Please call and see us between now and the 5th. Light & Water Co.

Frank P. Grohs and family, came in from their "Rimrock" ranch Friday. One of their children is suffering with tonsillitis and was brought here for treatment.

Alex McDonald and wife of Langell Valley, arrived in the city Wednesday, on a visit to their parents, Mr. and Mrs. Geo. McDonald, and also to attend the wedding of their sister.

C. T. Silvers, ex county commissioner of Klamath county and now a prominent hotel and business man of Picard arrived in the city Tuesday to be in attendance at the Irrigation Mass Meeting.

Alex Davis, foreman for J. W. Howard came in Tuesday from Klamath Marsh where he purchased 300 head of stock cattle and 500 tons of hay. He paid \$15 for the cows and calves and \$12½ for yearlings, and the hay cost him \$3 a ton.

J. W. Maxwell, of Tacoma, government bank examiner, arrived in the city Monday on his return from Lakeview and spent the entire day in examining the books and condition of the First National Bank. All National banks are thoroughly examined at least twice a year. Mr. Maxwell reports the First National Bank of Klamath Falls in good condition.

Fred Moore and company have been giving "positively last appearance" shows in Klamath Falls for over a year now but they returned Thanksgiving evening for another final and last play. Klamath Falls people are easy and long suffering and they turned out and packed the opera house to see Uncle Tom's Cabin. They witnessed one of the rankest pieces of acting ever perpetrated on a Klamath Falls stage. Mr. and Mrs. Moore have many personal friends here but even these are willing to concede that the limit was reached in this last "appearance."

WITHROW-MCDONALD

Mr. Bert E. Withrow and Miss Margaret McDonald, two popular members of the younger set in Klamath Falls society, were married at 8 o'clock, Thanksgiving evening at the residence of the brides parents Mr. and Mrs. Geo. McDonald. The ceremony was performed by Rev. Chy Starr, and was witnessed by a number of relatives and friends. The young couple are both members of well known and respected families of Klamath county. They have moved into the Withrow residence in West Klamath Falls, where they will make their home.

CLYDE NICKERSON ON CHETO.

Clyde Nickerson, a well-known local mariner, has been appointed chief engineer on the gasoline schooner Cheto. The vessel is being fitted out with a refrigerating plant preparatory to being placed on the run between Portland and Rogue river. Her engines are also being overhauled, and it is thought that she will be in shape to go out on her initial trip in about two weeks. On the down voyage the Cheto will carry general freight; returning she will bring a cargo of steelhead salmon.—Portland Journal.

CANAL COMPANY RIGHT OF WAY KNOCKED OUT.

The truth is mighty and will prevail. In an article thus headed in the Express of last week, we quote the following:

"Only an informal meeting of the board was held, but all the trustees present signified their willingness to grant the right of way asked for as the Canal Company owns most of the property abutting on the right of way, and as the few private owners in that neighborhood did not object." Is the heading a joke?

LOCATED AT ASHLAND.

An institute for the eye, Dr. Castien Specialist. I employ my own optician, who grinds glasses according to my prescription and according to the wants of every individual case.

Glasses correctly fitted. Examination, ophthalmoscopically and test for visual errors 10 to 12 a. m., \$5. Examination free 2 to 5 p. m. Eight years Specialist at California Institute of Optometry, Oregon Institute of Optometry, Camps Block, Ashland.

THANK HEAVEN.

I Am Glad We Two Are Not As Other Men Are.

Really what a cloak of purity the editors, H. H. and Jay Scott, have acquired at some misfit counter. It is not essential to a small discussion of the merits of "knockers" to talk about the government, the Klamath Canal Company or any other worthy people, but the aforesaid representatives of the "lilies and languors of virtue" seem to think that the people take them seriously as the representatives of the government, which is surely an error, for a government that is as great as this, can with credit to itself and to them, secure the services of such competent and sincere men as Mr. Newell and Mr. Lippincott, but surely to such depths it has not fallen as to entrust the destinies of a large irrigation project or the fate of a county to such men as the self styled ambassadors of the nation who just now reside here and as aforesaid, came here from the Lord knows where and the Lord don't care.

Now just because a man likes to josh a gopher's tail or a mole's optics, it does not follow that he is "agin the Government."

And neither does it follow because our friend of the bifurcated cognomen or our friend who came here from somewhere, have gazed into a nit's eyeball and have seen therein a mighty conflict waging and have pinched the tail of a pin-worm and secured a bellow which sounded like the clash of arms and the muffled roar of infantry, that anyone in

this section is planning treason, either to the nation or the people of this county.

"The times were that when the brains were out a man would die and there an end," but now they rise with twenty mortal murders on their brows and push us tottering from our stools—"I don't think."

And why, well because, "It is so because I have said so," does not quite stand the test of experience with most men. And because a man says he is pure and holy, does not prove it, and because a man fresh from the city, who perhaps has been hired to represent a cause, says he is the only friend of the farmer, that does not prove it. Time will establish that fact, and we need a little corroborating evidence to prove who is getting the graft and who is not. We, most of us walk around town glad that the good Lord lets us make a living and lets us live and are satisfied, and do not have a little tinkling jewsharp in our insides, which is all the time dingling away, "there he goes, there he goes, the man who did it, the man of the hour, the Moses of Klamath county"—and just to complete the rhyme, "I see the cut of his underclothes."

Now, dearie, why get so serious about a little matter of bread and butter, for there was always bread and butter, even before "the external Saki poured such bubbles as you and I," and the good people of Klamath county were not all born yesterday, and probably know what they want and probably will get it if they can, and if in the wash which always comes on Monday, either now or in the future, it develops that Government irrigation is the best thing no doubt the people will get it, and if it develops that it is not the best thing, then they will also get irrigation. Don't crowd us too hard honey, for while we know you are sincere, because you said so, yet we don't know it, so let us have a little time to think, and then after the egg is laid, why get in and cluck, if you want to, for it won't really matter, and besides we notice the producer of the ovum bivalve, nearly always has a lot of help when it comes to the clucking.

As the appellation sounds sort of good, suppose we for present purposes, again claim that we are A Citizen.

DEW DROP CONFECTIONERY STORE

Geo. Wilson, Prop'r.

MERRILL - - OREGON

FULL LINE OF CHRISTMAS GOODS.

**BOWDOIN JOB PRINTER
