J. F. Goeller's planing mill and factory at this place is now busy getting out a fine quantity of finished work to be used in the attractive front, cornices, windows, doors, etc., of the new Methodist church. Mr. Goeller is also making a stylish assortment of furniture for various customers. His factory is a busy place, and good work and a big lot of it is being turned out by skillful workmen.

While there can be little doubt of this state giving a big majority for McKinley and Roosevelt, yet it would seem like old times if this town would have a big republican rally some evening in the near future, and have speeches and the Klamath band and a patriotic torchlight procession to enliven the scene. It might not add many votes, but it would give much pleasure to hurray for McKinley and Roosevelt.

See the new advertisement of new goods of I. A. Duffy, the "untiring and sleepless." His store is full to the top with an infinite variety of attractive and desirable goods, which are especially adapted to this time of the year. The honored and reliable mercantile firm of Alex. Martin & Co. made some changes last week. No change was made in the ownership and business of the bank, which will remain the same as before. Under the new arrangement, the fine business heretofore enjoyed by the bank and store will without doubt continue to grow and prosper.

A. Turner, whose prosperous fatch is situated four miles southeast of here, brought us six mammoth apples on Saturday. The six weighed four pounds. On his ranch he has fifty trees of that variety and altogether 200 apple trees, all of which are in a healthy and bearing condition. The frost this year cut the size of the crop shorter than usual, but still he has a big yield. The samples we have would be hard to beat or even equal in a far more pretentious fruit country than this.

About two weeks ago we copied an article from the Siskiyou News, which stated that J. D. Dervan of Merrill, Ore., had advertised for a wife and that in consequence of it they had been recently married at Yreka, etc. We have just received a letter from Mr. Dervan stating that the report is not correct. He states that he did not advertise as reported, and that he has known his wife for the past eight years. Also instead of being married in the Franco-American parlors, as stated by the News, he was married in St. Joseph's Catholic church by the Rev. Father O'Meara. We accordingly take pleasure in correcting the report.

C. N. Scott, of Portland, tells the Oregonian that the work of constructing the two main canals of the Deschutes Consolidated Irrigation Company will begin at once. Under this system 125,000 acres of land known as "desert" will be reclaimed. The company putting in this irrigation system does not desire to obtain consent of the land benefited, and, as the land is mostly in the hands of the

government yet, there is ample room for both rich and poor to acquire title to it under homestead or desert land acts. Mr. Scott says the construction of the Oregon Midland to Klamath Falls will give this section an outlet to the south, while the Dalles Southern, soon to be built up the Deschutes toward Lakeview, will skirt along its eastern border. "I look for a heavy addition to the population of Crook, Klamath and Lake counties as a result of the successful termination of this irrigation scheme," says Mr. Scott.—Lakeview Examiner.

A BOARD OF TRADE.

A number of the prominent business men of Klamath Falls and vicinity have suggested that in view of the many inquiries relating to this region now being made from abroad, it would be wise on the part of the citizens to appoint a "Board of Trade," the duty of which will be to furnish information to inquirers, to promote the growth and prosperity of the town and county, and to encourage all new enterprises and business which will be of benefit. This is a wise suggestion. A board of trade, composed of careful and progressive business men, will be of the utmost value here, as well as to thousands of enterprising men elsewhere, who are now eagerly seeking information concerning the remarkable advantages and business inducements which this region offers them. Klamath Falls has by its natural advantages been placed near the head of the procession, and with the necessary energy and judicious management, it can stay at the head and become one of the best cities in Oregon. All that is required is harmony in action, encouragement of beneficial enterprises, mutual confidence and the forgetting of those petty feuds which all towns are liable to. Then with all shoulders under the wheel, the future is assured. And a good first step is to start a board of trade.

NEW DEAL AT THE OLD STORE.

Alex. Martin & Co. having retired from the mercantile business at the "brick store," disposing of their interests to E. R. Reames, for years a partner in the concern, and F. W. Jennings, these gentlemen will continue the business on a more modern and extensive scale than ever before. Mr. Reames is now in San Francisco purchasing a full line of fall and winter goods, consisting particularly of late styles in dress and fancy goods; also a complete stock of boots and shoes, men's furnishings, groceries,

etc., which will be sold at popular prices. To be convinced, call and get their figures.

A DIME SOCIABLE.

The ladies of the Presbyterian church will give a sociable at the manse next Tuesday evening, September 18th, to which all are cordially invited. A short program, social games and a lunch will be features of the evening. COMMITTEE.

NOTICE TO FILERS.

Parties in the Lakeview land district who made filings, final proofs or were interested in contests where decision had not been rendered between the 1st and 22nd day of May, 1900, are advised that their filings or final proofs should be duplicated at once; and such proceedings should be taken in the contests as would be deemed advisable by the parties interested. This advice is given on account of the records of the land office for the month of May being destroyed in the fire of May 22.—Lakeview Examiner.
