FOR MIDDLE-ACED WOMEN.

Two Letters from Women Helped Through the "Change of Life" by Lydia E. Pink-ham's Vegetable Compound.

" DEAR MRS. PINKHAM :- When ! first wrote to you I was in a very bad condition. I was passing through the change of life, and the doctors said I had bladder and liver trouble. I had saffered for nine years. Doctors failed to do me any good. Since I have taken Lydis E. Pinkham's Vegetable Compound, my health has improved very much. I will gladly recommend your medicine to others and am sure that it will prove as great a blessing to them as it has to me."--MRS. GEO. H. JUNE, 901 DeKalb Ave., Brooklyn, N. Y.

Relief Came Promptly

"DEAR MRS. PINKHAM :- I had been under treatment with the doctors for four years, and seemed to get no better. I thought I would try your medicine. My trouble was change of life, and I must say that I never had anything help me so much as Lydia E. Pink ham's Vegetable Compound. Relief came almost immediately. I have better health now than I ever had. I feel like a new woman, perfectly strong. I give Lydia E. Pinkham's Compound all the credit, and would not do without her medicine for anything. I have recommended it to several of my friends. There is no need of women suffering so much for Mrs. Pinkham's remedies are a sure Jure." -- MAHALA BUTLER, Bridgewater, Ill.

ACRED OF THE SOLDIERS WHO FELL IN 861-5 Since the close of the war with Spain Memorial day has assumed a new sig-

nificance. The dead of two wars are horored, and the real meaning of the day is brought home to the later generation as it never has been before. The haziness that time gives to memories of those who have gone to their last resting place is brushed aside and the real import of the day stands out with more distinctness. One day in the year may well be given over entirely to honoring our soldier dead. It is not too much. They gave up their lives some to hold the country undivided and some to relieve a down-trodden people at the threshold of our republic. owe them a debt of gratitude that we never can repay, whether they fought in the civil war or the war with Spain. Their devotion and their courage entitle them to the grateful remembrance we show, and the recent additions to their number make the real significance of the exercises more distinct.

Had a Sense of Humor

A sense of humor is a great thing in helping a man over a hard place, and the Biddeford Record thinks one of that city's rumsellers must be possessed of the aid of this cheerfulness. It was just after the big seizure of liquors the other day that a man who didn't know of the raid stepped up to the dismantled bar and asked for a drink. The proprietor looked at the man for a second and then spreading his arms out on the bar, said, as pleasantly as he could under the circumstances: "I'm very sorry, but I have just let the last of my stock of beer go."

PARIS IN 1900.

For the benefit of those who intend visiting Paris during the exposition, the Rio Grande Western railway has gotten out an attractive folder illustrative and descriptive of the main leatures of the exposition. It contains some valuable hints for intending visitors and descriptive articles upon Place de La Concorde, Arc de Triumphs, the Madeleine, the Column of July, the Trocadero, Hotel de Ville, Column Vendome, the Louvre, the Grand opera house, the Bourse and the tomb of Napoleon, in addition to a bird's eye view of the exposition grounds. The folder, or pamphlet, is gotten out in handy form, and is written in a pleasant and attractive style. It, in fact, gives in little space everything one going to the exposition would like to know before starting on his journey.

he offers to every woman who will write to him her symptoms and a history of her trouble, free advice and treatment. The medicines he prescribes can be

obtained at any drug store, and the cost is within the reach of any woman. He describes minutely and carefully just what she shall do and get to make a healthy, robust woman of herself.

The doctor has written a book especfally for this class of women, entitled "Health and Beauty." This book contains many facts of interest to women, and will be sent free to any address by Dr. Hartman, Columbus, O.

Stones as Diet.

Crocodiles, like ostriches, swallow pebbles and small stones, which serve the purpose of grinding their food. The natives assert that it is possible to tell the age of a crocodile by the number of stones in its stomach. for they swallow one each year. In point of fact fifteen stores have been found in the stomach of a crocodile twelve feet long. whereas the average number for younger ones vary between four and eight. So says Mr. Voltkow, who has been
