

CAMPAIGN FOR NEW INDUSTRY OPENS FRIDAY

SALEM, June 5 (AP)—A campaign to obtain new industries for Oregon will be started tomorrow by the state industrial development commission, authorized by the 1941 legislature.

The 18-member committee, appointed by Governor Charles A. Sprague and the presiding officers of each house of the legislature, will meet at 10 a. m. tomorrow to organize and to map out its plans.

It will devote particular attention to a study of how industrial taxes may be made more equitable, while the committee also will attempt to determine whether Washington state's tax structure has influenced industries in locating there instead of in Oregon.

The committee would report to the 1933 legislature, but legislative leaders have indicated that a special session might be called if the committee should develop a workable program before that time.

Members of the committee are:

President of the Senate Dean H. Walker, Speaker of the House Robert S. Farrell Jr., Budget Director David Eccles, Dr. W. H. Dreesen of Oregon State college; C. C. Chapman, Portland, editor of the Oregon Veler; Fred Shepard, Bend farmer; C. L. Starr, Portland attorney.

State Reps. Vernon Bull (D-Union), C. T. Hockett (D-Wallowa), J. D. Perry (D-Columbia), Frank J. Loneragan (R-Multnomah), William M. McAllister (R-Jackson), John B. McCourt (R-Multnomah).

State Sens. W. H. Steiwer (R-Wheeler), Howard C. Belton (R-Clackamas), and Ronald E. Jones (R-Marion); Claude Buchanan, Corvallis tax expert, and Dean James H. Gilbert of the University of Oregon.

Driver Killed in Three-Truck Crash Blamed on Smoke

ASTORIA, Ore., June 5 (AP)—A three-truck collision on a smoky highway yesterday killed Alvin M. Kelly, 35, Tacoma log truck driver, and injured another man.

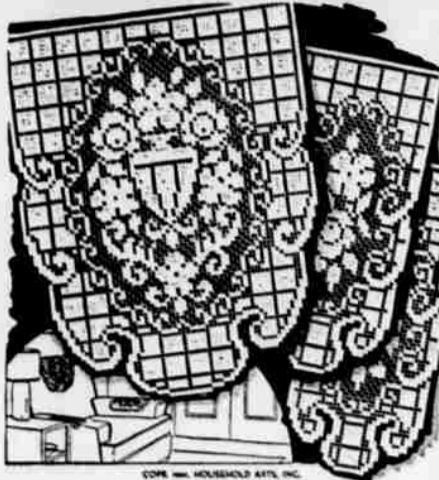

John Dawson, driving one of the trucks, told police he slowed to 12 miles an hour after encountering a dense smoke pall on the coast highway six miles north of Seaside. The smoke came from a roadside fire.

Kelly, driving the following truck, crashed into the rear of Dawson's machine and a log, rammed forward by the impact, sheared off the truck cab and crushed him to death.

Guy French, driving a third truck, struck the wreckage and suffered serious burns on one leg in the resulting fire.

The Wyoming Massacre occurred July 4, 1778.

Chair Set Smart in Finer Cotton

Household Arts by Alice Brooks

This Crochet Makes Chairs Look Their Best

PATTERN 6916

And it's work you'll enjoy in your leisure time. Make the set in fine cotton. Pattern 6916 contains charts and instructions for making set; illustrations of it and of stitches; materials needed.

To obtain this pattern send 10 cents in coin to The News-Herald, Household Arts Dept., Klamath Falls, Ore. Be sure to write plainly your name, address and pattern number.

RAF CADETS ASK TO SEE MOVIE STARS

LOS ANGELES, June 5 (AP)—Fifty English schoolboys, the advance guard of 7000 RAF cadets who soon will be training in six United States air schools, arrived here Wednesday and wanted to know, first of all, how soon they could see some of the movie stars.

