

Scrofula

Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood.

It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh, and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling.

It is best to be sure that you are quite free from it, and for its complete eradication you can rely on

Slow Healing Sores

With rich, pure, strong blood one is never troubled with sores or ulcers. A cut or any injury to the flesh heals in a few days, nature supplying the healing circulation is tainted with poisonous germs, humors or any effete matter, a slight scratch or abrasion of the skin becomes a festering sore, tiny pimples grow to be boils, sores. A polluted blood is always a menace to health; not only does it keep the skin in a chronic state of inflammation, but every organ and fibre of the body suffers from an impure and sluggish circulation. You never feel well, you are not and never can be well until the system is relieved of its terrible load of impurities. With the blood so contaminated, so deeply poisoned, ulcers, boils and sores of every kind are apt to become chronic and often develop into Cancer.

Sores and ulcers are most often caused by poverty of the blood and a weak and slow circulation, brought on by long continued sickness, malaria, poisoning, torpid liver, the use of mercury, or whatever is calculated to destroy the vitality of the blood and break down the constitution. These old chronic sores last sometimes for years, eating into the flesh, muscles, tissues, and even down into the bones, and are such a tax upon the system that it is hard for the patient to recuperate, and a simple malady often proven fatal.

Nothing so quickly or surely restores lost strength and vitality to the blood as S. S. S. It is an antidote for the severest forms of Blood Poison, as well as the irritating humors that cause the eruptions and sores that sap your very life and so greatly disfigure you. S. S. S. is the only guaranteed purely vegetable blood purifier. It contains no mercury, potash, arsenic or other hurtful drug. It cleanses the blood and purifies the circulation, thus ridding the system of the impurities that keep the sores feverish and painful. At the same time your general health improves under the tonic effects of S. S. S., and the skin becomes soft, smooth and healthy. If you are troubled with boils, carbuncles, sores or eruptions of any sort, write our physicians all about your case; don't risk your own judgment when you can get medical advice from experienced doctors free. Book on Blood and Skin Diseases to all who desire it.

Box 245.

I became afflicted with a severe sore leg and from the knee to the foot was one solid sore, which was very offensive. I spent over \$1,000 on two trips to Hot Springs, and local physicians treated me to no purpose. I had about decided to have my leg amputated, when a friend induced me to try S. S. S. I began to take your medicine, and in the short space of seven months it has completely and thoroughly cured me. My leg is a witness today as to what S. S. S. will do when taken regularly. The sore has healed entirely and my health has improved wonderfully. I have already gained 50 pounds.
