"Galveston, Texas, Sept. 14 .- To Charles S. Diehl, General Manager the Associated Press, Chicago: A summary of the conditions prevailing at Salveston is more than human intellect can master. Briefly stated, the dam

age to property is anywhere between \$15,000,000 and \$20,000,000. The loss of life cannot be computed. All is simple guess work. Those buried in the sea and ground will foot up a horrible total of at least 3,000. Many estimate the loss on the island, in the city of Galveston and the immediate surrounding districts between 4,000 and 5,000 deaths. I do not make this statement in fright or excitement. The whole story will never be told. The necessities of thse living are pressing. Not a single individual escaped property loss. The property on the island is half swept out of existence.
