Common Sense Talk with Women

If a person is ill and needs a medi-cine is it not wise to get one that has stood the test of time and has hun-dreds of thousands of cures to its credit ?

A great many women who are ill try everything they hear of in the way of medicine, and this experimenting with unknown drugs is a constant menace to their already impaired health.

This seems to us very unwise, for there are remedies which are no experiments and have been known years

and years to be doing only good. Take for instance Lydia E. Pink-ham's Vegetable Compound; for thirty years its record has been one unbroken chain of success. No medicine for female ills the world has over known has such a record for cures.

It seems so strange that some people will take medicines about which they really know nothing, some of which might be, and are, really harmful; while on the other hand it is easily proved that over one million women have been restored to health by Lydis E. Pinkham's Vegetable Compound.

We have published in the news-papers of the United States more genuine testimonial letters than have ever been published in the interest of

any other medicine. All this should, and does, produce a spirit of confidence in the hearts of women which is difficult to dislodge, and when they are asked to take some-thing else they say, "No, we want Lydia E. Pinkham's Vegetable Com-pound, which has been tried, and never found wanting, whose reliability is actualliched for become the sound the is established far beyond the experi-

mental stage." We have thousands of letters like the following addressed to Mrs. Pinkham, showing that

Monthly Suffering is Always Cured by Lydia E. Pinkham's Vegetable **Compound**, also Backpains.

"I suffered untold agony every month and could get no relief until I tried your medicine; your letter of ad-vice and a few bottles of Lydia E. Pinkham's Vegetable Compound have made me the happiest woman alive. I shall bless you as long as I live."-MISS JOIE SAUL, Dover, Mich.

"Four years ago I had almost given ap hope of ever being well again. I was afflicted with those dreadful headache spells which would sometimes last three or four days. Also had backache, bearing-down pains, leucor-rhœa, dizziness, and terrible pains at monthly periods, confining me to my bed. After reading so many testi-monials for your medicine, I concluded to try it. I began to pick up after taking the first bottle, and have continued to gain rapidly, and now feel like a different woman. I can recommend Lydia E. Pinkham's Vegetable Compound in the highest terms to all sick women."-MISS ROSA HELDEN,

First Actual Returns for the Twelf Census Give the Statistics of the Fruit Froduced.

CRANBERRY CROP.

The first actual returns or statistic

for the twelfth census are now coming in. They relate to cranberry culture and give the acreage, tenure, quantity of fruit produced, cost of labor and fertilizers, area of new plantings, value of noted, but the reactions are of narrow crop and losses from disease, insects extent. and other natural causes for each bog or plantation.

In January, 1900, preliminary schedules relating to the cranberry yield of

1899 were sent out to all the growers whose names and addresses could be obtained. The number of commercial growers in the United States is over 2,000. They are found mainly in the element in the wheat market. states of Massachusetts, New Jersey, Maine, Connecticut, Michigan and in pig iron at some markets, but less Wisconsin, but Minnesota, Oregon, at others, and prices of that product Rhode Island, Washington and New are quite steady. York reported bogs. The number in Michigan and Wisconsin is on the indicating heavy building operations the crease despite a temporary set-back by coming spring and summer. Foreign

forest fires. The growers are well organized, the national association having its headquarters at Trenton, New Jersey, and local organizations existing in Massachusetts and possibly elsewhere.

Annual "Pom Pom."

The Indians residing along the river near Toppenish, a short distance from the West. North Yakima, Wash., are having their ago, and 220 in 1899. epees are used for this occason, and the inmates spend the time in singing, dancing, feasting and making merry. They began last week, while the snow was on the ground, to give a Chinook dance, as their ponies were getting marked, Canadian factories running to poor, and the indications were winter had set in, but a sudden change in the temperature made also a change in 35 last week, and 39 in this week a grace?-United Presbyterian. the dance programme, and the "pom year ago. pom" or "grass dance" was instituted.

This peculiar dance is observed in the same manner as Chinese new year, and lasts a week or ten days. The Indians array themselves in gorgeous costumes and congregate at different tepees, where a general feast is prepared. is the season for making new friends, and old animosities are buried. The tribe as a whole has ceased to observe this sacred annual festival, the educated members thinking it beneath their nche and Bearing-down notice, but the isolated members continue to dance every spring when the winter is over and grass begins to show on the range.
