Eruptions

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and in the interview of the left.

Election Practices in India. Revelations made recently regarding Bombay municipal elections show that Hindoo election agents can excel the wildest achievements in Europe or America. " It is discovered to be a common practice to dress up lads to impersonate female ratepayers who are either dead or are reluctant to vote. In many other cases women are bired to represent such voters. Personation by men of male voters who are dead or traveling is too common to excite remark. The most amazing discovery is that there is now a class of men who call themselves "professional votebrokers" and openly undertake to secure votes at a fixed price a head .-Bombay letter.
