Of course war is "inevitable" in the far east, but somehow or other the blamed thing seems to be on a side-track.

The statesman who opposes digging the Panamcanal will soon be able to see his finish without the aid of a telescope.

A gentleman in Switzerland claims that he has invented an electrical contrivance that will kill off an army at one single shock. Here's a chance for Columbia to lick Uncle Sam.

Those who opposed the purchase of Alaska in 1867 were firmly of the opinion that we were putting our money into a dreary waste of land, from which the government would never receive a dollar in return. The country to-day is one of our richest possessions.

The Exposition Transportation Company, of St. Paul, have published an artistically illustrated booklet outlining a trip on steamboats via the Mississippi River to the Louisiana Purchase Exposition next summer. The project is as attractive as it is unique for it contemplates the use of the steamboats as floating hotels during the tourist's stay in St. Louis. There are other features of the trip which will doubtless appeal strongly to the majority of the World's Fair visitors, many of whom are already making their reservations.

War news from the east works in two ways. A probability of war unsettled financial affairs, but at the same time it has an excellent effect on almost all of America's leading products. Wheat, corn, cotton, and provisions are sensitive when war is rumored and always strong in price,

and the effect was palpable during the week. But a war in the Orient is not at all certain. The truth is both nations halt because the great sinew of war, money, is not in abundance in either treasury. Russia has a big gold reserve, but on it is resting millions upon millions of paper. Take away the gold and the paper sinks rapidly in value and every business experiences trouble. There may be war, of course, but it is far from certainty at this time.

According to the Washington Post already thousands of theorists and doctrinaires in all parts of the country are agitating governmental control of public utilities. We are asked to advocate the absorption of railway, telegraph, banking, and other facilities involving, of course, the creation of a countless swarm of salaried officials and leading up to a condition under which the public functionary will be the rule and the private citizen the exception. By a very slight projection of the theory thus far developed we shall have the government in charge of our marketing, our fuel, our weekly wash, our diet, our drink, our theology, and our moral and intellectual codes. Individuality will be abolished; personal merit becomes a thing of no account; from our theology down to the cut of our trousers and the management of our families, the whole power and responsibility and discretion will pass to the government.

SHEEP SLAUGHTERED.

Nearly 3000 Sheep Shot and Clubbed to Death in Lake County.

The following report comes from Silver Lake. The herder for the McKune sheep came in from the sheep camp near Christmas Lake Wednesday bringing the startling news that the camp had been visited by five masked men the night before and the larger part of the band of sheep were slaughtered.

The five masked men were all heavily armed and proceeded to do their work in a deliberate way. The herder was first taken care of and while one man guarded him the other four proceeded with their part of the work.

The sheep had been corralled for the night and were easy to get at. They took the night for their work, using knives, clubs and guns in the wholesale slaughter. With the approach of day they took their departure with the parting injunction that other sheep using that range would be treated in a similar manner unless they were moved soon.

They had done their work well and only a small remnant of a band of over 3000 sheep were left. Upon receipt of the news Guy McKune came to this place and telephoned Sheriff Dunlap who will make thorough investigation of the affair.

While only a meagre account of the killing can be had at this time enough has been learned that the killing was done by five masked men and certain parties are suspected and startling disclosures are expected to take place in the near future.

The cause for the killing is attributed to the fact that the sheep were on range used by cattlemen.

While the amount of sheep reported killed may be over estimated it is a hard loss to Mr. McKune and he will leave nothing undone to hunt down the parties who done the killing.

WHEN YOU HAVE A COLD.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectation, and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by C. C. Chitwood.

If Your Eyes are Weak and Sight Poor Use Castain's Glasses and Eye Wash

TESTIMONIAL.

Ashland, Oregon, Jan 28, 1904. Dear Doctor—I felt that my eyesight in my left eye was about gone when I consulted you about my eyes. I am now glad to say that I am benefited wonderfully. My eyesight is better than ever before and I am not troubled with headaches as I was. The glasses are restful and easy to my eyes. Yours Truly, Walter Moreland.

Castain's Eye Wash cures Granulated Lids, Weak, Watery and Inflamed Eyes, Strained and Tired Eyes For child or adults, by mail 50 cents. Address Dr. J. E. CASTAIN, Oregon Institute of Optometry, Ashland, Oregon. Consultation Free.
