A WORD TO CROAKERS.

Klamath county needs more settlers to developits resources and make it grow and prosper as it should, and will, when there are more here to Mills just received by C. H. Withrow Falls, Ore.; S. B. Low, of Klamath Falls, plan and work. People who come the "AermotorMan" here to look at the country and see new it will suit them as a future aged by falsehoods. If this country is occasionally liable, as are all countries, to a frost, it is hardly the thing A. L. Spafford, Chester, Mich. to tell homeseekers that this is the worst frost-ridden country in the world and that only at long intervals can a crop be raised. Residents who are so ready and glib in denouncing and ear marks published in our Stock of Ashland, County of Jackson, State of their own country, generally forget to mention the immense fields of als same to Fred Pope, Merrill, Klamath falfa which make this, as a stock county, or address New Era, Alturas, growing region, superior to any on Cal. about once in ten years is there any Nor do they tell that Klamath countop of the market at San Francisco and Portland. Nor that in the line of vegetables, it is no exaggeration to say that as to size, excellence and quantity, they equal and generally They also forget to mention that the plow; two 12-inch plows. Enquire of excel anything of the kind elsewhere. fruit is first class, and in the matter of apples, especially, no part of the state is more favored.

All these facts are generally forgotten by those who, for what reason only God knows, glibly retail a gloomy twaddle about the disadvantages of the country. That such croakers, in their efforts to belittle their own country, are doing harm there is no doubt. Strangers are influenced and sometimes of late have been driven out by such reports.

every man of good judgment will say after cateful investigation, there is, everything considered, no better country in the world. It has the best of land, nearly all of which will pliance with the provisions of the act of congress of June 3, 1878, entitled "An act for the sale of timber lands in the Its crops are grand and generally states of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States trowning glory of every market they by act of August 4, 1892, Philo Hull, feach. It is a fact which official figures demonstrate that few counties in this office his sworn statement, No. can boast the wealth of Klamath in 300, for the purchase of the E1/4 of SW1/4 proportion to the number of inhabitants. If this is a God-forsaken, povand will offer proof to show that the erty-stricken country of worthless resources, how is it that the people are really so prosperous, excepting perhaps the croakers, who, so busy in giving their country the black eye, have little time to devote to betterSmith, of Hornbrook, Calif; Henry I. ing their own condition.

GOLD, OIL, COPPER.

There seems to be a general notion that Klamath ecunty has neither gold, nor oil, nor copper, nor in fact any other valuable metal. Perhaps it has not, but we are told that no sufficient effort has yet been made to find them. Here is an unexplored field which geologists and experts would be wise to investigate. A few pliance with the provisions of the act of Congress of June 3, 1878, entitled "An weeks' time by a competent expert act for the sale of timber lands in the might reveal untold wealth. At all events it would be well to see about it, and it would cost little and might pay big. Why not organize a company to chip in and have the mountains and valleys explored. If the explorers are not rewarded by an oil well, perhaps they will find artesian that the land sought is more valuable
