During the late Boer war, just after the fall of Bloemfontein, soldiers were called upon, owing to the scarcity of civilians, to work the railway. A curious and amusing mixture of early plety and worldliness came to light in a city school room one day when the teacher had asked the children to write on their pads of paper something about the profession or oc cupation in which they would like to engage when they became men and omen. One little girl wrote briefly but effectively, "I would desire to be a lady rider at a circuss if it was the Lord's will." Another little girl with equally mixed ideas wrote, "Missionary, but if not that, millinery or clerk in candy store."

The Difference.

"Far as I can learn," said the Pruntytown philosopher, with his usual raspishness, "the only difference-excepting, of course, in the size of their bills-between the fashlonable city physician, with several mysterious initials after his name, and the plain, every-day village doctor, who is commonly called 'Doc,' and swaps horses on the side, is that the former diagnoses your malady and the latter simply tells you what's the matterthat is, you s'pose they do."-Woman's Home Companion.

SLEEPING VOLCANOES

A thin, vapory smoke, lazily ascending from its crater, may be the only visible sign of life in the sleeping volcano; but within is a raging sea of fire, molten rock and sulphurous gases. Those who make their homes in the peaceful valleys below know the danger, and though frequently warned by the rumblings and quakings, these signs of impending erup-

Mrs. Haskell, Worthy Vice Templar, Independent Order Good Templars, of Silver Lake, Mass., tells of her cure by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MES. PINKHAM: Four years ago I was nearly dead with inflammation and ulceration. I endured daily untold agony, and life was a burden to me. I had used medicines and washes internally and externally until I made up my mind that there was no relief for me. Calling at the home of a friend, I noticed a bottle of Lydia E. Pinkham's Vegetable Compound. My friend endorsed it highly and I decided to give it a trial to see if it would help me. It took patience and perseverence for I was in bad condition, and I used Lydia E. Pinkham's Vegetable Compound for nearly five months before I was cured, but what a change, from despair to happiness, from misery to the delightful exhilarating feeling health always brings. cases, is it justice to yourself to say, without trying it, "I do not believe it would help me"? Surely you cannot wish to remain weak, and sick and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's

Vegetable Compound will help you just as surely as it has others. Mrs. Tillie Hart, of Larimore, N. D., says:

"DEAR MRS. PINKHAM: I might have been spared many months of suffering and pain if I had known of the efficacy of Lydia E. Pinkham's Vegetable Compound a few months sooner, for I tried many remedies without finding anything which helped me before I tried the Vegetable Compound. I dreaded the approach of the menstrual period every month, as it meant much suffering and pain. Some months the flow was very scanty and others it was profuse, but after I had used the Compound for two months I became regular and natural, and so I continued until I felt perfectly well, and the parts were strengthened to perform the work without assistance and ratio. Law like a different without assistance and pain. I am like a differ-ent woman now, where before I did not care to live, and I am pleased to testify as to the good your Vegetable Compound has done for me." Sincerely yours, Mrs. TILLIE HART, Larimore, N.D.

Be it, therefore, believed by all women who are ill that Lydia E. Pinkham's Vege-table Compound is the medicine they should take. It has stood the test of time,

and it has hundreds of thousands of cures to its credit. Women should consider it unwise to use any other medicine.

P. O. DEPARTMENT IS BUSY.

Many Changes Made in Names of Old and Familiar Offices. The Postoffice Department has been playing havoc with the old familiar names of offices throughout the cosntry. It has been obliged to discontinue the mail service at New York. Te be sure, it is not the New York of the Great White Alley whose postal ficilities have been cut off, but a town of somewhat smaller size, in the State of Iowa. It has also been the unsapple ness of the people of Rock Brauth, in the same commonwealth, to lose their postoffice, and the records have been transferred to Correctionville. Opinous name! Let us hope the records are

straight. In Michigan the department has amended the name Sault de Ste, Marie into Sault Sainte Marie, and it has established the offices of Rac and Rescue. In Minnesota that note office known for years as Proctoknott has been shorn of its final syllabb, and the famous orator is known only by his Christian name upon the milling lists now. Skog is a new name in Minnesota, and a good one. In Mississippi Chunkeys Station has been frans formed into Chunky. In Oregon Needy has been stricken from the list, and in Pennsylvania Arcadia has been es-

In the Philippines Masbate has been discontinued. Equality has been established in South Carolina and a new Bunker Hill has arisen in Tennessee Doeville has also sprouted in Tennes see, and there the much sought John may have his home.

#### \*\*\*\*\*\*\*\* A JAPANESE HERO.

<del>\*\*\*</del> All Japan has been ringing with the fame of Takeo Hirose, the first great naval hero of the Japanese-Russian Boarding school for young men and boys war, who was killed in Admiral Togo's Box 322 University Park Station, Portland, Ore. second attempt to block up Port Arthur. Hirose was leader of the volunteers who set out to sink their ships and, if necessary, themselves, in the mouth of the harbor. He was killed by a projectile from a Russian quickfiring gun while seeking to save the ife of his friend and subordinate. Pet ty Officer Sugino. The New York World tells of other deeds of courage performed by Hirose.

He first proved his bravery in the war with China. After that war Lieut. Hirose, who spoke Russian and French well, was sent as naval attache to the Japanese legation at St. Petersburg. He came into prominence there through an incident which occurred at a ban quet. A Russian officer declared that FROM YOUR DEALER the Japanese, so small of stature, could not, as individuals, hold their own in any war. Hirose smilingly defied any three Russians to overcome him at wrestling. Roars of laughter greeted the challenge, for in those days Japanese Jiu-jitsu was not described in every newspaper.

At last, for the fun of it, the Russian officer sent for three large and sturdy soldiers. The little Japanese threw the Russians, one after another. Hirose remained in St. Petersburg three years. The daughter of a Rus sian naval officer fell in love with the gallant young Japanese. Her father, who greatly admired Hirose, let it be known to him that he would not be unwelcome as the young girl's suitor. Hirose, who also cared for the girl, struggled with his affection for three

Then he wrote to her father, and pointed to the inevitable war between Russia and Japan. He said: "When my country calls me to duty I shall have to turn to account all the valuable professional hints received from your kind lips and so help to do mortal hurt to your country's navy. Thus ill must patriotic duty make me repay all your kidness. With this in my mind and in my heart, how can I presume to sue for your daughter's hand, knowing that after the outbreak of the most likely of wars the hand of fate might destroy the the happiness of your daughter in the most ruthless of ways, should I have been so happy as to have won her hand."

Hirose in his poetic temperament as well as in his dauntless spirit truly represented the old warrior class of Japan, the Samurai.
