RETURN OF VOLUNTEERS.

Washington Regiment Will Leave Manila Within a Week.

Manila, Sept. 2 .- Of the troops about to return to the United States, the Kansas men will leave on board the transport Tartar, the Washington regiment on board the Pennsylvania, and the Nevada cavalry on the Ohio. All these departures will occur within the next week. Eight hundred men of the Kansas regiment will return, and 200 will remain at Manila, 150 of them re-enlisting. Three officers and 30 men of the Kansans were killed, and in 1892. 19 officers and men died from disease

Funston Wants to Stay. General Frederick Funston and Mrs. Funston are with the general's regiment. General Funston has undergone an operation necessitated by an injury resulting from a fall from his horse while serving in the Cuban army with General Gomez. In the course of an interview, General Funston remarked that he would not mind staying in Luzon. He disliked war, but inasmuch as there is fighting, he would like to remain and aid in bringing it to a close. Speaking of the future, he

"The only solution of the problem will be through whipping the insurgents. I do not think they will surrender. When we begin active operations against them on a large scale in the autumn we will scatter them into small bands, and I think when the soldiers composing these bands see that they are persistently pursued they will throw away or hide their arms and return to their pursuits of peace. A year hence small bodies of armed men will be able to go anywhere in Luzon. The island was always infested with bandits, and was never safe for Europeans to travel in. Probably after the end of the fighting the highwaymen will be more numerous because the members of Aguinaldo's army who have lived for years with guns in their hands have acquired a state for bushlfe, and would rather continue as

highwaymen than return to work. "Cavalry is greatly needed here. The country, when dry, is superb for cavalry operations. The insurgents III on the Texas frontier. Our greatest successes have been gained when the regimental commanders have been allowed to follow up quickly the advantages gained in battle.
