

SUPPLEMENT TO KLAMATH REPUBLICAN.

THURSDAY, AUGUST 11, 1904.

Midsummer Clearance Sale—The Brick Store.

Drink Graham & O'Neil's pure carbonated drinks.

E. R. Hanan and wife came down from Fort Klamath today.

Old Prices—Summer Dress Skirts—The Brick Store.

All services as usual next Sunday at the Presbyterian church.

Highest market price paid for chickens at the Central restaurant.

All Summer Goods at Clearance Sale—The Brick Store.

Jack Pelton, the cattle man of Ashland, was in the city Friday.

Summer Dress Patterns—Special Sale—The Brick Store.

W. H. Musselman and wife of Merrill were in the city the first of the week.

Clearance Sale Summer Dress Goods—The Brick Store.

S. E. Martin, the Merrill merchant and flour mill man, is in the city today.

Clearance Sale—Ladies Neck Novelty—The Brick Store.

Midsummer Clearance Sale, to make room for our fall and winter lines—The Brick Store.

Refrigerator Graham & O'Neil only use carbonic dioxide gas. The purest gas made.

J. A. Houston and son Leo returned Tuesday evening from an outing at Odessa.

Anything in the way of toilet articles, perfumery and fancy stationery at the City Drug Store.

Miss John S. Shook and wife of Fairly spent a few days in the city the first of the week.

I have secured the services of J. L. Schen of San Francisco, a watchmaker and jeweler of twenty years' experience.

—L. Alva Lewis.

Attorney H. W. Keesee has been appointed deputy prosecuting attorney for Klamath County.

Miss Viola Norton of Woodland, Cal., niece of Mr. and Mrs. James Sigler is visiting in the city.

The Meade Comedy Company are now at Crater Lake. They will be at the Opera House all next week.

County Superintendent J. G. Wright of Bonanza came in Tuesday to conduct the examination of teachers.

Send me your watches for repairs. A watch cannot be too complicated, or a break too difficult for my repair department.—L. Alva Lewis.

Doctors G. H. Merryman and F. M. White can be found at their new offices at the City Drug Store, day and night.

Miss O. B. Gates, Mrs. Layton and Miss Helen Gates went to Crater Lake yesterday. They were taken up by W. W. Hazen.

John R. Stills and sisters, Misses Eliza and Lillie Stills of Boulder, Colo., arrived in the city Monday and will locate here.

Mrs. G. W. Morine of Bonanza passed through the city Friday en route to Arroyo Grande, Cal., for a visit with relatives and friends.

Garrett Fish returned yesterday from Merrill where he has been looking after his ranch. He has just completed irrigating for his second crop of alfalfa.

The Meade Comedy Company will open for six nights at the Opera House with "The Fatal Wedding." This will be followed with popular plays like "Old Kentucky," "Man of Mystery," "A Jay in New York," and others.

The invitations are out for the wedding of Miss Lydia Sigler and Mr. Fred Healy Jacobson. The ceremony takes place on Wednesday, August 17, at 12 o'clock at the home of the bride's parents, Mr. and Mrs. Jas. C. Sigler.

Mrs. Anna E. Brockman and Mrs. Rosa Taylor of Bickleton, Wash., arrived in the city Tuesday on a visit to their parents, Mr. and Mrs. Jas. C. Sigler. They will remain until after the wedding of their sister, Miss Lydia Sigler.

The following teachers are taking the examination from Supt. W. G. Wright, at the Court House this week: Mrs. S. L. Burton, Anna E. Applegate, Emma Bussey, Zella Bussey, Miss Rutledge, Miss Newton, Ray Fountain, Gilbert Brown, James Maxwell and Prof. W. S. Slough.

A. C. Griffith and family, formerly of The Poplars, on Pelican Bay, have been spending a couple of weeks with their friends, Capt. A. D. Helman and wife, in Ashland. They left Saturday for Santa Rosa, Cal., where they will make their future residence.

—Ashland Tidings.

