## Facts Women

Any article, whatever its merit, must be made known to the public by means of advertising. Advertising, however, though it can do much for a thing, cannot do everything. It may create a sale for a time, but in order to insure a lasting demand the thing advertised must have solid worth.

This is the case with Lydia E. Pinkham's Vegetable Compound. It has solid worth.

Women everywhere have learned

Women everywhere have learned this fact, and the result is that there is a lasting and absolutely unequaled demand for it. It has the largest sale of any remedy for female ills in the world, and this has been the case for

The reason for this is that Mrs. Pinkham claims nothing that she is not entitled to claim. She can do all that she says she can do, and her twenty years of experience make her advice invaluable. Her experience has been not only long but world-wide, and she has helped more women back to health than any one else in the world. These facts should, and do, have immense weight with all sensible women. Remember these are not wild statements but solid facts
