Money Plentiful in the West. Director Roberts of the U.S. Mint, has just returned from a trip through the Middle West. He said of what he observed: "Money is plentiful and the West seems to have all of its share. In fact, there is so much money that Nebraska banks, for intance, are competing for commercial in Chicago, with interest at a low rate. I do not think this has ever occurred before. Heretofore the Western banks have never had too much money, and have had to borrow from Chicago and the East. Money is now going from the West to the East, Clothing, Gents' Furnishings and this renders the money market in the East easy. Therefore, American money is going to Europe where interest is higher. There is not much talk of politics in the West. The general understanding is that President McKinley and Mr. Bryan will be re-nominated. Mr. McKinley will carry more Western States than he did three years ago, and will obtain a much larger majority in Iowa than before.
