

JUDGES NAME POPPY POSTER PRIZE WINNERS

The Poppy Poster contest, sponsored by the American Legion auxiliary, has been completed. Judges and winners named. Posters were divided into two classes. Class one, seventh and eighth grades, and class two, fourth, fifth and sixth grades.

Winners for class one are as follows: First prize of \$3 goes to Eva Jean Anderson, seventh grade pupil of Fairview school; second prize of \$2 goes to Georgia Tockey, seventh grade pupil of Algoma school; third prize of \$1 goes to Rosemary Anderich, eighth grade pupil of Fairview school.

Winners for class two: First prize of \$3 goes to Shirley Ann Erickson, Fairview school, seventh grade pupil; second prize of \$2 goes to Shirley Konnie, Fairview school, sixth grade pupil; third prize of \$1 goes to Mary O'Brien, Algoma school, sixth grade pupil.

Honorable mention for good posters goes to Alice Trewartha, Algoma school; Shirley Sogge, Fairview school; Joan O'Neill, Fremont school; Karen Hardin, Mills school; June Higbee, Fairview school; Darlene Dart, Fairview school; Elvi Reginato, Algoma school; Albert King, Mills school.

Winning posters are now on display at the chamber of commerce. These winning posters will be sent to Portland to compete for state prize.

U. S. CHAMBER ASKS STRIKE MORATORIUM

WASHINGTON, May 1 (AP)—The United States chamber of commerce called on the nation's "patriotic labor and industrial leaders" today to declare a moratorium against all strikes which would interrupt defense production.

Approving a resolution proposed by its resolutions committee, the chamber declared it to be "intolerable" that anyone should threaten to interrupt defense production "for purposes of coercion" and added that "such acts are offenses against the public safety, and offenders should be subjected to the penalties of the laws they violate."

Expense Cut Asked
This and other policy statements were adopted without discussion at the chamber asked on the proposals of its committee.

Another resolution, on "federal finance," called for a \$2,000,000,000 reduction in non-defense expenditures and for tax increases in unspecified amounts which should be "limited in duration to the period of the emergency with the burden fairly distributed."

Tax "Savers"
The resolution did not comment on the administration's \$3,500,000,000 defense tax program, but Ellsworth C. Alvord, chairman of the chamber's finance committee, in a speech this morning described the methods by which the treasury would raise the money as "severe and unrealistic."

He said the goal was "realistic" but suggested that with \$2,000,000,000 slash in non-defense outlays, the government might raise \$2,500,000,000 through a flat income tax increase and from excise and sales levies and possibly a small payroll tax. These he declared, would place less burden on taxpayers in the \$2000 to \$20,000 class than would the treasury's proposed methods.

Allen Named New Secretary Chief Of Liquor Board

PORTLAND, May 1 (AP)—L. F. Allen, Portland, became secretary and administrator of the Oregon Liquor Control commission today.

Supervisor of liquor stores since 1939, he was named yesterday to replace the late Joseph J. Hague. He had been acting administrator since Hague's death.

Formerly Allen served two terms as state representative from Union and Walla counties and for six years was mayor of the city of Walla.

Take George Washington, for instance; he had an awful time with his teeth, but he was a mighty good soldier.—Dr. Roger I. Lee, president-elect American College of Physicians.

Winners in Poppy Poster Contest

Winners in the American Legion auxiliary's poppy poster contest are, left to right, back row: Donna Rae Worden, Alice Trewartha, Darlene Dart, Elvi Reginato, Shirley Sogge, Karen Hardin, Mary J. O'Brien, Joan O'Neill, Shirley Konnie, Rosemary Anderich, Georgia Tockey, Albert King. Front row: Mrs. S. F. Konnie, president of Legion auxiliary, Shirley Ann Erickson and Eva Anderson.

Humane Society Notes

Interesting Stories About Klamath Animals and Efforts in Their Behalf

By Ida Momyer Odell

The lives of our wild creatures are surrounded by unpredictable perils. It has been said that practically no wild animal dies a natural death. The work of the Red Star about which we wrote last week covers aid to wild as well as domestic animals. Naturally, all humane work is not confined to associations, but countless unrecorded acts of kindness to our dumb friends lighten their burden of life.

An amusing story told by Otis Metzger is illustrative of opportunities for help which sometimes occur. While running a tractor on the leased land of the Tule lake bed one hot morning Otis noticed a commotion which amounted to frantic excitement in a family consisting of a honker, his goose and their goslings. Jumping down from the tractor he walked toward the group, only to arouse additional alarm in the goose who immediately led all but one of her goslings away. The gander, with hisses, stood his ground in defense of the remaining gosling which appeared to be entwined in the folds of a black snake. Otis told himself that no snake was going to have gosling for dinner if he could help it, so hastened up, only to find that the apparent serpent was a long black tule-root. Getting out his jack-knife Metzger cut away the tangle of roots and freed the fuzzy little fellow. Weak from his long struggle, which may have lasted for hours, the little thing could only totter away. The gander which had stood nobly, watching with anxious eyes, stretched out his strong wing protectively over the youngster, shielding it from the hot rays of the sun, and walked slowly along with the invalid to join the remainder of the family.