Glen McCormick, who came up from Keno to work on the tunnel was taken quite sick Monday forenoon. He had been working underground where it was damp and had come up and laid down in the sun. He was taken with chills and fever and had to be brought to town. Later he returned to his home at Keno and is getting better.

Someone has been juggling with our mail service again. The mail now gets here at 1 p.m.—12 hours later. Lakeview and other mail goes out 24 hours late.

W. F. Arant, Superintendent of Crater Lake National Park, was taken sick while at the Park last week. He came to the city Saturday, and has been confined to his bed ever since. The doctor pronounced it an acute case of eczema. It was thought necessary to send for Mrs. Arant, who had remained at the Lake. A telephone message was sent to the Fort, and a team went after her. She made the trip from the head of Anna Creek to this city in just eight hours. Mr. Arant is considerably better to-day.

M. L. VanMeter of the valley suffered a paralytic stroke last Saturday afternoon and is now in a very serious condition. Mr. VanMeter left the house with his team about 2 o'clock and not returning at night search was made. He was found in the field at 7 o'clock, lying on the ground where he had fallen. His right side was completely paralyzed. He still retained hold of one of the horses, the other had wandered away. He was carried to the house by friends and neighbors and a doctor was summoned.

The Klamath County Promotion Club held its regular meeting Monday night, at which they took in eight new members. This club is now doing good work in advertising our county. Now that they have joined the State Development League their influence will be greater. The secretary is receiving hundreds of letters of inquiry as to the resources of Klamath County and it is hoped the farmers will assist Mr. Brower and the members of the club in securing the necessary data. The matter of securing an exhibit for the Lewis and Clark Fair will be taken up by the club, and it is desired to get as fine an exhibit as possible for this and our County Fair.

WE THOUGHT DIFFERENT.

T. R. Riekey, the cattle king of Carson, says the indications are good for a stiff beef market this fall and winter. He says that cattle from the south—Southern California—are scarce and quite poor, and it looks to him as if California would draw from Nevada earlier than usual.—Inyo Independent.

RECEIVED PATENTS.

The Lakeview Herald says that the land office has received over 200 patents to cash entry during the last week. Following is a partial list of patents on Klamath county land:

James McDade, Nels Johnson, William E. Sutter, Sarah B. Dee, Leon M. DeLassus, Harris Deans, John E. Miller, James F. Adams, Katharine Neubert, Harvey L. Scott, John Gilman, Irvin T. Anderson, Henry Slover, Quin W. Anderson, Carolyn Patchin, Oscar T. Anderson, Carrie V. Lundy, Harry S. Bradley.

FISH IN CRATER LAKE.

W. F. Arant says that quantities of fish have at last been discovered in Crater Lake. Before he came down some of the boys went out in the boat and as they were leaving the shore saw several large trout coming from the deep water, and a few minutes after there were several more, and then a large beauty, about 20 inches long, swam by. On Sunday the boys went across to the Island, and the trout were quite thick there; so it has been proven that trout will live and increase in Crater Lake. Fish were first put in the Lake in '87 and several times since, but this is the first year any number have been seen in the waters.

WORK ON THE TUNNEL

The Klamath Canal Company have over fifty men now at work on their tunnel. The working tunnel will be 4000 feet long, of this 1400 feet or over one third is completed. They are now digging about 200 feet per week but this will be increased now that their pumping equipment has arrived.

They have just received twenty-five scrapers and are awaiting the plows and other tools before commencing work on the ditch. This will commence about the first of the week. They have a gasoline hoist and pump on shaft No. 6, and are setting up a steam hoist on shaft No. 7. Two more steam hoists are now on their way and are expected to arrive here in a short time.

Notice for Publication.

Land Office at Lakeview, Oregon, August 8, 1904.

Notice is hereby given that the following named settler has filed notice of her intention to make final proof in support of her claim, and that said proof will be made before Geo. Chastain, Co. Clerk of Klamath Co., at Klamath Falls, Oregon, on September 21, 1904, viz:

Laura A. Thompson, 11d entry No. 2130 for the S½NE¼, Sec 35, Twp 40 S, R 10 E W M. She names the following witnesses to prove her continuous residence upon and cultivation of said land, viz: Fred Stokel, Joe Stokel, Caleb T. Oliver of Merrill, Or., and E. M. Barnum of Klamath Falls, Or., and N. Watson, Register.