Greeting the youths, whose ages range from 17 to 23, were Capt. L. J. Douglas-Martin of the British air commission at Washington, and Squadron Leaders T. G. Whitlock and R. S. Mills. They will begin training at once at the Polaris flight academy, Glendale, under supervision of Maj. C. C. Moseley, whose Cal-Aero school is training fliers for the U. S. army corps.

The English youths will get in 150 hours of combat flying on Vultee and North American training planes, and then return to England to receive 40 hours of instruction in gunnery before being assigned to RAF squadrons.

"Under the lend-lease bill the United States furnishes equipment, gasoline and oil and England pays the tuition fees and expenses of the men," said Capt. Douglas-Martin. "We are setting up schools in six sections of the United States to train combat pilots. By August 13 we expect to have 7000 youths in training here, and an additional 2500 will be attending a navigation school at Miami, Fla."

"At Glendale 300 cadets will be in training at all times. They will come in groups of 50 and be graduated in groups. Another 100 boys have arrived in

CALL ISSUED FOR RED CROSS NURSES

A new call to nurses to assume U. S. army assignments has been sounded by army authorities and the Red Cross nursing service, according to Earl Redman, Klamath county Red Cross chapter chairman, in an effort to staff four new military hospitals which will open in June.

A letter received by Redman from Gladys Badger, director of Red Cross Nursing Service for the Pacific area, said the new hospitals would be located at Everett, Wash., Portland, Ore., Fresno and Santa Barbara, Calif. They are in addition to 20 military hospitals already in operation on the Pacific coast.

A total of 645 Red Cross nurses are now on active army assignment in the Pacific area. Miss Badger announced, but 600 more will be needed by September 1. Registered nurses from 22 to 40 years of age are eligible to apply for reserve commission with the rank of second lieutenant.

Nurses who register with the Red Cross army reserve will also be given an opportunity for foreign duty in Hawaii, Puerto Rico, Alaska or the Philippines. It was announced by Captain Emily Weder, assistant to the superintendent, Army Nurse Corps. Previously only regular army nurses were eligible for foreign service.

The Red Cross registered 101 nurses during the month of April.

C. S. President

John Randall Dunn, incoming president of the First Church of Christ, Scientist, in Boston, Mass.

Annual Meeting of Christian Science Supports Democracy

BOSTON, June 5—Some 6000 Christian Scientists from many parts of the world gathered in annual meeting Monday were called upon by the Christian Science board of directors to consecrate themselves to the defense of the democratic system of government as the best human instrument for preserving the basic rights of mankind to "life, liberty and the pursuit of happiness."

The directors also announced the election of John Randall Dunn of Boston as president of the Mother church for the ensuing year.

In his address Dunn viewed the present world conflict in the light of a world housecleaning, during which individual and national sin, tyranny, greed, self-will and lust for power are being brought to the surface of world thinking, ripe for destruction.

Despite the troublous times in Europe, reports indicated that church services are being conducted generally without interruption in the countries abroad.

SULPHUR "AIR"

The air in some of our big industrial centers is polluted with sulphur, equal to 100 tons of sulphuric acid to the square mile, according to estimates.

WHERE IT ORIGINATED

The hat-tipping custom originated in the age of chivalry, when knights raised the visors of their helmets as gestures of friendliness.

POLICE HIT SALE OF LIQUOR ON HILL

Law officers believed Thursday they had struck a blow at the Motorcycle hill traffic in liquor to Indians, after the arrest of A. J. Oakes, 63.

Oakes was arrested on the hill east of town and charged in federal court with sale of ale and beer to an Indian. Bond of \$2500 was set in US Commissioner Bert C. Thomas' court, where Oakes asked for a preliminary hearing.

For several months there have been reports that Indians have been buying liquor on the hills east of town, this method of delivery being developed after the situation down town became too hot for safe dealings, the officers said.

Recently five Indians were drowned when, it was believed, they were returning from the Motorcycle hill area and their car plunged into the main canal near the Main street bridge.

