Crater Lake Postoffice Opens

CRATER LAKE — The postoffice at Crater lake opened for the summer June 1. It will continue to be kept open until October 15. During the winter months Crater lake's residents receive their mail through the Fort Klamath office.

Up to the last three summers the postoffice has been in the lodge at the rim of the crater, but now it is in the administration building at park headquarters. Mrs. Mabel Hedgpeth of Crater lake is the postmistress and the mail carrier is Louise Kelley of Klamath Falls.

The office is open seven days a week from 8:30 to 5:30. The mail comes in at 10 a. m. and leaves at 3:45 p. m.

Many tourists were disappointed during the winter months when the office was closed because the postcards they sent out did not have the Crater lake stamp. However from now on until October 15, the tourists' mail will have that privilege of a Crater lake postmark.

Fort Rock Horse Breeder Entertains at Big Picnic

SILVER LAKE — R. A. Long, Ft. Rock horse breeder, was host yesterday to the Bend saddle club and several hundred of his neighbors and friends from as far away as Portland and Salem. The picnic, at which many Silver Lake people were present, was held at the Menckensmaier homestead, where Long recently moved. Many of the Bend horsemen brought their saddle horses in trailers on the 60 mile trip. Some of these equine boudoirs are comparable in comfort and decorativeness to a jullian drawing room.

Vaquero costume was the prevailing mode and horse talk the prevailing theme of conversation. Long, whose business is raising horses for polo ponies and for rodeos, had on display many of his brood mares and their young offspring, some of

them so new they teetered uncertainly on their long legs. His five blooded stallions were also shown on the side hill under the towering rimrock that shelters the house, to the accompaniment of clicking cameras.

Dinner was served in the best chuck wagon tradition from one long table made of boards laid on saw horses. Huge quantities of brown beans, muligan and coffee, furnished by the host, were consumed, supplemented by pies, cakes and other delicacies from the baskets of the guests.

In the afternoon some of the local riders provided entertainment by riding bucking broncos while the spectators sat on the fence in ranch style and talked over the merits of horses and riders.

CRATER DRIVERS INCREASE IN '41

CRATER LAKE — From the chief ranger's office on June 1 came the report that 3776 cars carrying 12,218 persons visited Crater lake during the month of May. Of those 2297 cars carrying 7402 persons were checked through the south or Klamath Falls entrance, and 1479 cars carrying 4736 persons checked through the west or Medford entrance. This total shows an increase of 3.5 per cent over that of last year.

Memorial day travel doubled the total figure of 1940. Last year's total on Memorial day was 750 visitors; this year's 1510 visitors. Much of the increase was credited to the weather and world conditions. The weather in 1940 made it almost impossible to see the lake, and even though the weather was unsettled this year, the lake was not hidden by fog. National defense has also put more money into circulation this year, therefore the holiday weekend's heavy travel gave the park officials just a teaser of the expected record breaking travel year.

Over the holiday weekend 1226 cars carrying 4329 persons were checked in at the Annie Spring checking station. Twenty different states and the canal zone were represented. There were no accidents reported in the park.

Power behind the throne?

BY NORMAN CHANDLER, CHAIRMAN, NEWSPAPER PUBLISHERS COMMITTEE

HOW do you do, Mr. King of America! How do you keep yourself in power? What prevents some dictator from dethroning you, making you HIS subject?

How do you manage to know always what is going on, on all sides of you? How do you manage to go about your PRIVATE affairs without interference, yet control your public servants, run a vast democracy, banishing crooks and rewarding honest men?

WELL, LET'S SEE. The Founding Fathers wisely put freedom of speech and thought beyond the throttling hand of any would-be dictator. Therefore you are able to defend yourself with the weapons of truth and fact.

You have given to newspapers the job of unearthing the facts. Your papers, you say, must see to it that you know what is happening—good or bad.

Is the governor of your state doing his job well? Are the teachers in your schools

performing their rightful duties? Is the health officer seeing to it that restaurants and food stores are clean? What do the markets have in the way of bargains today?

Easy questions for you to answer—because you have only to turn to your newspapers for all the facts and opinions and offerings of the day.

And so, behind that high and secure throne from which you, the people, rule, you keep a vast power. It is sometimes mislabeled the "Power of the Press."

NONSENSE! The press has no power except the power of truth and knowledge—power which it can give to you to use. If it were true that a newspaper—just any newspaper—had great "power," some sniveling communist or fascist sheet could take your democracy away from you! The American public has power over the newspapers. A power exercised daily simply by buying or not buying them.

It is truth, news, information, fact, that makes you a king. And so long as freedom of expression is the rule in America, your rule is secure.

Over 300 leading newspaper publishers join together to bring you this weekly message about the function of the press in a free nation. Newspaper Publishers Committee, 420 Lexington Ave., New York.