GOVERNMENT ENGINEERS MEET THE PEOPLE.

PUBLIC MEETING AT THE COURT HOUSE.

Mr. Lippincott States that the Service Will Not Obstruct Nor in Any Way Interfere With Any Legitimate Irrigation Enterprise by Private Capital.

That the people of this section are fully alive to the advantages of irrigation was proven by the large attendance at the public meeting last Saturday at the Court House, which was called for the purpose of talking over with the Government engineers the project of irrigating and reclaiming the arid and swamp lands in Southern Klamath and Northern Siskiyou counties. Judge H. L. Benson acted as presiding officer, and after stating the object of the meeting, Mr. J. B. Lippincott was asked to explain the project. Mr. Lippincott said in part as follows:

"The principal reason I am here is not to tell you what to do, but to learn from you people what your wishes are. The engineers of the Reclamation service are not to be considered as advocates. We are not soliciting you to accept any proposition from us. The object of the Reclamation law is to reclaim arid public lands, and to assist communities of land owners and the common people. In order to give you a better understanding of our system, I will tell you what we have done elsewhere.

"The Yuma project on the Lower Colorado bears a striking resemblance to the Klamath project. In the Yuma project we have an interstate navigable stream; in the Klamath project we also have an interstate navigable stream, also other interstate bodies of water. My understanding of a navigable stream is one that is navigable at any point in its course. In the Yuma project we had to get an Act of Congress to allow us to divert the waters of the Colorado river. We would probably have to do the same here. In the Yuma project there were already two systems in operation. There are two here. It is not the intent or purpose of the Government to interfere with any existing irrigation system. Consideration will be given the owners of existing canals by the Government, that in so far as the canals could be used, they would take them and pay for same. The Yuma project was a very difficult one; the estimated cost was \$35 an acre. The Klamath project is much easier and simpler and I do not believe it will cost near as much."

At the conclusion of Mr. Lippincott's speech, Mr. A. P. Davis, assistant principal engineer of the Reclamation service, was called upon. He explained the objects of the Reclamation Act, and drew attention to the fact that, "No right to the use of water for land in private ownership shall be sold for a tract exceeding 160 acres to any one landowner, and no such sale shall be made to any landowner unless he be an actual bona-fide resident of such land, or occupant thereof residing in the neighborhood of said land."

Mr. Davis then read the policy outlined by the officials, which is as follows:

"The service will not obstruct nor in any way interfere with any legitimate enterprise for the construction of irrigation works by private or corporate capital, but on the contrary will lend every legal encouragement to such construction.

"The service will, if possible, however, protect the reservoir sites and other essential portions of a comprehensive project from seizure by speculators to the detriment of irrigation development.

"Where withdrawals have been made and investigations begun, and private parties ask the service to stand aside, for their benefit, they must be able to show that they are contractors and not merely speculators, that the project to be constructed would be a real public benefit, and not operate as an obstruction to a development of the irrigation resources, in a comprehensive and economical manner."

The object of the law, Mr. Davis explained, was twofold: 1st. To secure the maximum number of prosperous homes; and 2d. The perpetual control of irrigation works by the people.

Continuing, he said: "I think we have a good irrigation project. It is now up to the people. I would further state that the chances of the Klamath project are excellent. They are so sufficiently good that I would recommend the formation of a water-users' association by the people so that they could deal directly with the Government."

A report was then asked for from the committee which circulated the petition requesting the Government to continue their investigation. The

three gentlemen—R. S. Moore, R. A. Emmett, and S. T. Summers—stated that the sentiment was unanimous in favor of further investigation. The following committee was then appointed, with power to call a future meeting of the farmers for the purpose of forming an association:—R. A. Emmett, J. F. Adams, A. C. Lewis and H. L. Benson. The meeting then adjourned.

A GRAND OPPORTUNITY.

Registrar J. B. Horner Will Examine Applicants for Entrance to the Agricultural College at Corvallis.

