# Difficult Digestion TEACHING A SCHOOL.

That is dyspepsia. It makes life miserable,

Its sufferers eat not because they want to,

-but simply because they must. They know they are irritable and fretful;

but they cannot be otherwise. They complain of a bad taste in the mouth, a tenderness at the pit of the stom-

ach, an uneasy feeling of puffy fulness, headache, heartburn and what not. The effectual remedy, proved by perma-nent cures of thousands of severe cases, is

BINDING TWINE. BUYING

# The Following Points Should be Kept

Beware of unscrupulous dealers who misrepresent the quality of this important article. The best material for Binding Twine

is pure Manila fibre. The poorest ma-terial for Binding Twine is Sizal fibre. The best Binding Twine is Pure Manila, selected fibre, 650 feet to the pound. The next grade is made partly of Pure Manila fibre and runs 600 feet to the pound.

Twine made of Sisal fibre cannot be spun longer than 500 feet to the pound with proper strength and evenness.

The great question is how many bundles can you bind with one dollar's worth of Twine? Notice the length, per pound and figure how many feet of Twine you get for a dollar. The mixed fibre twine is 20 per cent longer than the Sisal grades. The Pure Manila Twine is 30 per cent fonger. It is a simple problem in arithmetic. Use a little "horse sonse" and you cannot

fail to decide right.

respect.

Standard Twine is Sisal Twine, colored or dyed to imitate Manila, and is J. C. A YER C same length to the pound as Siral, in

the same strength and same price at all factories where it is made. Some Patent Had Expired. Lou Field met Gus Rodgers on g dealers are selling it for a better grade Rialto a few days ago.
