THURSDAY, JANUARY 8, 1903.

The Pacific cable has been completed to Honolulu and by next July will be finished to Manila. This is an important and valuable enterprise on the part of the United States.

The New Year's Oregonian was a big edition, replete with information concerning the resources, development and prospects of the state, and containing a generous lot of interesting and attractive illustrations. The Oregonian is easily the best paper in the West. Comparison is necessary to impress that fact. Hence, people should not only take that paper, but to fully appreciate its comprehensive scope and superior ability ought to be the recipients of one or two other daily publications—not to peruse, but to squint at occasionally for comparison.

The writer had the pleasure of visiting some near relatives in Ashland during the past few months. Ashland is a fine place and has many excellent people, and hence is home-like and enjoyable. We conclude, however, that a visit to Ashland during this season of the year is not so conducive to enjoyment as it would be in the summer. Then the great orchards of peaches and other fruit, which are seen on every hand, render life a continual round of feasting and pleasure, and the clear skies and genial climate continually smile a cordial welcome to visitors. But when winter comes there is a most unhappy change in the weather program. Then the luscious fruits and the beauty of the vines and flowers have disappeared before the cold embraces of the frost. The Italian skies and the brilliance of the sun are obscured by clouds and fog. The cold there is a few degrees less than it is at Klamath Falls, but the cold from Ashland's terrible, black fogs and icy rains is far less agreeable and healthy than anything which we see here, east of the mountains. Here, at Klamath Falls, a month's accumulated fogs and rains will be overshadowed and duplicated at Ashland in a single day. Here bright sunshine and clear skies are the rule, while at Ashland the reverse is too often the case. True it is, indeed, that they have ideal summers at Ashland and an ideal place to live, but in the winter its romantic beauty no longer exists, save in the memory of the worthy but shivering people.

DICK SMITH HONORED.

It will be good news to the friends of Dick Smith at this place, where he used to live, to know that he has been elected captain of the Columbia University football team for next season. The report adds: Smith is a graduate of the University of Oregon, and is known throughout the Pacific Northwest as an athlete of more than usual ability. He played tackle and half-back on the Oregon eleven for several years, and was also a member of the university track team. He established a number of college records, which still stand at Eugene, and his Northwest intercollegiate record for the 16-pound hammer throw will probably go unbroken for some years, as Smith hurled the massive weight 127 feet, 9 1/2 inches. Smith left an excellent student record at the state 'Varsity, where he won several scholarships and oratorical prizes. He entered the law department of Columbia in 1901, and has played halfback on the 'Varsity eleven during the past two seasons. In line-bucking, Smith is considered the peer of Weeks, the famous Columbia halfback, who has been chosen for the All-American eleven.

THE KLAMATH RAILROAD.

(Ashland Record.)

The grading of the Klamath Lake railroad has been completed out 18 miles from Lairds to a point on the summit, that is, on the Cascade plateau and beyond all the heavy grades. It is just in the edge of the timber belt. The cars are now running from Lairds to Fall Creek, a distance of 12 miles. Work is being pushed on two trestles, one of 800 feet over Fall Creek and another of 250 feet over an adjoining gulch.

As soon as these are finished the construction force will resume laying rails and expect to be able to run the cars to the 18 mile point by February 1st. It is expected that the entire road will be completed to Pokeyama within three months which is distant from Lairds about 28 miles.

The construction crews number in all over 600 men and more men are being added to the force daily. These laborers are chiefly Greeks, Italians, Turks, Hungarians, Chinese and a few Mexicans.

The bridge crew is unique in its aristocratic exclusiveness as being all white men and numbering about 40.

The Chinese are paid \$1.35 per day, Italians and white men \$2 and the Greeks and other aliens named, \$1.60. They pay the company \$18 per month for board. Pay day comes on the 25th of each month.

The road is standard gauge and 55lb. steel rails are used.

MARRIED: Mr. Geo. Noble and Miss Nova Casey were married today by Rev. F. Farrar.

Lost or stolen, a dark bay gelding, about 4 years old, white star in forehead, branded T. O. on left hip, weight about 1050 pounds. Last seen in the possession of John Bateman, on the Gen'l Miller ranch. I will pay a liberal reward for the return of the horse, or \$200 for evidence sufficient to convict the thief.

Klamath Falls, Or., January 5, 1903. JAMES TOBIN.

Mrs. Johanna Soderholm, of Ferguson Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by Chitwood & Co.
