An incendiary fire on Wednesday of last week destroyed 600 tons of hay on the Dorris ranch at lower end of Klamath lake and owned by J. Churchill of Yreka. This will add to the burden of keeping a large amount of cattle in that section which is already short of hay.

Uriah Gorden, one of the early settlers of Jackson county, died at his ranch in Plouince Rock precinct, in the upper Rogue river section, Thanksgiving day, aged 74 years. A message was received here by Mr. Shive requested him to notify two sons of the deceased who reside near Fort Klamath.

Griffith Bros. came down the Lake Saturday with a boom of 500 logs for C. S. & R. S. Moore. The logs were cut on the Upper Lake and will scale about 200,000 feet. A. Myers and wife left this morning for their home in Oakland, Cal. Mr. Myers is the superintendent in charge of the dredger work on the Adams ditch. He says that they have completed a canal 30 feet wide by 6 feet deep through the tules from the Lower Klamath lake to White lake and that there is now plenty of water in the latter lake, where it has always been dry at this time of the year. The ranchers will not need to worry about water next year as there will be plenty for all. Mr. Myers claims that it is now possible for small boats to run from here to Merrill and on into Tule lake.

E. S. Phillips has sold 169 acres of his Lost River ranch to John G. Stevenson for \$20 an acre. Mr. Stevenson, who is ex-county school superintendent of Lane county, has been here the greater part of the summer looking for an alfalfa ranch. While he has seen many that has suited him the owners of ranches with a good stand of alfalfa were not over anxious to dispose of same. At last, however, he secured 169 acres near the Phillips ranch on Lost river and has just recently closed the deal with Mr. Phillips for 169 acres more. This gives him a good ranch of over 300 acres which he will put into alfalfa and grain next year.

On Monday the State Land Board decided the contest over 7000 acres of unsurveyed swamp land near Upper Klamath Lake, by awarding to Senator A. C. Marsters and associates all the land for which they have applied and upon which there is no contesting application, but all the other swamp lands in the tract will be advertised for sale and sold to the highest bidder. This decision permits the Marsters people to purchase about 4600 acres of swamp land at \$1 an acre, while the remaining 2400 acres will be sold at auction. As the land is not surveyed the state has not acquired complete title and all purchasers will be required to waive all claim to recover the purchase price if the title should fail. The board also made a rule today to the effect that hereafter when application is made for the purchase of unsurveyed swamp land and there is no contest, the board will take its own means of ascertaining the value and the price at which it will be sold, but where there is a contest the land will be sold to the highest bidder. The contestants in this case were J. D. Carr and others, of Klamath County.
