A Fruitless Quest.

"Could you do something for a poor old sailor?" asked a wanderer at the rear door of a Germantown house one morning this week. "Poor old sailor?" echoed the housewife, who had opened the door. "Yes'm, I followed the water for twenty years." "Well," said the lady, as she slammed the door in the face of her visitor, "all I've got to say is you certainly don't look as though you had ever caught it."

Grave Opened by Tree.

In the Gartenkirchhof, Hanover, is a grave covered by a mighty stone, on which an inscription appears to the effect that the grave should never be opened by human hands. The seed of a birch fell through a crack in the stone, and, developing to a large tree, opened the grave in its upward growth. The tree has now withered and decayed. When it is removed the grave will again be closed.

The readers of this paper will be pleased to marn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional dis-case, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the founda-tion of the disease, and giving the patient trength by building up the constitution and assisting nature in doing its work. The pro-prietors have so much faith in its curative powers, that they offer One Hundred Dollars or any case that if fails to cure. Send for list of testimonials. Address F. J.