Prof. J. B. Horner of the Agricultural College at Corvallis will be at the Hotel Linkville from two to four o'clock Monday afternoon, August 15, to examine applicants for entrance and to meet such others as desire to make enquiries concerning the college.

The Oregon Agricultural College at Corvallis is the largest institution of higher learning in Oregon. It has 530 students and 35 instructors, with Dr. Thos. W. Gatch as President. The school is supported by the State and U. S. Government. Tuition free; board \$2.75 per week; books about \$10 per annum. Includes courses of four years in pharmacy, mining, mechanical and electrical engineering, household economy, military science and tactics, music, agriculture and literary commerce, including book-keeping, type-writing, stenography, etc. School opens September 20.

AN EPOCH IN THE HISTORY OF OREGON.

State Development League Organizes To Assist in the Development of Oregon.

Three hundred Development League delegates, representing the best citizens and best interests of the state, spent last Tuesday and Wednesday at the Marquam Theatre in Portland, in consummating the Development League idea, whereby the State's energies are to be concentrated in the big forward movement intended to give Oregon a place among the big States of the Union.

Klamath County was represented by J. Scott Taylor, who was the special delegate from the Klamath County Promotion Club.

The purpose of the League was outlined by H. M. Calk, President of the Chamber of Commerce. Mr. Calk said:

"This is the most important representative gathering in the history of Oregon. Each individual here is present for the purpose of working for the upbuilding of the State of Oregon. It is an important mission which calls you here, and to the end that there be harmony all through the convention, I will briefly state the objects of this movement. The objects are to bring all portions of the state together in a co-operative movement for the advancement of the state. Heretofore the inland Empire has been working by itself. The Willamette valley has been doing the same. Portland has done the same. Hence, the object of the enterprise which is about to be launched here today is to bind together all the individual resources of the state by collecting facts and statistics of all these resources, and thus, through a central body, exploit to the world at large the greatness of Oregon, her climate and her soil.

If you tell to the world the extensiveness of our mining, agricultural and horticultural, and timber advantages, you will draw to this state large investments of capital that will develop the state into a condition of unprecedented prosperity. We cannot unaided and alone press Congress to give us what we must have. We must organize and thus bring to bear pressure on the Congress of the United States and enforce recognition of the needs of our great state.

We must advertise through this organization and thus bring to Oregon the desirable and representative classes of other states, and this cannot be done except through organizations stationed throughout the state.

The plan of organization is to form a large number of branch organizations, the state body to be composed of the numerous branches. The duty of the state organization as thus constituted, will be to collect from the various individual organizations, all essential facts relative to the varied resources of the state, and through the central office exploit them to the world at large, to the upbuilding and lasting development of the state. Then she will grow as she has never grown before. It is the dawning of a new era in the history of the State of fair Oregon. Her accretions of capital will be larger and her people happier than ever before in the history of the commonwealth.

IMPROVEMENTS IN KLAMATH FALLS.

Thousands of Dollars Being Spent.

A Series of Articles which will Show Some of the Permanent Improvements Now Being Made in Our City.

(Continued from last week.)

Mongold & Campbell, about \$3000. The first building to be constructed from the product of Klamath Falls new brickyard will be that of Mongold & Campbell's barber shop and bath house. The building will be a two-story structure with solid brick body and stone and brick front. The first floor, which is 24x50 feet, will be used for the barber shop and bath rooms. The second floor will contain offices in the front, and five sleeping rooms. The building will be piped for hot and cold water throughout. The furnace and tanks will occupy the basement. There will be four front windows on the second floor, and a large glass front downstairs 6x10 feet. The building, which is in course of construction, already presents a very attractive appearance, and will be a substantial addition to our city.

Shallock & Daggett, improvements about \$500. The East End grocery firm of Shallock & Daggett have been compelled to add to the capacity of their store. They have just completed a 40x40 addition, which will be used as a warehouse to accommodate their wholesale trade. They have also added a new office.

