TRAILER CAR WIFE

After high school she had married and now they live in a trailer car. And she had ideas of her own.

"You religious people bow your heads when you pray. If I ever become one with you, I would want to lift my face toward the heavens in prayer." So she began.

That was new to us. As a matter of fact does it matter what the posture in prayer? Here is a Portland family that has sent three into high school and college teaching and a fourth to give the Bible to India. In their famthe posture in prayer? Here is a Portland family that has sent three into high school and col-lege teaching and a fourth to give the Bible to India. In their fam-ily worship they remain seated and with heads bowed while the prayer is made. They never

Knees Like a Camel Then there was James, back in the first century church. When they came to coffin him, his knees were found to be so cal-loused they called him Camel Kneed James. So much did he kneel. Again recall the English M.D. who founded the China Inland Mission back in the 1860's. He had a way of praying aloud as he walked the paths and roads; pleading the plight of China's millions in their poyerty, disease and desperate sin. God must have heard, for the prayer. The secret of this in-flow of millions of dollars these seventy odd years is in the hundreds of prayer groups that meet each month to lay before the Lord of the harvest the needs of

Lord of the harvest the needs of the workers and the work. When we pray for his Son's work, he brings it to pass. Hundreds of laborers and enough money.

But back to the wife in the trailer car. The Way of Life made clear and the questions answered by use of the Bible, she asked—"If I have that heart belief, whom do I tell" Tell God, we suggested, for "With the heart man believeth unto righteousness; and with the righteousness; and with the mouth confession is made unto salvation." Next came — "Why not tell you, for you have made it all clear to me?" But she did not have to tell us; the new light in her face had already told us. Have you reading this, that joy, peace and hope? Tell God Thank You for Salvation and tell the folks. This is God's command — That we should be-lieve on the name of His Son Jesus Christ and love one another as He — Christ — gave us commandment." Italians List Toll Of Greek Attack

ROME, April 26 (#)—The Italian high command reported Thursday that fascist forces lost 6000 dead and wounded, includ-ing 400 officers, in the final of-

ing 400 officers, in the final offensive against the Greeks on the Albanian front.

Stefani, official Italian news agency, estimated that 300,000 Italians and 400,000 Greeks fought along a 150-mile front in the 10-day "battle of Epirus" which began Easter Sunday.

The agency said that before the Greek left wing capitulated Italian troops had penetrated as much as 90 miles into Greece. (The Greek high command declared that the Italians had not set foot on Greek soil up to the time of the capitulation, which they attributed to collapse of the Yugoslav army and the subsequent exposure of their northern flank to the Germans).

WOULDN'T a sprinter or a long-distance runner look silly trying to race with a clothespin firmly clamped on his nose!

Yet, in a sense, something fairly close to that happens in nearly every car that lacks Buick's sensational Compound Carburetion.†

For your engine has to breathe in huge quantities of air to be mixed with gasoline before it is burned in the cylinders.

But single-carburetor fuel supply systems can handle only a given volume of air. CK PRICES BEGIN for the Business Coupe To that extent, then, an ordinary engine has a clothespin on its nose - a limitation on air supply for big power operation.

We remove that clothespin very simply - by having two carburetors; one that handles all casual driving smoothly and efficiently, another to jump in with more air and more fuel when you call for extra power by stepping on the gas treadle!

Simple? Very simple indeed.

And simply marvelous in the extra FIREBALL wallop it gives you and in the gas savings you get - as much as 10% to 15% over previous Buicks with the same-size engines.

Maybe you'd better go see your Buick dealer
