# U. S. SENATOR ROACH

# Says Peruna, the Catarrh Cure, Gives Strength and Appetite.

Hon. W. N. Roach, United States Senator From North Dakota. Hon. W. N. Roach, United States Senator from North Dakota, personally endorses Peruna, the great catarrh cure and tonic. In a recent letter to the Peruna Medicine Company, at Columbus, Ohio, written from Washington, D. C.,

"Persuaded by a friend I have used Peruna as a tonic, and I am glad to testify that it has greatly helped me in strength, vigor and appetite. I have been advised by friends that it is remarkably efficacious as a cure for the almost universal complaint of catarrh"

Senator Roach's home address is Larimore, North Dakota.

Peruna is not a guess, nor an experiment; it is an absolute, scientific certainty. Peruna cures catarrh wherever located. Peruna has no substitutes—no rivals. Insist upon having Peruna. Let no one persuade you that some other remedy will do nearly as well. There is no other systemic remedy for catarrh but Peruna. Address the Peruna Medicine Company, Columbus, Ohio, for a free book on catarrh, written by Dr. Hartman.

The bill to protect child labor has passed the Georgia senate. The bill seeks to prevent children under the age of 12 years from working in the factories unless widowed mothers or invalid stead of chloroform, and when she com-

London holds 63 per cent of its policemen for night duty.

A recently patented freight seal has made its appearance on the market, and several lines are now considering its adoption. The new seal is said to possess many advantages over the common lead seal now in use. It consists of a tablet of terra cotta, on which the initials of the road are stamped, and perforated by a square hole, through which the fastening device is passed. It is impossible when applied to car doors, to open them without first breaking the seal. When broken no amount of ingenuity could serve to prevent the knowledge it had been tampered with.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the lasts and acceptable to the sweet. taste and acceptable to the system. It is the one perfect strengthening laxa-tive, cleaning the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal largetive.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP Co. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package. CALIFORNIA FIG SYRUP CO.

A physician of Eastbourne, Me., recently made up a draught for a patient, putting in by mistake strychnine inplained that it made her sick, got angry and to prove that the medicine was all right swallowed half the contents of the bottle himself. He immediately recpolsoning, used a stomach pump and other means to destroy the effects, but

Woman's Rights in Turkey.

The Turkish woman is marriageable at the age of 9 years and by Turkish law at that age, if married, she is competent to manage her property and dispose of one-third of her fortune. The law allows her to abondon her husband's house for just cause and will protect her in so doing. She cannot be compelled to labor for the support of her

The first recorded strike in the United States is that of the journeymen bakers of New York in 1541.

Bealth from an Open Fireplace. Physicians are discovering that the old-time open fire had much to do with the health of our grandmothers and that steam heat and furnace heat are responsible for many allments. Steam heat especially has a way of gradually increasing so that anyone who is used to a steam-heated room becomes an easy victim to colds and all the long string of allments to which a cold is the introduction. An open fire is a sort of inspiration in itself, and since it draws in the out-of-door oxygen through all the cracks and crannles it helps to purify the air in the room while it heats it.

Great Britain's Locomotives. There are 19,914 locomotives at work on the railways of the United Kingdom, and each of these on an average runs 19,096 miles in a year, and earns for this £4,578, so that each mile the locomotive runs its gross receipts are should 4s. 9d. Like the human facter in all industries, the locomotive to-day is doing more than that of ten years ago, but, unlike the human factor, engines are now earning less; the 15,924 locomotives then on the railway each ran 19,-035 miles, and earned £4,929 per annum. If, therefore, we take the cost of an average locomotive at £2,700, it is found that she earns in gross receipts her total cost in seven months; but the profits are quite another matter.

Its Glory Done. In one of the finest cities of our west, there lives a certain man who has been

prominent all his life in the work of building and managing theaters. He has been too busy at this to have much time for reading. When his pile was made he started for Europe and visited the various countries. Among other cities he took in Rome. It chanced that he drove out in the country and was shown the Coliseum. The guide told him it was a theater. The old man was surprised. When he came back he was asked about his trip; he mentioned Rome. Naturally he was asked if he had seen the Coliseum. He had. He didn't think much of it. To quote his own words: "It was a blamed good house once, but it's in

Escape of the Newly Wedded. A newly married couple in New Brunswick, N. J., circumvented their mischievous friends by starting on their wedding journey by way of the roof. The friends, well-supplied with rice and old slippers, stood at the foot of the stairs. The pair ascended to the roof, walked to the adjoining house, then down and through the rear door to a back street, where they entered a the stockholders are prominent citizens waiting carriage and were driven to of Harney county.

ruins now."-Detroit Free Press.