MINUTE BAT

A bat so small that it crawls through cracks in bamboo stems, and rests inside the hollow joints, is native to the East Indies.

SHENANDOAH VISITORS

Shenandoah National park, in Virginia, had 950,807 visitors in 1940 as compared to 911,612 the preceding year. These visitors used 284,383 private automobiles to make Shenandoah rank first in the visiting list for national parks and monuments.

THIRD DIVISION WINS MOCK WAR

By JACK BEARDWOOD

CAMP HUNTER LIGGETT, Calif., June 5 (AP)—Major-General Kenyon A. Joyce called subordinate officers of his ninth army corps command Wednesday to a critique on the first phase of Camp Hunter Liggett's summer war maneuvers, and all evidence pointed to praise for the corps' streamlined third division.

The third, in this initial test of the army's newly devised triangular organization for divisions, sent its 13,500 men against the 22,000 of the old-style 41st "square" division, and successfully defended hilltop positions from the larger attacking force.

The defense, beginning at dawn Tuesday after nightlong preparations, was conducted without aviation support and in the face of withering fire by machinegun, rifle and field artillery units.

Yet in more than seven hours of incessant fighting, the 41st registered only a single break through, and it a brief and costly one.

Spokane's company D, 161st infantry, at the price of 50 per cent casualties, penetrated that portion of the 13-mile line held by a part of the 30th infantry regiment shortly before the battle ended at 11:30 a. m.

Other attack troops succeeded

in crossing the San Antonio river but were beaten back in their attempts to force a way through the fields beyond and into the hills where the streamlined third had established its positions.

Even the momentary penetration of the center of the defense front required a strong pre-emptive assault by combat planes.

Musician Leader Raps Competition From Juke Boxes

SEATTLE, June 5 (AP)—James Caesar Petrillo flew into town from Chicago in advance of the American Federation of Musicians' convention with a challenge today to "canned" music competition.

Petrillo, reputedly the nation's highest paid labor leader as president of the federation, was to open the executive board session today. The convention proper opens Monday.

He said a report on a survey of the record and juke box situation would be submitted to the executive board, which would report to the convention.

"Frankly," he said in an interview, "the musicians are getting fed up. We're making our own competition. The record manufacturer tells us he wants a record made, then sends us home until he wants another. Something's got to be done and it can be done. It may take a long campaign, that's all."

He declined to predict what action might evolve.

AIDED

Surgeons grafted pupils from the eye of an animal to the optic nerve of a boy who was born without pupils 25 years ago. The boy, Frank Bents, since has been graduated from the University of Wisconsin law school.

Puffins shed the outer covering of their bills every fall.

COMPLETH FEMININE HYGIENE DEMANDS

MUCH has been written about feminine hygiene. But too often women overlook hygiene in the REAL sense of the word—underarm cleanliness and sweetness. You cannot be attractive with underarms moist, stained and smelly. Use Arid, the new cream deodorant. Use Arid, the new cream deodorant.

- Arid does not clog pores, does not irritate skin.
- No washing or dry. Can be used right after shaving.
- Instantly checks perspiration 1 to 3 days. Removes odor from perspiration, keeps armpits dry.
- Arid is a pure, white, granular, moisture vanishing cream.
- Awarded Approval Seal of American Institute of Laundering as harmless to fabric.

Women use more Arid than any other deodorant. Try a 10¢, 35¢ or 50¢ jar today at any store which sells toilet goods.

Georgiana

created these two rayon sheers —Margette and Georgene— to keep you cool and unwilted looking all summer long. These two dresses she created to flatter your figure. Their fit and workmanship are her boast. Their small prices— your thrill.

650 - 795

SHEER GEORGENE
a wonder rayon with chiffon-like ripples. Red or Blue print on White; White print on Green or Navy. Sizes 12 to 40.

795

SHEER AND STROCKED
Striped Margette. Rose, Navy or Blue Striped in White; or White striped with Black. Sizes 14 to 44.
