Landed Job on Diner
Stubby was picked up for theft and sentenced to Elmira Reformatory. You see the grim stone buildings as the train rolls through Southern New York State on the Erie Road. So to the Reformatory Stubby was sent and there they made him into a cook. So well did they teach him the art that on being set free he became a chef in the dining car service. He was now a useful citizen; master of a trade; lifted out of the old surroundings; able to hold his head up and make his way. Nor could any police or sheriff lay hands on Stubby for he had served his time and the law was satisfied. Yes, as Stubby looked out through the plate glass window of the diner, the world looked better. Never again would he have iron on his wrists or walk lock step.

Hold on Stubby. Every tick of the clock brings you to toward the hour when for you time shall be no more. SEVEN DIE EVERY MINUTE—"It is appointed unto men once to die but after this the Judgement."—Bible. Death comes and then the Judgement. God's Word knows nothing of "Reform." His word is "REBORN." Ye must be born again. Our human fathers pass on to us a human nature that by birth, choice and practice goes in for sin. ONE—God offers to wash the page clean and to write in Christ's blameless life. TWO: To give a new heart with power over sin. THREE: Victory over worry, fret, fear; victory over pain, poverty, family woe; victory over the sins that are your shame. These are signs of the new birth.

Your head cannot take this in? Of course not. It is not for the head but for the heart—"With the heart man believeth unto Righteousness." But you wish you had the faith to believe and go on to VICTORY? Cry to God. Keep on crying. It is for Him to put that faith into your heart. By grace are we saved through faith and that faith is not of our own making; it is the gift of God.

My faith looks up to Thee; Thou Lamb of Calvary; Saviour Divine. Now hear me while I pray; Take all my guilt away. O let me from this day be wholly Thine.

Will Rogers' Life Rebuilt by Artist

Nine dioramas will depict the life of the late cowboy-humorist in the Will Rogers Memorial at Ardmore, Okla. Jo Mora, famous Western sculptor-artist, is creating these, and he's shown working at his Pebble Beach, Calif., studio on a scene where Rogers, as a cowboy, sings to quiet his herd.

Boys Explore Lake In Canoe Found At Bridge

Two young Klamath Falls boys, out to see the world, decided they would see America first and explored the shores of Lake Ewauna in the early morning hours Saturday. They were picked up by city police at 3 a. m. and later described their trip of the morning to Dave Bridge, recreational officer.

Finding a canoe moored near the Fremont bridge, they told the officer, the two took the craft and paddled to the steel bridge in the lower end of Lake

Ewauna where they tied it up and returned to town.

Bridge now has the canoe in his possession and is attempting to find the owner. Anyone having had a red canoe moored at Fremont bridge, is asked to contact Bridge at phone 3831.

TORPEDOED IN PACIFIC
NEW YORK, March 22 (AP)—A German radio broadcast heard by NBC today reported the torpedoing of a 2000-ton ship in the Pacific ocean, probably "by a German battleship."

Senate Decision On Argentine Beef Protested

WASHINGTON, March 22 (AP)—Democratic Leader Barkley announced today an administration effort would be made Monday to reverse the senate's decision to forbid navy purchases of Argentine canned beef.

An administration proposal to permit such purchases was defeated on a tie vote of 32 to 32 Thursday when Vice President Wallace, entertaining at a duck luncheon, failed to appear and break the tie.

NEW YORK, March 21 (AP)—Rafael Uranga, director of the Argentine Meat Producers corporation, said today there was a "profoundly disagreeable reaction in the Argentine" to a U. S. senate vote yesterday preventing the navy from purchasing Argentine beef and other foreign foods.

FOOD AGREEMENT

WASHINGTON, March 22 (AP)—An agreement that will pass two shiploads of American wheat through the British blockade for unoccupied France is expected to be announced within the next few days. It was learned today, after weeks of involved negotiations between the American, British and French governments.

Retail florists enjoyed a big year in 1939 with total sales amounting to \$149,000,000, according to the census. This was 51 per cent greater than for 1935.

A REPORT to America

The Ford Motor Company's business has always been to serve the needs of the American people. In providing them with low-cost transportation for the past 38 years, we have developed one of the country's largest and most useful industrial units. During a national emergency, we feel that these facilities should be devoted without reserve to our country's needs. Toward that end we started rolling months ago, with these results:

1 A \$21,000,000 Ford airplane engine factory, started only 6 months ago, is nearly completed. Production will start with an initial order for 4,236 eighteen cylinder, air-cooled, double-row, radial engines.

2 We are building a new \$800,000 Ford magnesium alloy foundry, one of the few in the country. It is already producing lightweight airplane engine castings.

3 Army reconnaissance cars—military vehicles of an entirely new type—are rolling off special Ford assembly lines at the rate of more than 600 a month. We have produced Army staff cars and bomber service trucks.

4 The work is now under way for the "go-ahead" and government is now under way for the fast construction of an \$11,000,000 Ford plant to produce bomber airframe assemblies by mass production methods.

FORD MOTOR COMPANY

BALSIGER MOTOR CO.

Klamath Falls, Ore.

Main and Esplanade

5 Several months ago work was started, on our own initiative, on an entirely new 1500 horsepower airplane engine especially designed for mass production. This engine is now in the test stage and plans are being developed for producing it in large quantities when and if needed.

6 A Ford aircraft apprentice school has been established, to train 2000 students at a time.

That is a report of progress to date.

The experience and facilities of this company can be used to do much of the job which America now needs to get done in a hurry. Our way of working, which avoids all possible red tape, enables us to get results and get them fast. This benefits users of our products and workers who produce them.

We are ready to make anything we know how to make, to make it to the limit of our capacity if need be, to make it as fast as we can go, and to start the next job whenever our country asks us to. And to this end, we know we have the full confidence and loyal support of the workmen throughout our plants.