### PROTECT SETTLERS.

ieu Land Claim Not Really Effective Against Occupants - Burden of Proof on Railroad, Instead of Settler.

Settlers in the states of Washington by the interior department on the act of congress of June 4, 1897, which allows the Northern Pacific Railroad Company and others to select lands in lieu of lands embraced in the various forest reserves and held by them under patent or under unprotected claims or quatters' rights

in lieu of the lands so relinquished the railroad company and others was authorized to select from any vacant lands open to settlement.

The department of the interior has held "vacant lands to settlement" to lands. Therefore, settlers or squatters on unsurveyed lands have been very uneasy for some time, and many of them felt that there is little prospect of holding their claims.

The land department of the railroad company, however, asserts that it is not its purpose to take the lands of any

At the same time the department of the interior encourages the settlers to continue their settlement, and within three months after the acceptance of the official survey of their lands to assert their claims thereto.

The ruling of the department is that the party first initiating the right of settlement has the prior claim.

Congressman Jones, of Washington, who has just introduced a relief bill on behalf of settlers, is of the opinion that most settlers would not think of fighting the railroad company, and, therefore, the law as it was enacted does grave injustice to settlers, as a rule. In an interview Mr. Jones said: "It has been repeatedly asserted that

lands upon which there are settlers have been filed on by the railroad company under the present law. To prevent this is one of the objects of the law. I know that settlers have their remedy. That is to fight the claim of the company and establish their prior rights. This is expensive. The settlers are not wealthy. The prospect of delay is discouraging, and many prefer to abandon their settlements rather than bear the expense and delay of a

"The railroad cannot complain at these provisions. If its claim to a tract of land is just it will prevail. Delay and expense cannot hurt it as they do the settler. All it has to do is to inspect the land. If it finds a settler and does not think he is there bona fide it can contest his claim as any other contestant, but it should bear the burden of such contest. These bills are introduced without any hostility to the railroad, but out of a desire to do justice to the settler. I believe the government should be quite lenient with men who are striving to reclaim the public domain, especially now when the choice land is taken up. If we had more owners of small tracts of land we would be better off."

Senator Foster and Representative Cushman have each given much attention to the claims of settlers and their rights, and in all cases there is an unqualified sentiment favorable to the pioneer and home-building squatter

Government Hospital at Vancouver.

President Beebe, of the Portland chamber of commerce, at its last meeting, called attention to the bill locating a permanent general hospital at Vancouver, Wash., which has been introduced in congress by Representatives Jones, of Washington. George Taylor, jr., said that the hospital was of great importance to Portland. "Vancouver's healthful location is well known," said Mr. Taylor. "Before long, many soldiers will be returning from the Phil- \$7@8; Oregon wild hay, \$6@7 per ton. ippines, and Vancouver is the place for them." The trustees voted to request the Oregn congressional delegation to store, 25@35c. co-operate with the Washington delegation in behalf of the Vancouver hospital. ### WEEKLY REVIEW OF TRADE.

Wind-up of Old Businiss Holding

R. G. Dun & Co.'s weekly review says: Failures in 1899 were 9,393 in this day.' number, with liabilities of \$123,132,-679. The last few days of the year added a few to the number, and some millions to the known liabilities of Sir: Here is your postal. I started in cific railroad passes, are very much interested in the rulings now being made the end, so that commercial defaults and have prospered. Thanks.' "—Chireached \$90,879,889. Most people in cago Evening News. business have been so occupied with their accounts and the settlements of the past year that little new business has yet been done. No new tendency in manufactures or in trading appears, and less change than was anticipated in noney markets.

There is nothing unsound in the business of the great industries, but an extensive revision of prices may disappoint extreme expectations. Two ways of stimulating business are adopt-

ed. The Iron Age notices "transacmean, if necessary, all unsurveyed tions of magnitude in foundry iron, which indicates that some sellers are willing to make concessions to secure the trade of good customers." But the steel and wire company has advanced prices of wire nails, barbed and smooth wire 25 cents.

Wool is strongly held, though prices of a month ago cannot be othained. Cotton does not rise further because receipts from plantations have somewhat allel iron pipes, one inch in diameter, increased, and accounts of large stocks and laid upon a framework which raises at many small towns have attracted attention.

Cotton goods are at the highest quotation of last year, with good demand, though cotton has declined a little.

Wheat moved very sluggishly, with small change in prices. In six months of the crop year about 99,000,000 bushels (flour included), have been exported, against 123,000,000 last year. Atlantic exports have now fallen to only 2,690,926 bushels for the week, against 5,514,240 last year, and Pacific exports were 531,225 against 614,833
