## COPCO SUBSTATION BUILT FOR MILLS

A new substation to serve the Kल्पine Plywood company and the currently under construction Conifer Lumber company plant has been erected along the Weed highway at the north end of the Klamath river bridge, Copco officials said Friday.

Power will be turned on at the end of the week, the power company said. The station replaces transformers which have been serving Kल्पine exclusively.

On another Copco project, work has been virtually finished on service to an additional six residences and to the Hotchkiss store at Ellingson's mill. Power was turned into the new Ellingson line on April 1.

## Judge Draws Line On Love in Suit

CHICAGO, May 15. (UP)—Now they've drawn a legal line on love.

Judge Randolph Desort Wednesday fixed a demarcation line separating taverns which Joseph Cicovsky, 37, a furniture man, and Florence Lukas, 25, blond model, may enter.

"Miss Lukas henceforth cannot enter any night club or tavern south of 51st street," Desort ruled. "Cicovsky cannot enter any club north of that line."

The decision resulted from Mrs. Cicovsky's suit for separate maintenance, charging Miss Lukas with "camping my husband away." Desort asked them to consider reconciliation.

## Oregon Priest Asks Food Be Sent to Nazi-Held Countries

WASHINGTON, May 16 (AP)—A plan proposed by Father Alcum of St. Mary's, Ore., to furnish food for starving persons in German-occupied countries failed yesterday to draw comment from Secretary Hull.

Father Alcum urged "in the

name of 200 mothers" of St. Mary's that the United States demand British permission to send food to these civilians.

In a letter to Senator McNary (R-Ore.), Hull said American authorities were watching the situation carefully to determine whether increased aid should be furnished the civilians.

He added that it was difficult to see how necessary safeguards could be established in territory under alien military occupation and that anyway, the responsibility for feeding the civilians

rested upon the occupying authority. Any food distributed in the countries must be under careful supervisions and control of American organizations, Hull stated.
