CHICAGO, April 16 (P) After swinging nervously over a wide range most of the session, showing a loss of more than a 111 cent at one time, wheat prices steadled today and closed with little net change from yesterday. Late buying that helped the market's recovery was attributed to previous short sellers and

milling interests, possibly re-flecting some flour sales to gov-ernment agencies. Selling was induced by food grain belt rains, uncertainty about the wheat loan program and war news. Wheat closed it lower to it
