### NOT WHAT IT USED TO BE.

Traffic on the Mississippi Has Experienced a Decline in Recent Years. The best days of the Mississippl River traffic are long since past, and tendance in Paddington, a district of the scenes that once endeared that London having a population of 142 000, stream have apparently gone never to made by agents of W. T. Stead on a re-return.

The best year for steamboat business on the Mississippi is said to have been the one immediately before the outbreak of the Civil War, says Mr. Chittenden in the World To-day. During that conflict, until the North gained control of the river, commercial boating below the mouth of the Ohlo was broken up entirely. On the Missouri a new source of business sprang The ladies of the club were closely up in the early years of the war by grouped about the speaker of the aft- the discovery of gold at the headwaters of that stream. Then began an, in whom commercial and literary that most remarkable episode in the history of river navigation, the sending of cargoes from St. Louis to the successful," said one of the ladies, in- base of the Rocky Mountains, more than 2,000 miles distant and haif a mile vertically upward.

Long before the steamboat business own business as we do of the things had reached its maximum the forces which were to accomplish its ruin had begun to operate. The beginning of practical railroading followed many years after that of steamboating, but when it once got well under way its progress and development rapidly outstripped those of its older rivals. Here was a steam engine that could go with its load anywhere. It did not have to follow water courses. It could climb mountains if they were in its The worst disease the world has ever known, and way. It could serve the inland town the greatest scourge to the human race, is Contagious as well as the river port. Its speed Blood Poison. One drop of the virus of this most was four times or more that of the horrible of all diseases will pollute and vitiate the steamboat. It was not put out of purest, healthiest blood, and within a short time after commission by the winter's ice, but the first little sore appears the system is filled with the served the public the year round. awful poison and the skin breaks out in a red rash; Clearly, the steamboat stood little the glands of the groins swell, the throat and mouth become ulcerated, show in its struggle with a rival like

and another, the boats held their own; but finally the railroads got the upper hand, and their vast development in the twenty-five years following the Civil War practically drove the steamboat business from the rivers.

After suffering twelve years from Contagious Blood Poison, and trying the best physicians obtainable, and all the patent medicines procurable, and steadily continuing to grow worse, I gave up all hope of recovery, and physicians pronounced my case incurable. Hoping against hope, I tried S. S. S. I improved from the first bottle, and after taking twelve was cured sound and The commercial interests of the country have always looked with regret upon the disappearance of the steamboat. There is a deep-rooted conviction that our rivers have some value in the commercial economy of twelve was cured sound and well, and for two years have had the country, as regulators of freight rates if nothing more, and there has been a strepuous effort to maintain active navigation. There is a hopeful belief that the future will see the tainty of the mercury and potash treatment—that it stifles but does not rivers again teeming with boats, as they do in Russia, Austria and France. But the logic of statistics is against tion. Safety lies only in crushing out the life of the loathsome disease and killing the serpent. For many years S. S. S. has been known as an antidote for Blood Poison. It is a remedy composed entirely of
