A great many big loads of lumber are now being hauled every day from R. S. Moore's mill. This indicates that the spirit of building and improvement is abroad in this town and the country around, and that without doubt a building boom of much larger proportions than usual is to soon be on hand.

It appears that the question of a high school is strongly advocated in the affirmative by a large majority of the people of the county. A county high school is exactly what is needed, and there can be but little or no doubt that under the wise conclusions of the citizens, such school will be duly provided for.

Business of the county officials at the court house is progressing and prospering as usual this week in spite of Manila itch or any other scares. The statement in the Record last week that work will commence on the 14th, will, it is to be hoped, prove true. Indeed, the statement is corroborated in a great measure by reports from other sources. Judge Willits' new house on Main street is rapidly moving toward completion and will soon be finished. It will be a very pleasant residence and will attractively add to the good looks of the street. If reports that reach here are to be relied upon the Siskiyou county corner's jury in the inquest on the remains of Brakeman Newby, who was shot twice and killed in alleged self-defense by Conductor Wm. Page, at McCloud last Thursday, were rather hasty in their conclusion in exonerating Page from responsibility for the deed and discharging him from custody. It is said he left the locality at once and since then the authorities have concluded to investigate the killing of the brakeman further. While the two men have been quarreling between themselves, Page is said to have had a very ugly and provoking disposition and as a conductor working under him to get along with C. C. Newby, the brakeman who was killed by Page, came to the McCloud River R. R. from Florida, and has relatives in Macon, Ga. He was a member of the A. O. U. W. in Arkansas. It is now asserted that he had no weapon on him at the time he was shot down and killed by Page. Latest reports from Yreka show that Page has not been rearrested and is still at large, his whereabouts being unknown.

KLAMATHON KLAMATH FALLS RAILROAD.

(Ashland Record.)

The most important railroad enterprise since the building of the S. P. railroad through this country will begin two weeks from today, on Nov. 14, being the commencement of work on the Sugar Pine Lumber Company's railroad from a point two miles south of Klamath station to the timber land holdings of the same company at Pokegama, Or., a distance of 30 miles by the route.

All the preliminaries are now complete and the work of construction under the company's own management to be superintended by competent railroad builders will begin Nov. 14 and will be prosecuted vigorously and by next July or sooner the cars will be running and carrying logs, passengers and freight.

It will be a standard gauge road with 60-lb. rails. The cost of construction will be \$20,000 per mile. There will be only one bridge which will span the Klamath river about two miles from Jenny creek. The grade will be 6.5 as we understand it. The end of the present construction is in the heart of the company's 70,000 acres of timber land holdings and will also bring the road over the high grades into the Klamath basin land and will allow them to make Pokegama the freight shipping point for Klamath county and a wide range of eastern Oregon. As a starter and

The Sugar Pine Lumber Company's lease on the sawmill, river franchise, etc., at Klamath expires in two years and before that time the old property will likely have lost considerable of its value. The Sugar Pine Co. have secured 1500 acres of land two miles south of Klamath and will erect thereon an immense two set sawmill and will manufacture lumber of all kinds, sash, doors, boxing, etc., making one of the most up-to-date outfits on the coast. They will lay out a town site and establish a small city at that place.

NOTICE TO THE PUBLIC.

I would respectfully notify the public that on account of the appearance of smallpox in the country I have placed the entire Klamath reservation under quarantine restrictions. I would ask all people outside the reservation lines to remain off the reservation for the present. A measure of this kind to be effective must be as nearly complete as possible. All persons who are within the lines will be required to remain until the danger is regarded as fully past and official notice is given to that effect.