The American Red Star Animal Relief is a special department of the American Humane association, organized to meet emergencies of extraordinary

character and scope in the exclusive relief of animals. The American Humane association, organized in 1877, is a federation of societies and individuals for the protection of CHILDREN and animals in the United States. The Klamath Falls chapter of this association attempts no work with children, especially since the fine county child welfare program has been under way, although the local chapter stands ready to help should there be a call upon it.

The Red Star was organized during the World War some 25 years ago. At that time more than \$60,000 were paid for humane succor and conservation of horses and mules which were indispensable in the campaign to bring the war to a close. After the war the Red Star was kept alive to finance relief in emergencies of considerable extent exclusively involving animals, such as the saving of the Yellowstone herd of 30,000 elk from starvation. Starving deer in Alaska were fed. Range stock conditions were investigated, as were the matters of animal transportation, ill-treatment of animals following the Santa Barbara earthquake. One Red Star investigation costing less than \$200 resulted in the saving of more than a thousand head of cattle yearly at one transportation center. In dollars and cents this expenditure represented less than the financial loss of a single week under former conditions.

In 1937 the Mississippi river and its tributaries were in flood. Homes were wrecked, crops ruined, thousands of animals drowned. The Red Star rushed into the emergency and thousands of animals were saved as a result. This action preserved for farmers the animals by which they earned their livelihood. The Red Star is so organized that its forces can be promptly mobilized for any disaster affecting animals. The country has been regionally divided with a director in charge of each section. In each state men and equipment are ready to be called speedily into service should need arise. Your humane society, on the Keno road, is ready and equipped for local relief of animals. Do not hesitate to notify it by calling 7238, and remember visitors are welcome.

Next week our story is going to be about a goose which caught a dog.

Intensify your will, oppose Greek pride to enemy force and enemy temptations. Have courage—good days will come again. Long live the nation.—King George's farewell to Greece.

The British people have the courage to confront "ugly facts" and the strength to "look them squarely in the face." It is now up to America to do the same.—President Morley of Haverford college.

GM PRESIDENT HAS PLAN FOR DEFENSE WORK

DETROIT, May 1 (UP)—C. E. Wilson, president of General Motors corporation, disclosed Wednesday he has proposed to the United Automobile Workers (CIO) a seven-day work week to hasten production on \$750,000,000 worth of defense contracts.

The work would be done by four crews on a normal 40-hour per week schedule and with no pay differential for work on Saturdays and Sundays unless the worker already had put in his 40 hours, Wilson said.

The UAW-CIO rejected the proposal on grounds overtime pay should be given on Saturdays and Sundays regardless of whether the days were a part of a regular 40-hour work week, Wilson said.

Wilson said the bottleneck in obtaining machinery for defense plants would be eased if machinery now on hand were kept in operation for the entire 168 hours in a week.

Much defense work at present is on a two-shift, 40-hour a week basis that is taking advantage of less than half the machinery capacity, he said. The four-crew, three-shift plan would keep machines in continuous operation.

Manpower for the around-

the-clock production presumably would be available after the industry curtails automobile output by 20 per cent starting August 1.

Newsmen Amazed at Invalid Dog Story

PORTLAND, May 1 (AP)—Astonished newsmen learned yesterday of a weak-hearted, one-eyed, one-toothed Boston bull terrier that once had an appendectomy.

The worried owner, Mrs. P. T. Grant explained that the dog, Nippy, had to take pills regularly because of heart trouble. She hoped the newsmen could help her locate the dog in time to give it a pill.

The reporters really weren't needed, however, for Nippy found her way home, and, presumably, was rewarded with a candy-coated pellet.

NO RECIPROcity

SPOKANE, (AP)—Ex-doglover Roy Smith is off the be-king-to-animals standard.

He bumped a dog with his car, leaped out to help and the pup bit him.

"Then the dog's pal showed up," Smith said, "and he bit me. I picked up the one I had hit and they both bit me."

He took poach No. 1 to a veterinarian who pronounced it undamaged, then went to an emergency hospital for treatment of his bites.

THAT'S THE HURRY

SAN FRANCISCO, (AP)—Roscoe Withers had an alibi for speeding 85 miles an hour.

He was visiting his girl friend. Her cough sent her to the medicine cabinet. She selected the wrong bottle and drank camphorated oil. Withers rushed

her to the Emergency hospital where a stomach pump relieved her distress.

"Sure I was going 85," he told the traffic court judge, "and I would have gone faster if the car could."

The real guidance of freedom of the press is the press itself.—President Walter D. Fuller of the National Association of Manufacturers.

The monkshood flower grows only where there are bumblebees to carry its pollen.
