The Dangerous Blue Eye.

My observation has been that most of the bad men of the border were blueeyed. A man with a soft blue eye will always be selected by a bully as a victim in preference to these snapping black, brown or cold gray eyes. On the average, men possess about the same amount of courage, and when the blueeyed man has been imposed on sufficiently he resents it; one combat precipitates another, till he gets up a reputation which he feels he must live up to.
