Currin's

CURRIN'S has another scoop in a new-to-Klamath Falls perfume... Cologne, too... It is called Tabu... And it is so different from other fragrances that it's hard to describe.

Vance Vaupel told me that there is very little of this perfume in the United States... And he's terribly proud to have been able to get hold of some of it... It's bottled in this country from essences manufactured by Dana, Inc... And the bottles are plain, because all the money goes into the perfume and cologne.

Speaking of money... It's not an inexpensive fragrance.

by any means... The smallest bottle is \$5.00... The middle-sized one is \$12.00... And the large one is \$22.50... That's for the perfume.

The cologne, of course, doesn't come so high... \$1.75, \$3.00 and \$5.00.

I know you'll love Tabu... It's the kind that people will ask you about... And the staying-power of the fragrance is simply amazing... I can still smell the few drops I daubed on me... Oh, about eight hours ago!

And yet I can't describe it... Perhaps the easiest thing to do is to say that the perfume of Tabu is indescribable!

Pelican Party Room

THE other day Avis McConnell told me something interesting in regard to the new Pelican Party Room at the Pelican Cafe... Everyone who has been down there has remarked about the chairs.

They are black and cream, sturdy and comfortable but at the same time they have a delicacy and grace suitable for formal entertaining... So I asked her what kind they are.

She told me they are called Thonet chairs... The frames were imported from Poland just before its invasion, and there aren't any more to be had when this shipment is entirely sold.

She also showed me the beautiful Syracuse china that will be used exclusively in the Party Room... And special new glassware and silverware... Nothing at all what you'd expect in a restaurant.

This is the new room, you

know, within whose fir paneled walls Klamath people can entertain... It was designed for use for luncheons, teas, cocktail parties and small dances... If you haven't seen it, I know Mrs. McConnell will be delighted to show it off to you.

Well, now we know the name of the man who will be the new Klamath Union high school principal this year, and will be city school superintendent later... But who knows how to pronounce the name?... It's written Arnold Gralapp... Is it Gray-lap... Or Gralh-lap... Or Gruh-LOP... Or Gralapp... Or what?

Five Bakeries in Portland Resume After Agreement

PORTLAND, Ore., May 29 (AP)—First break in Portland's six-day-old bakery strike occurred today when AFL union bakers signed a new contract with Rotary bread stores.

Rotary, a chain company, resumed operations at its five bakeries this morning.

William T. McGuern, bakers' union representative, said large supplies of bread were arriving from union bakeries in Salem, Eugene, Vancouver and Tacoma.

Other bakers rejected a peace offering by the employers and Ransom D. Meinke, employers' attorney said the next move "will have to come from McGuern."

The offer provided a 10 per

cent wage increase, boosting salaries to \$1.10 per hour plus an agreement to reduce night baking to a minimum. Meinke said employers were standing pat in refusing an additional 20-cent an hour bonus for night work.

Needy Families in U. S. Forego Butter To Aid Britain

WASHINGTON, May 29 (AP)—Secretary Wickard said Wednesday the agriculture department has stopped distributing butter to needy families in order that Great Britain might be supplied with dairy products.

Withdrawal of butter from the surplus food list available under the stamp act and direct relief distribution programs was necessary, the secretary said, because severe drought conditions east of the Mississippi river had reduced milk production.

Butter prices have gone up considerably in recent weeks, reflecting, Wickard said, the curtailed production of milk and demands of the British for cheese, evaporated and dried milk.

The advance displays of fur coats show the military and naval influence already felt in dresses and top coats... Instead of small, stand-up collars, you'll find many wide sailor collars... Or wide reverses across the front... Big sleeves, sort of balloon-type, are coming back, too.

East Side Appliances

THIS is the time of year when there are a lot of brides... At least, June is called the month of brides... But every month of the year can be thrilling to the housewife if she has a satisfactorily-equipped kitchen, since material things count for a great deal after she's married.

So here's a suggestion... (I've had so much satisfaction from my Gibson line that I can be excused, I hope, if I talk about the Gibson ranges and refrigerators.)

Any bride, however inexperienced in the kitchen, can get more for her money from a Gibson than any other kind of electric range or refrigerator... For one thing, the prices are lower for the quality... And for another thing, East Side Appliances, which has the Gibson franchise in this part of

the country, depends on volume of sales to make a profit... Not on making a big profit from a few sales... As I happen to know.

