. C., (AP)—One co-ed problem has been eliminated at the University of South Carolina.

The girls had been winning places on the school's golf, tennis and swimming teams.

So the athletics committee ruled that co-eds couldn't engage in a sports event in which men students predominate.

Your Meal Planning Worries are OVER!

Smart Homemakers Serve

SPAM

and

HORMEL CHILI CON CARNE

IT'S no trick at all to have plenty of variety in your meals—with SPAM and HORMEL Chili Con Carne. They're both extra-appetizing and delicious—with all their original goodness flavor-sealed right in. Get both at leading grocery, meat or food stores—let your family enjoy some of the many ways these products can be served.

COLD or HOT

SPAM

HITS the SPOT

Everywhere you go you'll hear folks talking about SPAM. Some "rave" about SPAM 'n eggs for breakfast — others crave SPAMwiches or SPAMburgers on buns. Hearty eaters like baked SPAM or SPAMbled eggs — taste-thrill seekers go in for SPAM appetizers. All agree that this pure pork shoulder meat with ham meat added is the meat sensation of the country! Get SPAM — in the handy 12-oz. cans that require no refrigeration — at all leading grocery, meat and food stores.

ANOTHER HORMEL Taste Treat

Has just the right seasoning — so restful and appetizing you simply can't resist a second helping. It's Chili Con Carne at its very best — made the HORMEL way — with all the thrilling goodness flavor-sealed right in! Easy to prepare, too — just heat and serve in a jiffy. Get a can or two at once.

HORMEL GOOD FOODS

SPAM - CHILI - HAM - CORNED - BEEF - MEAT - SAUSAGES - SOUPS - BREADS - BUTTER - EGGS - BUTTER - EGGS - BUTTER - EGGS