George R. Hurn, improvements \$300. Geo. R. Hurn is building another addition to his hardware store. This will be used to store his machinery during the winter. The item of freight is so great that Mr. Hurn finds that it pays to have his heavy machinery shipped in the Fall for the Spring trade.

City Drug Store, improvements, \$600. Merryman & White besides moving and completely refitting their drug store, have built a large addition to the rear. This has been fitted up with reception room and private offices for the two doctors. They have also added \$1000 worth of new stock.

New Meat Market, cost \$2500. Koessel & McDonald are building a big two-story frame building in the East End, the lower floor of which will be used as a meat market. The walls of this floor are fourteen feet high; the floor space is 25x49 feet, and will be furnished in modern style with refrigerators, etc. Mr. Koessel says they expect to have the building completed in three weeks or a month.

(To be Continued.)

HONESTY, COURAGE AND COMMON SENSE.

A Few Passages From Theodore Roosevelt's Speech of Acceptance.

We face the future with our past and our present as guarantors of our promises; and we are content to stand or to fall by the record which we have made and are making.

In dealing with the great organizations known as trusts, we do not have to explain why the laws were not enforced, but to point out that they actually have been enforced and that legislation has been enacted to increase the effectiveness of their enforcement. We do not have to propose to "turn the rascals out," for we have shown in very deed that whenever by diligent investigation a public official can be found who has betrayed his trust he will be punished to the full extent of the law without regard to whether he was appointed under a Republican or a Democratic administration.

In the fiscal year that has just closed the excess of income over the ordinary expenditures was nine millions of dollars. This does not take account of the fifty millions expended out of the accumulated surplus for the purchase of the Isthmian Canal. It is an extraordinary proof of the sound financial condition of the nation that, instead of following the usual course in such matters and throwing the burden upon posterity by an issue of bonds, we were able to make the payment outright, and yet after it to have in the Treasury a surplus of one hundred and sixty-one millions. Moreover we were able to pay this fifty millions of dollars out of hand without causing the slightest disturbance to business conditions.

We recognize the organization of capital and the organization of labor as natural outcomes of our industrial system. Each kind of organization is to be favored so long as it acts in a spirit of justice and of regard for the rights of others. Each is to be granted the full protection of the law, and each in turn is to be held to a strict obedience to the law; for no man is above it and no man below it. The humblest individual is to have his rights safeguarded as scrupulously as those of the strongest organization, for each is to receive justice, no more and no less. The problems with which we have to deal in our modern industrial and social life are manifold; but the spirit in which it is necessary to approach their solution is simply the spirit of honesty, of courage and of common sense.

Better Than a Savings Bank. BUY A LOT IN Mountain View Addition to Klamath Falls.

Klamath Falls has been truly called the "Spokane" of Oregon. With its vast water power which is destined to be used as the motive power for numerous factories and mills; surrounded by and the natural shipping point for hundreds of thousands of acres of the best farming land in the west and with millions of feet of yellow pine timber lying tributary to the Big Klamath Lake, our city is fast becoming

THE METROPOLIS OF Southern Oregon.

Permanent improvements are now in course of construction. Business and resident buildings are going up on every hand. These are not in anticipation of future business but are to meet the present actual demands. The resident district is becoming overcrowded. For this reason Mountain View has been platted.

Mountain View is strictly a fashionable resident district. There is not an undesirable or poor lot in the entire addition. THIRTY-SIX LOTS sold the day the plat was recorded to residents of Klamath Falls.

Mountain View is the only portion of Klamath Falls from which can be seen Mt. Shasta and Mt. Pitt, and the other mountain scenery to the south and north, the Upper and Lower Klamath Lakes, Lake Ewauna, the Klamath River and the Big Klamath Basin. The addition adjoins and lies directly north of the famous Hot Springs and Solfatara property, one of the most valuable pieces of property in Southern Oregon. Arlington Drive, the principal street of the addition, runs directly by the Hot Springs.

A chance to double your money in three months. Now is the time to buy at first prices. Lots \$25, \$30, \$35, \$40 and \$50. Terms to suit customers. \$10 down, balance in small monthly payments.

Platted and for sale by