Gibson electric ranges and refrigerators are beautiful to look at as well as beautiful work-savers... And I think the "Freezer Shelf" in the Gibson refrigerator is the cleverest idea that has come out in electric refrigeration.

Incidentally, since East Side Appliances has put in a complete home furnishings department, newlows, or anyone needing a whole household of furniture, can buy everything right there... And pay on one contract, if they wish.

Cummings Fur Shop

HAVE you thought what you're going to do with that fur coat in your closet?... Before you see a moth come sauntering out the door?

Well, here's a suggestion... Cummings Fur Shop has its own cold storage vault... You can look through a window into the vault and see your coat hanging there... Where the furs are kept in an even, cold temperature, with the humidity controlled as well as the temperature.

Low summer prices on Cummings are in effect at Cummings Fur Shop... And if you leave your coat there for storage you might as well have it brought up-to-date... And late in the Fall, when you need it again, it will come to you refreshed from its cold vacation and in the height of style.

All the remodeling, cleaning, glazing, etc., is done right in Cummings Fur Shop, too... By trained, local people.

The store's new address is 115 S. 7th street.

SELLING INCREASE DEPRESSES WHEAT

CHICAGO, May 29 (AP)—Selling increased in the wheat pit today, forcing prices downward as much as two cents a bushel to the lowest level since May 12. At the low point prices showed net losses of about 7 cents since establishment of the year's peak May 19.

Much of the selling represented pre-holiday adjustment of accounts but there was considerable uneasiness in the trade about war developments and the marketing quota referendum Saturday. Offerings of loans at 65 per cent of parity on the new crop depends upon approval of two-thirds of eligible producers who vote. Persistent hedging sales added to selling.

Wheat closed 14-24 cents lower than yesterday, July 93-4c, September 95-4c, corn 14-14c down, July 73c, September 74c; oats 1c lower to 1c higher.

WOOL MARKET

BOSTON, May 29 (AP-USA)—Scattered sales were being closed today on domestic wools. Combining three-eighths and quarter-blood average bright fleece wools were moving occasionally at 46 to 47 cents in the grease. Only a few users were showing any interest. Combining three-eighths blood territory wools have been moved at prices ranging 90 to 93 cents scoured basis, but demand was rather limited. Foreign wools were receiving some demand at steady prices.

S. F. LIVESTOCK

SOUTH SAN FRANCISCO, May 29 (AP-USA)—Hogs: salable 125; around 5c higher; most 185-235 lb. California \$9.25-75, latter top; odd packing sows \$7.75.

Cattle: salable 15. For week: fed steers steady; grass steers easy, quoted \$9.25-75; grass cows 50c lower, bulk \$6.50-7.00; bulls and good heifers steady. Calves: salable 5. Nominal. For week: around \$1.00 lower; choice quoted \$11.50; slaughter calves \$9.50.

Sheep: salable 750. Includes 4 deers spring lambs, 2 deers shorn ewes; around steady; deck 74 lb. north coast lambs 10.25 sorted 10 per cent at \$8.75.

Note: the market will be closed tomorrow, Memorial day.

George Washington twice received every vote of the electoral college.

Markets and Financial

STOCK MARKET SHOWS SLIGHT RISING TREND

NEW YORK, May 29 (AP)—The stock market absorbed its vitamins more or less synthetically today but managed to work up moderate rising energy in several departments.

Closing gains were small for many leaders although 1 to 2 points were tacked on scattered issues in generally slack dealings. Transfers were around 350,000 shares.

Another flurry in aircrafts, coming after mid-day, helped prop some other faltering groups.

A little short covering, brokers said, in preparation for tomorrow's holiday when major exchanges will recess, tended to steady trends.

New highs for the year were posted for Oliver Farm, Consolidated Aircraft and Square "D." New 1941 lows were registered for American Chicle, Fajardo Sugar and South Porto Rico Sugar.

Favored most of the time were Douglas Aircraft, Glenn Martin, Savage Arms, Crown Cork, N. Y. Shipbuilding, Loft, American Tobacco "B," American Car and Foundry, DuPont, Union Carbide, American Smelting, Dow Chemical and U. S. Steel.

Among laggards were Socony-Vacuum, Great Northern, General Motors, Woolworth and J. C. Penney.

ALL-OUT AID SUPPORTERS PRAISE TALK

WASHINGTON, May 29 (AP)—Democrats and proponents of all-out aid to the democracies praised President Roosevelt's pronouncement on an American foreign policy Wednesday but republicans and non-interventionists generally were critical.

