As a n 1883. The work is edited by Mme. matter of fact Herne had not produced Margarethe von Poschinger and trans- a real substantial success in some lated from the German by Miss Frances years previous to that time, although

'The Minute Men,' 'Margaret Fleming' and 'Drifting Apart' had met with favorable attention in many citles.

"There didn't seem to be any drawing power in the name "The Hawthornes,' and the title of the plece was changed to 'Shore Acres Subdivision.' The change didn't seem to have any effect upon the attendance while the piece remained on view in Chicago, at a world's famous author. It is said any rate, and it was decided to make another shift in title before the play was presented in Boston. In that city, under the name of 'Shore Acres,' Mr. Herne's play made the greatest hit of the year. It came back to Chlcago and was accepted at the value placed on the

play in Boston and New York. 'Hearts of Oak,' which has always been credited jointly to James A. Herne and David Belasco, was originally presented under the title of "The Mariner's Compass.' 'Hearts of Oak' was not presented in this country until 1878, at Hamlin's Theater in Chicago, but the play called 'The Mariner's Compass,' which was tried in England several years before without attracting any great amount of attention, had all of the scenes and incidents which made 'Hearts of Oak' one of the greatest drawing cards among the tear-compelling dramas of the past two decades.

"'Hearts of Oak' is really a felicitous title. It suggests a whole lot. But what does 'The Mariner's Compass' telling nothing; of saying nothing and suggest? A storm at sea or something of the sort, and we have many storms

#### Snow Fireplaces.

Sixty degrees below zero is the frightfully cold atmosphere in which Alaskan gold munters must often work. They make fireplaces of snow in that desolate region. The snow is pressed into blocks like bricks and a fireplace two or three feet square is built with them. When the fire is lighted the snow, of course, melts on the surface; but when the fire is out this freezes so hard that the next fire causes it to become only damp. A snow fireplace used only for cooking purposes will last for

an entire winter.