Speaker Rayburn of the house termed the speech "very forceful and clear" and added it would be "very satisfying and encouraging not only to the people of the western hemisphere but to the democratic peoples throughout the earth."

Alf M. Landon, republican nominee for president in 1936, countered with the comment, "It is the end of democratic government in the United States temporarily at least."

Senator Wheeler (D-Mont.), foe of the administration's foreign policy, described the president's speech as a "virtual declaration of war."

"The president talks about cold, hard facts and fear," Wheeler said while in Indianapolis for an address, "yet no man in America has tried more to create fear in the minds of the people than has the president since 1933. We are not prepared to fight on foreign soil. We cannot land an expeditionary force in Europe."

"The president talks of the defense of democracy and yet he has disregarded the fundamentals of democracy in America."

Like many of his democratic colleagues, Senator Ellender (D-La.) thought it "courageous," and predicted it would spell the end of strikes.

"It means war," Ellender said, "should the axis powers attempt to seize any territory which in the opinion of the president and our military experts could be used as bases for an attack on the western hemisphere."

Somewhat in contrast, Senator Taft (R-Ohio), asserted the president did "not declare any policy which the country has not been pursuing since the passage of the lend-lease bill. The declaration of an unlimited national emergency has no legal effect whatever. The president has no statutory or constitutional authority to declare such an emergency."

At Seattle, Dave Beck, western organizer and international president of the teamsters' union, said:

"I endorse President Roosevelt's program of national defense even to the furnishing of convoys in the battle of the Atlantic."

Reduced Nazi Air Force in Northern Europe Revealed

LONDON, May 29 (UP)—The Germans recently have reduced their air forces in northwestern Europe appreciably, sending large numbers of dive bombers and fighter planes through the Balkans to Greece and the Middle East informed British sources said today.

These informants said that these movements of German planes involved a flight of about 1,200 miles, as contrasted with the 12,000-mile voyage around the Cape of Good Hope by which British planes have to be sent to the Middle East.

SELLING INCREASE DEPRESSES WHEAT

CHICAGO, May 29 (AP)—Selling increased in the wheat pit today, forcing prices downward as much as two cents a bushel to the lowest level since May 12. At the low point prices showed net losses of about 7 cents since establishment of the year's peak May 19.

POTATOES

SAN FRANCISCO, May 29 (AP-USA)—Potatoes: 1 California, 3 Idaho, 1 Oregon arrived, 4 unbroken, 8 broken cars on track; by truck, 1 Oregon, 6 California arrived; market stronger for Long Whites; steady for other stock; no brokers' sales reported.

LOS ANGELES, May 29 (AP-USA)—Potatoes: 1 Oregon, 1 Idaho arrived; 4 unbroken, 8 broken cars on track; by truck, 23 California, 3 Idaho arrived; market stronger; no brokers' sales reported.

Schedules for Late June Draft in Oregon Set

SALEM, May 29 (AP)—Transportation schedules for the 177 Oregon draftees who will be inducted into the army at the Portland army, June 23-25, were announced today by state selective service headquarters.

They include:

To report June 24: Klamath board No. 1, two men; Klamath board No. 2, three; Lake county board, one.

1400 Planes, 800 Pilots Per Month Being Turned Out

PORTLAND, Ore., May 29 (AP)—America is producing about 1400 planes a month, including every type, and pilots are being turned out at the rate of about 800 every 10 weeks, Major General Howard Brett, chief of the army air corps, said here Wednesday.

During an inspection of the new Portland air base General Brett stated that increased production depended largely on what the army wants. "If we go into big bombers we naturally will not get so many in numbers, but the effectiveness will be there. The trend seems to be toward bombers with a radius of 1500 miles or more, but with more speed and performance than the mammoth B-19 which is awaiting a test flight in California."

He said the air corps was studying troop gliders.

STEEL SHORTAGE COMING, SAYS F. R.

WASHINGTON, May 29 (AP)—President Roosevelt declared Wednesday that a report on the adequacy of the steel industry to produce for civilian and military uses showed a prospective shortage of 1,400,000 tons for the current calendar year.

A deficit of 6,000,000 tons is estimated for the 1942 calendar year.

Asserting that approximately 25 per cent of steel output was needed for defense needs and that 75 per cent went for civilian purposes, the president said a study was being made whether to take one of two steps:

Curtailement of civilian consumption.

Increasing the capacity of the industry.

He did not say which method he preferred.

The report was presented to Mr. Roosevelt by Gano Dunn of the office of production management.
